

ProDX 4

ProDX4 brings powerful digital mixing to solo performers, venues, schools and commercial applications that require lower channel counts with an intuitive, easy-to-use interface that looks great anywhere. Keep it simple with its single knob design, perfect for quick and easy level adjustments. Get total wireless control via the MixerConnect app to unlock recallable mix presets, built-in processing like EQ and compression per channel and great-sounding ReadyFX effects. Plus, with Bluetooth® streaming, you can wirelessly play back music or backing tracks right from your phone. ProDX4 delivers the powerful benefits of digital mixing with wireless control in our most compact mixer ever.

ProDX 8

ProDX8 is the ultimate combination of modern digital mixing capability and an intuitive, user-friendly interface. Make easy quick adjustments thanks to its single knob design or dive in to your mix with the Mackie Connect control app for complete wireless control and access to powerful mixing tools like EQ, low cut, compression and ReadyFX engine, all recallable via mix presets. Perfect for performers, bars, schools or workstations that require low channel count but all the benefits of digital mixers with an interface that is incredibly easy to use and learn.

DC16 & Axis mixing system

The Mackie AXIS Digital Mixing System delivers unmatched speed, visibility and customization for professional production and install. With full Dante® interoperability, the modular AXIS system combines the power of the 32-channel DL32R digital mixer and innovative DC16 control surface to deliver a live sound solution with stunning workflow efficiency. Large high-resolution screens provide class-leading readability and the unique SmartBridge intelligently handles up to three iPad® devices. AXIS delivers unparalleled visual feedback and customization that result in dramatically faster workflow speed. Complete with flexible 32x32 recording and a wide selection of powerful DSP, the AXIS system delivers a forward-thinking, modular digital mixing solution with more features per price than any other digital mixer available.

SRM1550

The Mackie SRM1550 powered subwoofer is designed from the ground up to be the perfect match for SRM450 and SRM350 speakers, delivering 1200W of raw power paired with a custom high-output 15" woofer for powerful room-shaking performance. The road-worthy internally reinforced Poplar cabinet delivers on the "Built-Like-A-Tank" legacy that the SRM series is known for and its front ported design provides maximum punch and low-frequency extension. The SRM1550 features stereo XLR inputs, full-range and high-pass outputs plus a variable digital crossover that includes presets for the Mackie SRM350 and SRM450. Get the powerful low end you need from the subwoofer built on the proven SRM legacy.
