There are also some surprise stops en route. During this ~3 hour food tour you will get the first impression on the variety of culinary scene in Estonia, where it came and where is it heading for, along with stories and legends told by our professional tour guides.

Concerning the food stops menu - Tallinn Food Tour consists of around 6 food & drink stops, where at some spots participants of the tour do not even sit down, but will just have a taste of some local traditional and modern food, and some drinks. You will be served a soup, various traditional food samples for snacks, you will try out some local drinks and schnapps, try out some open faced traditional for Estonians sandwiches, some sweets, which are prepared by the ancient recipes dating back to 15th century, and also some locally produced wine, which will be served at the hidden pearl of Tallinn Old Town - a century old wine factory with stunning views from its private viewing platform. A thematic gift will be given to every participant at the end of the tour! **Please note that the food & wine stops and the menu can vary a bit!**
