## ABOUT US

We are pleased to present our 2018 collection of our essential models. For approximately 20 years, we have had the pleasure of offering you a selection of garden buildings and cabins for your holidays.

We constantly pay attention to changing market needs and expectations so that we can bring you an increasing choice of cabins to suit the purpose you need them for. Each request is unique and requires its own original solution. Lasita Maja is seeking to develop cabins that suit your outside space and life.

You can use your new space for taking it easy while the kids play, or simply as an extra living area added onto your home. To satisfy you, the customer, we have set up a total quality control including production, delivery and customer service. Discover the compact essential range of Lasita Maja. We provide a solution for all your needs - varying from sheds up to leisure cabins and garages.

Thank you for choosing one of our garden buildings and we wish you many years of pleasure from your Lasita Maja log cabin!

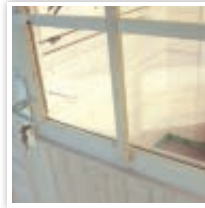

## DESCRIPTION OF SYMBOLS

	Article number		Ridge height cm		Floor m <sup>2</sup>

	Side wall height cm		Window size cm		
	produced in Estonia		produced in Hungary	✓	Included
				-	Not included
				⊙	Optional

# OUR QUALITY DETAILS

Our wall **log angle profile** are made with wind-tight connection, to ensure a better wind resistance.

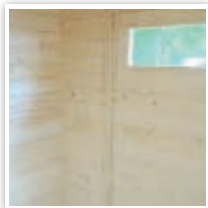

**High quality windows and doors** with real or plexi glazing.

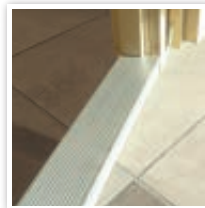

**Impregnated foundation** beams to preserve your cabin from rises of humidity and give it longer life (available only in optional floor packages).

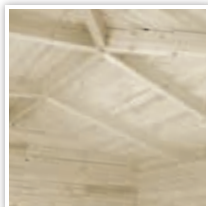

**Doors with cylinder lock** for security of your valuable garden tool.

**Wooden storm protection** slats to protect your house from strong winds. (in some kits not included)

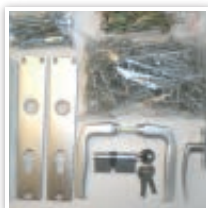

**Entry doors with low sill** (selected models with Aluminium cover), to provide easier access to store your heavy garden tools and machines in your log cabin.

**15 mm or 18 mm** solid wood roof boards with tongue and groove joints.

Our houses are **packed carefully**. UV protection folio preserves them from bad weather conditions, also with a stable pallet which is fastened with belts to mitigate transport damages.

**Fixings and assembly instruction** come with every building - no additional hardware required.

**Delivery to your yard** will be easily handled by our experienced dealers and logistic partners.

[www.lasita.com](http://www.lasita.com)

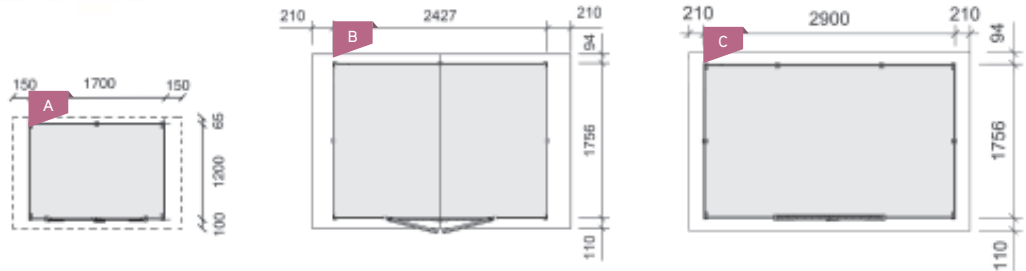

**Unlimited choices** for your garden
