

Here are 10 reasons to start up in Estonia:

1 Estonia is the perfect place to test and establish your idea! You'll find the no-bullshit-people here who will tell you what works and what doesn't.

2 Estonians are encouraged to become techies – kids in primary school have lessons in computer programming and in selected high schools we even teach how to build bitcoin apps!

3 We do things fast! You can establish a company online in 15 minutes and do the taxes in 3 minutes!

4 Talking about taxes – Estonia has one of the most liberal tax systems in the world with zero corporate income tax!

5 Our e-government solutions are top notch! Furthermore, our startup ecosystem works closely with the government to make Estonia the best place for startups to grow.

6 Life quality in Estonia is high but at the same time the living costs are low. Win-Win!

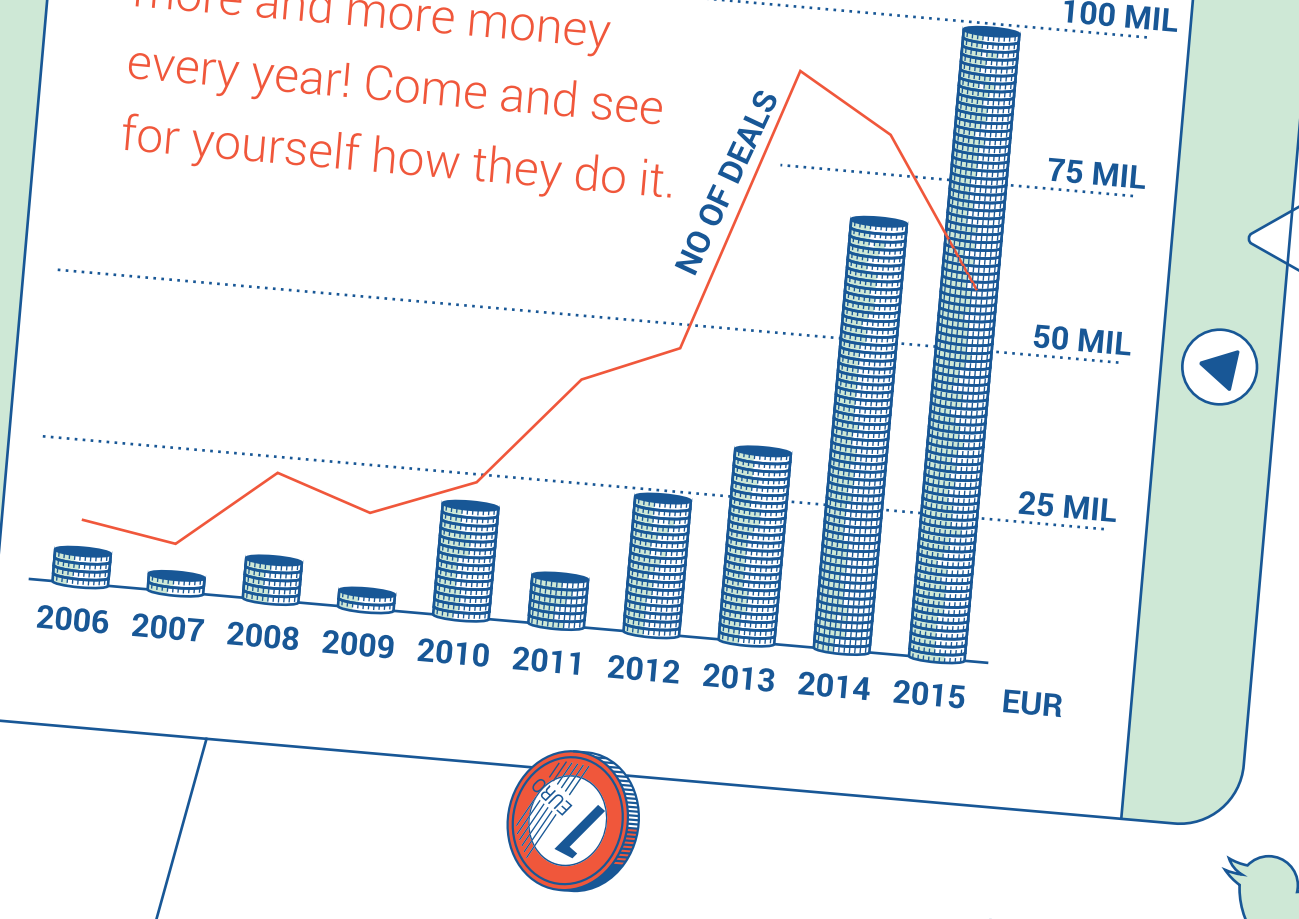

7 51% of the country is covered with forest, we are surrounded by sea from two sides and our air is the cleanest in the world. Sounds like a great natural environment to boost great ideas?

8 Estonian is a bit tricky to learn (check the "õigekeelsus-sõnaraamat" for more information) but luckily, we speak the international language of business!

9 Estonian startups raise more and more money every year! Come and see for yourself how they do it.

10 We have a strong tight-knit startup ecosystem called #estonianmafia! Join the family – we've got you covered!
