

ENVIRONMENTAL POLICY

01.03.2023.

The production of wood wool panels and fibre cement products is associated with environmental impact that can include both resource consumption and emissions.

This environmental policy is a statement of the company's environmental objectives and commitments, including its commitment to sustainable development. CEWOOD Environmental Policy includes the following aims and objectives:

1. To reduce emissions, save resources, improve the quality of the environment and promote sustainable development.
2. To incorporate the commitment of environmental protection into day-to-day operations, including the company's responsibility towards and protection of the environment and the responsibility of all staff towards environmental management and sustainable development.
3. To ensure compliance with applicable environmental legislation and other compliance criteria.
4. To achieve continuous improvement that involves monitoring, evaluating and progress of the company's environmental performance in the light of changes in environmental conditions and technology.
5. To achieve openness and cooperation with other organisations, stakeholders and the public to promote environmental protection and sustainable development.

Environmental protection measures are integral to the company's operations. CEWOOD is implementing a set of measures to reduce its environmental impact.

CEWOOD has introduced an environmental management system that allows for continuous environmental monitoring and analysis of the company's activities. CEWOOD regularly reports on the environmental impact of its activities to performance-monitoring bodies and relevant public authorities in accordance with procedures established by law.

CEWOOD sets its objectives, builds and regulates its activities taking into account various environmental aspects and in compliance with legal requirements.

CEWOOD has developed an industrial accident prevention programme, which includes measures to manage the environmental impact of the company's activities, including in emergency situations.

CEWOOD undertakes to implement continuous improvement measures in its environmental management system to prevent pollution and ensure the effectiveness of environmental management.
