

# KD-CAAP: Kawasaki Disease Coronary Artery Aneurysm Prevention Trial

Multi-centre, randomised, open-label, blinded endpoint assessed trial of corticosteroids plus intravenous immunoglobulin (IVIG) and aspirin, versus IVIG and aspirin for the prevention of coronary artery aneurysms in Kawasaki Disease.

Issue 9, October 2023

**THANK YOU FOR ALL YOUR HARD WORK**

We have **48 sites** open across **11 countries** and **70 participants** recruited (as of 23rd October 2023)

**CONGRATULATIONS** to the Top Recruiting Centres

	Site Name	Principal Investigator	Participants Recruited
1	<b>RHSC Glasgow (UK)</b>	Neil Martin	12
2	<b>GOSH (UK)</b>	Despina Eleftheriou and Paul Brogan	7
3	<b>Sachs Paediatric Hospital (Sweden)</b>	Charlotta Nordenhäll	6
4	<b>St Mary's Hospital (London)</b>	Jethro Herberg	5
5	<b>CHU Bordeaux (France)</b>	Marion Bailhache	4
6	<b>RHSC Belfast (UK)</b>	Brian McCrossan	4
7	<b>Royal London Hospital (London)</b>	Mildred Iro	4

**New Sites**

A big welcome to OPBG (Italy—Marchesi Alessandra) and Huderf (Belgium—Goffin Laurence), who joined the KDCAAP trial last month.

**Randomisation Refresher Training**

We will be running two training sessions focusing on the randomisation process (**Friday 10th November** and **Wednesday 6th December**). This is for all site staff who would like to be trained as a randomiser, or for those staff who would like a refresher. Please respond to the invite sent out this week.

**Pocket Cards**

We have created pocket cards for you to have on hand so that screening/randomisations can happen quickly and efficiently. A template will be circulated later this week, however, we will also be sending hard copies to you soon.

**CRF Completion Guide**

Please take a fresh look at our updated CRF Completion Guide, which will be circulated later this week. It is a helpful reference, and we recommend filing the guide in your KDCAAP trial folder for easy access when you next randomise a patient.

**Finished Follow Up?**

Winter is coming!

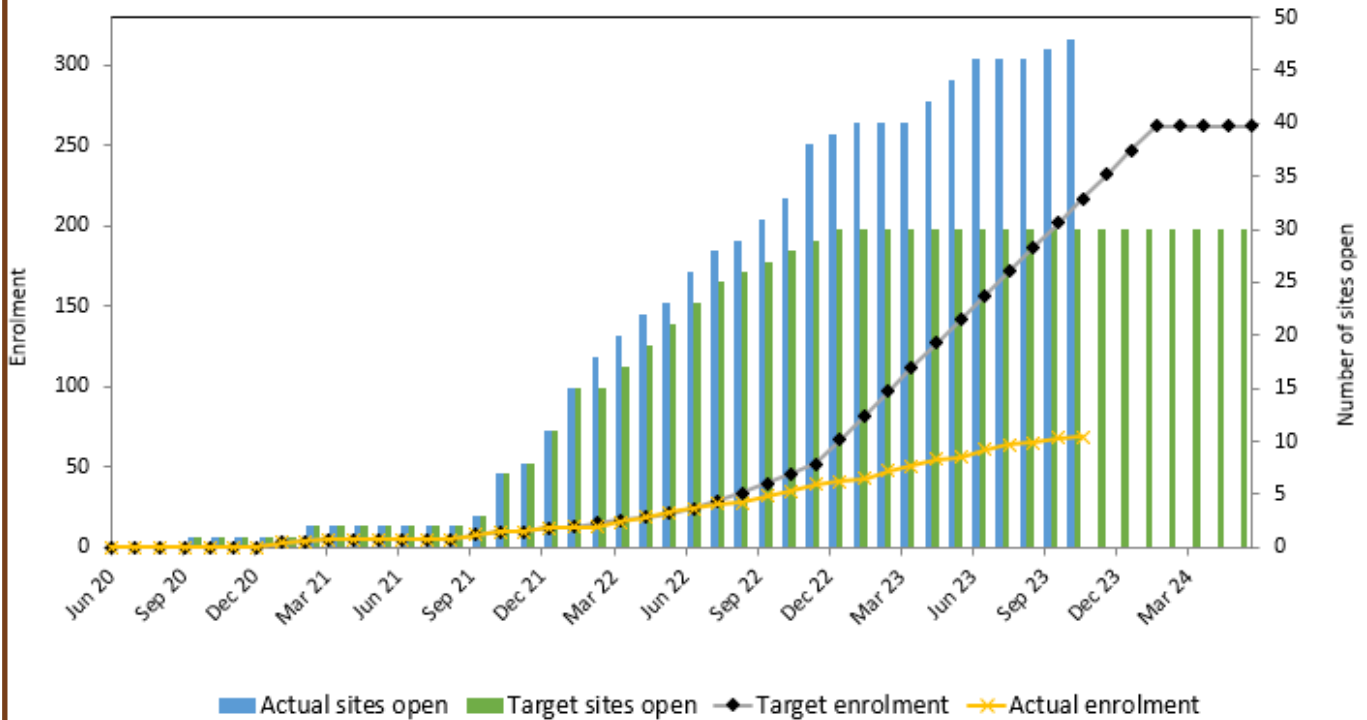

We are expecting an increase in recruitment over the winter period. Therefore, please ensure that the following has been completed for all participants who have finished their follow-up:

1. **Queries**—all outstanding queries have been resolved.
2. **Echocardiograms**—All echocardiogram scans have been uploaded to the Image Repository.

The Target and Actual Number of Sites Open and Enrolled onto the KD-CAAP
