

HEXAGON TILES 289x250 mm

Each CEWOOD Hexagon tile is custom made, with personal touch according to highest quality standards.

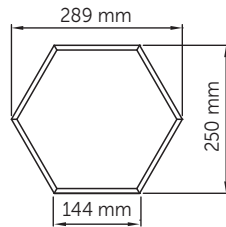

Hexagon tiles can be used for ceiling or walls finishing, just by gluing tiles on prepared surface. CEWOOD Hexagons are aesthetically attractive and creates unique and modern interior, improves indoor acoustics and microclimate.

CEWOOD tiles are made of 100% natural ingredients: wood wool, cement and water.

Upon request tiles can be produced in any colour according to RAL colour chart. To achieve a harmonious design, we recommend using up to 4 colors in interior.
