

TECHNICAL DATA E-PRO COLD UNITS

Refrigerated drawers and cabinets for food

The E-Pro range of cold units includes various types of refrigerated units and worktops. Thanks to the flexible modular construction, they are easy to combine to create a customised food service system that best suits personal requirements. All units are made of stainless steel and comply with the hygiene standards for professional kitchens.

GENERAL

- Products are designed for the short-term storage of cold foods
- All surfaces are made of stainless steel
- Ø63.5mm adjustable feet, with a height adjustment range of -40/+20mm
- GN-sized cupboards and drawers
- Removable slide rails and PVC plastic magnetic gaskets

PERFORMANCE

- The technical features of products are designed to meet the requirements of cold storage in +30°C ambient temperature. The capacity is verified by laboratory experiments
- The temperature can be adjusted between +2 and +6°C
- The thermostat control includes a digital temperature display
- The ventilated refrigeration module guarantees even temperature distribution
- Two refrigeration machine options

TECHNICAL FEATURES

- The units have 42mm thick walls, insulating material polyurethane
- CFC and HCFC free
- Refrigerant is R134a
- The refrigeration module is removable without tools and comes with automatic defrost and evaporation of defrost water
- The refrigeration module features an automatic alarm of air-intake filters dirtiness option
- HACCP option available for all models
- All E-Pro cold units are CE marked

Refrigerated drawers and cabinets for food, CDGN

serie **EP E-Pro**

- Temperature range **+2...+6°C** (maximum ambient temperature of +30 °C in cold storage)
- Refrigerator modules: **C1, C2, C3, CH1**
- Unit modules: **1, 2, 3, 4**
