

ANKRAVS

WinPrece + Telema EDI

Exchange EDI orders and EDI invoices
with 3,800 shops and 1,200 suppliers.

What is EDI?

Electronic Data Interchange (EDI) refers to computer to computer exchange of business documents in electronic format, for example, sales orders and invoices as e-documents. E-invoices are faster and cheaper than paper invoices. It is estimated that over 50 EUR can be saved in one transaction when replacing paper documents with e-documents.

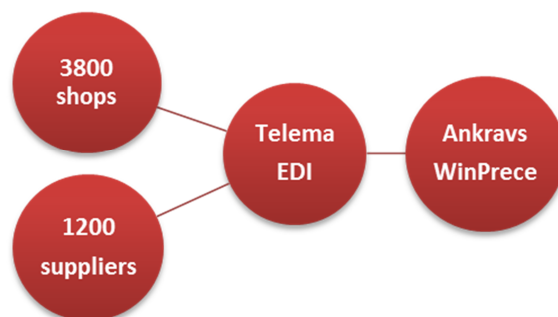

How can you get it?

If you are using Ankravs WinPrece at least version 5.00.13.12, it is now possible to start exchanging e-invoices and e-orders with 4000 partners in Baltics with just a few clicks of a button! Just call „Ankravs” SIA at 67383633, 63782114 and Telema Module in WinPrece will be activated for you. Telema Module enables you to technically exchange documents with all Telema EDI Network members. You also need business agreements with your Trade Partners and with Telema.

How much does it cost?

Activation of WinPrece Telema Module does not cost you anything. For document exchange, there are monthly fees and per document fees (similar to Telecom packages). Monthly fees start at 9 EUR for small companies.

For more information, please contact Telema Latvia specialists at 67930031.

☐ Veikt automātisko importu

☒ Veikt automātisko eksportu

Is it difficult to use?

There is no new software to be learned. You are still working in your usual WinPrece environment. Using Telema Module is easy. As requested by user, Telema Module can perform both import and export of orders and invoices. Department/branch (as applicable by WinPrece implementation) is selected as target/source for received/sent documents. E-documents are directly exchanged with Telema EDI system. The first time using Telema Module you need to set attributes for connection to Telema EDI system. Ankravs support will provide details on usage of Telema Module.

Benefits of e-invoices and e-orders

- TIME – increased speed of processing orders and invoices
- ACCURACY – less costly errors as human mistakes are eliminated
- SECURITY – documents are delivered over secure channels to authorized recipients
- COST EFFICIENCY – no double-entry of data, much smaller processing costs
- FASTER SUPPLY CYCLE – products get to stores faster, invoices get paid faster

Telema

Right e-document, right time, right place.
