

4-day workshop

# WEAVE HACKERS

At Tartu Art College (Estonia)

August 23-26, 2016

**Supervisor:** Kadi Pajupuu (docent, Textile art and design lecturer at Tartu Art College)

**Target audience:** weaving teachers, textile professionals

**Number of participants:** 12

During this workshop weaving teachers and textile professionals can get hands on experience with the loom-related inventions of Estonian textile artist and inventor **Kadi Pajupuu**. The tools to be used include also **Stepping Reed** and **RailReed**. We will be using inventive tools on 12 handlooms, among them 2 Toika computer looms. Looms are ready to weave; warp materials include wool, cotton, linen and paper. Participants are encouraged to share their experience in teaching the art of handweaving and show creative works that they and their students have made.

**Price:** EUR 300 (price includes workshop participation fee, materials used, coffee breaks, excursions and fees for museum visits). Price does not include accommodation and lunch.

**Registration is open until April 30**

**Register here:**
