TECHNICAL DATA E-PRO DROP-IN UNITS

Drop-in refrigerated display EP E-Pro

The E-Pro drop-in unit range offers all the equipment needed for a complete and effective self-service line. The top quality units, sized to take GN containers, are compact in size and come equipped with a separate digital control panel.

GENERAL
- E-Pro's drop-in refrigerated display units are designed for food service use and maintaining cold food temperature
- The hygienic wells come with rounded corners, and the exposed surfaces have a seamless finish
- The separate control panel has a connector and is easy to install
- The display units include fluorescent lamps as a standard feature
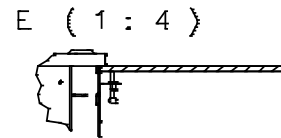

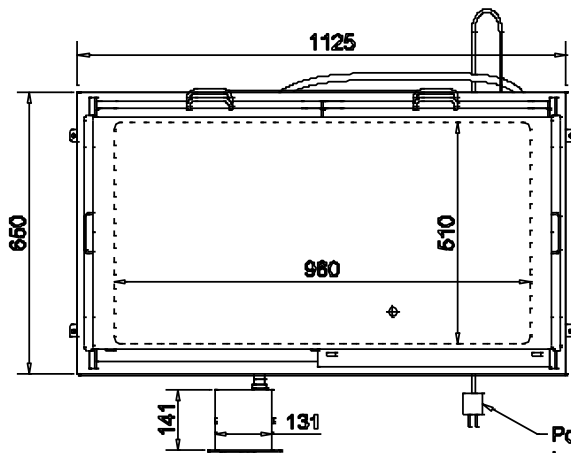

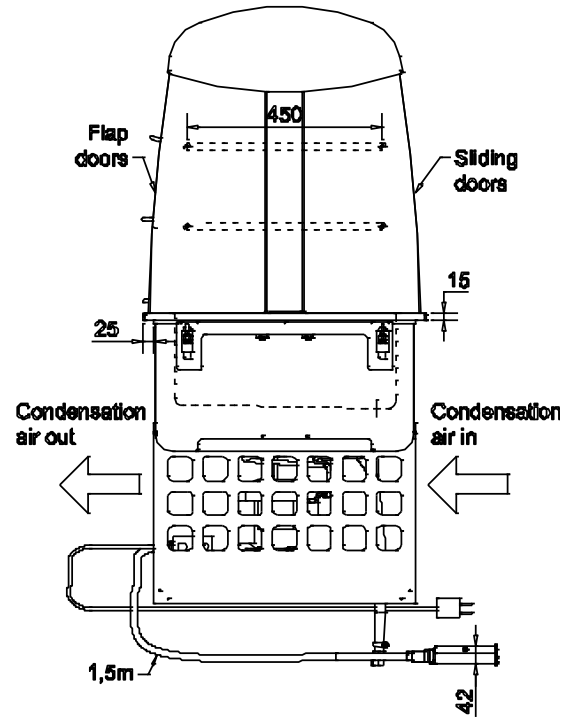

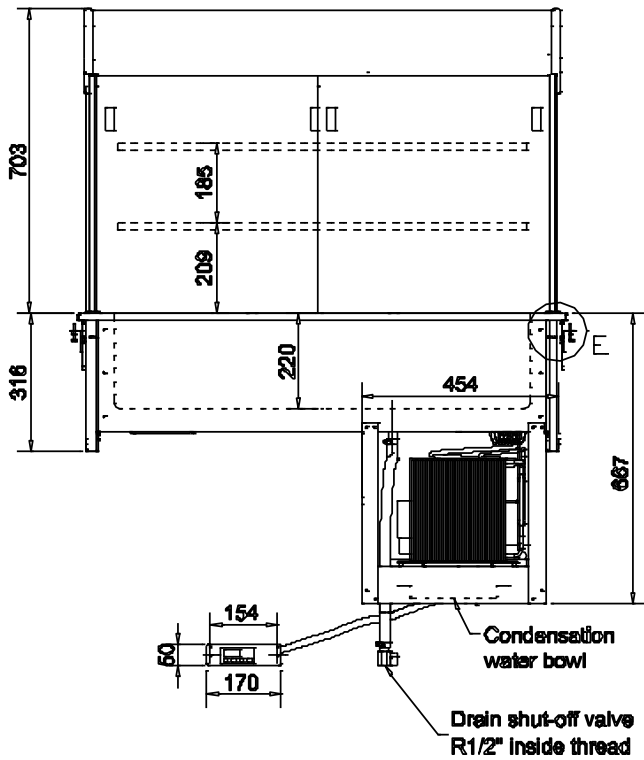

PERFORMANCE
- The digital control panel features an on/off switch and a temperature display
- The temperature in the well can be adjusted between +2 and +15°C, so that the temperature in the display case remains between +5 and +18°C
- As a standard feature, the package contains divider bars for GN 1/1 containers
- The refrigerated display well size is compatible with GN 1/1 containers
- The ventilated refrigeration guarantees even temperature distribution

TECHNICAL FEATURES
- The wells are lined with 30mm polyurethane insulation
- The units are fitted with a 3m and the control panel with a 1.5m power cord
- The material of the display unit is acrylic plastic for easy maintenance, and the top is made of stainless steel
- CFC and HCFC free
- Refrigerant R404a
- HACCP connection is optionally available
- All E-Pro drop-in units are CE marked
