**TYRE**

STUDLESS WINTER TYRE

# ICE BLAZER ARCTIC

**PERFORMANCE RATINGS:**

• **SOFT COMPOUND**

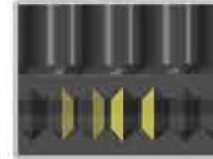

**Asymmetric Pattern**

Inside Tread:

The Z-shaped cross pattern increases the tyre footprint and improves road surface adhesion. The larger number of horizontal sipes increases grip to improve braking on ice and snow.

Outside Tread:

The increased number of crossing grooves and sipes effectively pack and discharge snow to maintain grip on snow and ice will improve braking and driving capabilities.

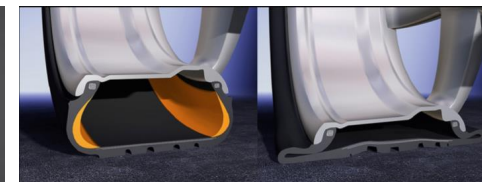

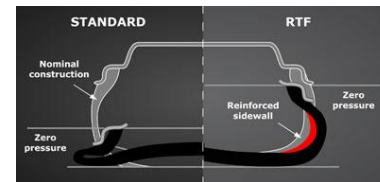

**3D Interlocking Sipes**

The tread blocks are separated into a dense group of fine sipes which improve tyre traction on snow and ice. The base of the sipes are interlocked to enhance block stiffness which ensures greater buckling resistant and improves driving performance on wet and dry roads.

**Serratum Grooves**

The micro grooves subdue sound waves which effectively reduce noise emissions. The grooves are also capable of discharging broken-up ice and snow to improve traction.

**AVAILABLE RUNFLAT  
TECHNOLOGY**

STUDLESS WINTER SUV TYRE

# ICE BLAZER ARCTIC SUV

PERFORMANCE RATINGS:

The crisscrossing grooves designed on the tread block deliver more grip when driving in wet conditions.

STUDLESS WINTER SUV TYRE

# ICE BLAZER ARCTIC EVO

**PERFORMANCE RATINGS:**

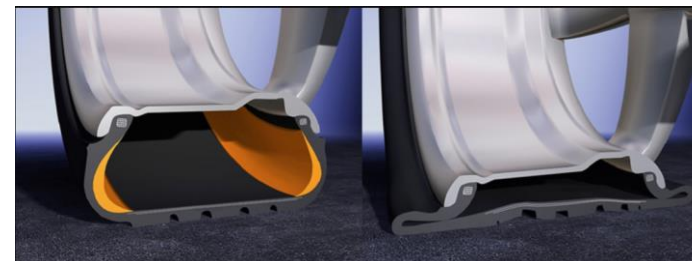

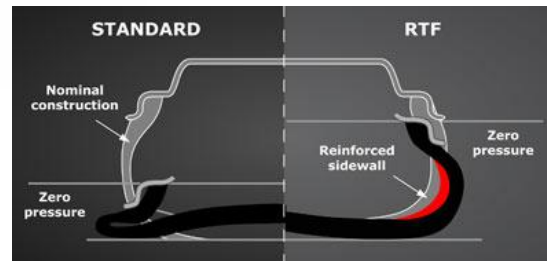

**Interlocked Sipes**

The tread blocks are separated by a dense group of jagged sipes which improve tyre traction. These sipes are interlocked to enhance block stiffness for greater driving performance on wet and dry conditions.

THE MOST EXTREME TESTING CENTER IN THE WORLD  
«WHITE HELL» TIRE TEST TRACK IN IVALO

The testing centre with a fitting name – White Hell – is a place where **TRIANGLE TW401** and **TI501** thoroughly tests its winter tyres on snow, ice and winter slush. This unique site spans over 700 hectares of snowy plains in Ivalo, Lapland, far beyond the Arctic Circle.

A photograph of a paved road covered in snow, leading through a winter forest of snow-laden evergreen trees. The sky is bright and overcast. The text "THANK YOU" is overlaid in the center in a bold, blue, sans-serif font.

**THANK YOU**
