6" SnapLight® LightSticks (15 cm)

With a simple bend, snap, and shake, SnapLight® (15cm) industrial grade, phthalate-free chemical lightsticks provide instant light for all emergency situations. Each SnapLight® creates 360° of illumination, and is visible up to 1 mile. They are non-toxic, non-flammable, waterproof, and generate no heat or sparks.

Contact us for a customized foil to light up your brand.

8" Ultra High-Intensity Flare Alternative® (20cm)

Developed as a safe, environmentally-friendly alternative to traditional incendiary flares currently used by law enforcement. With reflective strip, it enhances visibility up to 1 mile (1,6km) during emergencies. The attached wire stand allows easy set-up and activation. Ideally used at accident scenes, vehicle breakdowns, as hazard markers, and to alert drivers of obstacles.

8" Flare Alternative®	PART#	CASE
30 MIN ORANGE ULTRA-HI	9-27035	4 x 12-PK

10" Flare Alternative® (25cm)

With no batteries required, the 10" SnapLight® offers 360° of illumination. It fits securely in a metal bipod stand to prevent rolling and is visible up to 1 mile (1,6km). SnapLight® lightsticks are maintenance-free, non-toxic, non-flammable, and waterproof.

CYALUME TECHNOLOGIES

LightStation®

With an easy to locate glowing photoluminescent label on the front cover, LightStation® provides assurance that a safe light will be available when the power goes out.

LightStation® Models 4 and 10

Designed with a fire resistant case. When the front cover is pulled open, all SnapLight® lightsticks (25 cm) activate to provide instant illumination, flooding an area with portable light for evacuees. Available in Red and with MOQ of 250 pcs for other colors. Possible safety lock option (Model L).

LightStation® Model 20

Designed with a heavy-duty molded plastic case. When the front cover is pulled open, one SnapLight® (25 cm) activates, leaving 19 SnapLight® lightsticks for individuals to carry and use as light sources while evacuating. Available in Red.
