CNC ACID PEEL - (60min)

45.00

An extremely efficient special treatment that helps even out the skin tone, bleach any dark Spots and reduce excessive sebum production.

The treatment involves: Skin cleansing, fruit acid 5%, 10%, 20% or 40%, deeply moisturising and lifting massage with hyaluronic acid serum, intensely moisturising hyaluronic acid mask and eye cream and face cream selected according to skin type.

CNC EYE AREA TREATMENT - (30min)

35.00

This treatment is designed to combat aging, fatigue and dryness manifesting around the eyes, complemented with eye area massage and intensely moisturising mask. Finished off with firming eye contour cream.

CNC DIAMOND MICRODERMABRASION - (1h 10min)

55.00

During the treatment, the skin is micropolished with natural diamonds which stimulate new skin cell activity and the production of collagen and elastin. As a result, the regeneration of new and healthy epithelial cells is accelerated and the skin becomes noticeably softer and gets a new radiant appearance.

CNC ACID PEEL WITH DIAMOND MICRODERMABRASION - (1h 30min)

65.00

Natural 10% or 20% fruit acid is used in the treatment. The fruit acid serves to polish the skin, remove dead skin cells and regenerate the skin. Natural fruit acids contain grape acid, citric acid, pineapple acid and passionfruit acid. In addition, synthetic sugarcane juice has been used in the natural glycol acids. After the acid peel, microdermabrasion is very efficient when done immediately as it efficiently eliminates any dead skin cells. The treatment is finished off with an intensely moisturising mask which contains oyster extract, jojoba oil, wheat protein, hyaluronic acid and shea butter.
