

SMARTDEC is battery-powered wireless intrusion detection and surveillance system. The system consists of three main components: Detector, Communication Bridge and Command Center.

SMARDEC LI-ION BATTERY CHARGER

Li-Ion charger is used to charge batteries of Smartdec system devices bridge and detector.

GENERAL

AC (EU plug) Li-ion charger
Charge indication LED
1-4 battery socket housing
1S type charger – 4.2V
Automatic shutdown when battery fully charged
Protection / indication for reversed polarity

ELECTRICAL

Input: AC100-240V 50/60Hz Output: 4.2V 2.0A
Conformity CE & FCC

PHYSICAL

AC/DC adapter
Weight 95g
Dimensions 100x73x54mm

BATTERY SOCKET HOUSING

Weight 355g Dimensions 160x88x40mm

DC CABLE

Length 850mm

Total weight 450g
