Essential Blush with Deep black headboard

We believe a  
**well  
rested  
world**  
is a more  
beautiful world

We've been working on the best sleep for tomorrow for over 130 years. Every bed is made with attention to details, the environment, and the future.

All because when you're well rested, you feel it: you are relaxed, energetic, sharp, and friendly. You are awake.

Original Deep black with Outline headboard and Burgundy oak table

Let's introduce:  
Original

## Auping Original

The Original is a minimalist bed with strong lines and an elegant look. The bed is inspired by one of Auping's very first designs, the Cleopatra, which was designed by Dick Cordemeijer. The Auping Original is available in ten colours.

Good Industrial Design Award 2014

## Frame

The Original has a strong steel frame with rounded corners. Together with the aluminum legs, this gives the bed an elegant look. The frame is available in ten different colours, so chances are your favourite colour is included.

The frame is always combined with the black Auping mesh base. By choosing a different colour of raised legs, you can add even more contrast to the bed.

Of course, you can also choose to get them in the same colour.

The frame is cleverly designed: the assembly parts are hidden so that you can only see the clean frame. Not only does it look beautiful, it's also handy. It is very easy to assemble and disassemble the Original. That makes moving just that little bit more enjoyable.

Original Forest green with Outline headboard and Coral red raised legs

## Headboards

Three matching headboards are available for the Original: two upholstered headboards and one lacquered wooden headboard. The upholstered headboards can also be reupholstered. That's pretty sustainable because all you have to do to get a new look is order a different cover.

Original Deep black with Stitch headboard and Deep black table

### **Straight: sleek, wooden headboard**

A minimalist wooden headboard with rounded corners, lacquered in one of the ten Auping lacquer colours. Choose a matching or contrasting colour for your frame.

### **Outline: thin, minimalist headboard**

The Outline is sleekly designed with the wooden base upholstered in a soft fabric of your choice, finished with a subtle cord piping. This headboard can be upholstered in any of the 89 fabrics from the Auping fabric collection.

### **Stitch: rugged, modern headboard**

Stitch is a rectangular headboard with a thick cord piping. The quilted seams create a modern striped pattern. This headboard can also be upholstered in any of the 89 fabrics from the Auping fabric collection.

Original Forest green with Straight headboard and table, both Forest green

## Everything at your fingertips

Would you also like to have a glass of water, a novel or a notebook next to your bed? The matching table that we designed for the Original will hold these things for you perfectly.

This round, wooden table seems to float on the sleek steel frame. Despite its size, the choice of finish is extensive. With 16 colours available, you can choose whether or not to contrast it with your bed.

You can also combine the Original with an upholstered mattress. This creates a nice combination of fabric and steel.

Let's introduce:  
Auronde

# A true design classic

The Auronde is a true design classic made from wood with characteristic aluminum details.

Designed by Frans de la Haye in 1973. Its rounded shapes and bright colours were revolutionary back then.

And once again it's revolutionary: with new materials and the possibility to adapt the details to your wishes, you get the same great design from back then, with today's contemporary design.

“  
To me, the bed  
is a sacred place;  
the only place where  
we can achieve utter  
bliss and safety.  
”

*Frans de la Haye*

### Through the designer's eyes

A bed that lasts a lifetime, that's easy to assemble, and just as easy to disassemble. Without losing sight of the comfort and design.

That was what Frans de la Haye had in mind when he designed the Auronde. And that's why he opted to combine exceptionally strong beech wood with striking details, thus bringing design and sustainability together perfectly.

Auronde Night blue with headboard and Rusty red buttons

A photograph of a modern wooden bed and table set. The bed frame is made of light-colored wood with a white mattress. A matching wooden table is attached to the side of the bed. On the table, there is a white mug with a logo and a light blue teapot with a red lid. The table has a curved, modern design. The background is a plain, light-colored wall.

Focus on  
**functionality**  
and  
**design**

The aluminum buttons on the legs of the Auronde are an unmistakable component of the design. Because you can choose from 11 different colours, they give your bed an original character. In addition to this, they connect the separate parts of the bed frame. As a result, you can easily disassemble the Auronde. This is very useful when you move, for instance.

Let's introduce:  
Essential

# Contemporary & sustainable design

With its slender lines and slightly curved headboard, the Essential is a real bed for design-lovers. Available in various colours and options, this contemporary bed fits in every bedroom.

ā

Lacquered headboard in 10 different colours

ā

Recyclable aluminum frame

### A 100% recyclable bed

Made of real materials such as wood, steel and aluminum that are 100% recyclable, the Essential has a sincerely sustainable design. Here at Auping, we are very proud of it. You can sleep easier knowing that your choice of bed is not only going to give you a good night's sleep, but is also good for the environment.

ā

A coarse woven fabric in the same colour provides a nice contrast in structure

# Ultimate comfort

Complete your perfect bed by choosing a flat or (electrically-) adjustable mesh base and a mattress that suits your body. The Auping mesh base, combined with an Auping mattress, offers exactly the right distribution of body pressure, ensuring you get a good night's sleep.

The top mattress provides extra comfort

The Essential can also be combined with upholstered mattresses

Available in two heights

**KÖHLER WILMS**  
| product design

"We think it's important that the Essential is made available in many diverse styles so it can be used in various interiors over a long life," say Claudia Köhler and Irmay Wilms, the Berlin design duo who designed the Essential bed model for Auping.

Auping Essential is the winner of the "red dot design award" 2012.

Since 1953, the IF Product Design Award has been one of the most important innovative product design awards.

The "Good Industrial Design" award is the most important award for industrial designed products in the Netherlands.

## Essential options

Let's introduce:  
Match

# Complete your style

Because we like to keep all options open, you have all the choice you need with the Auping Match collection. This means you can opt for a wooden or aluminum frame, a straight or curved headboard, different leg types, and for matching, floating nightstands.

# Choose your style

to suit your personal preference and interior

Curved or straight legs

Sleek design thanks to the clear lines

Matching floating nightstands

## An eye for detail

At Auping, design means products with focus and attention to detail. With Match, you can see the perfect balance between comfort, individuality and timeless design. Are you looking for a straight shape? Choose the wooden surround. If you prefer a rounder shape in your bedroom, go for the aluminum bed frame.

### In-house design

The Match is designed by our own Auping Design team of industrial designers, engineers and stylists. For every design, a great deal of thought is put into the material and design choices.

Choose from two aluminum legs: curved or straight.

#### Colours

#### Headboard

##### Straight

Straight and slim headboard decorated with aluminum corners.

##### Curved

Slightly curved wooden headboard.

#### Accessories

##### Nightstand

Matching floating nightstand with drawer.

## Sleep even better? Everything is possible with Auping pillows and duvets

A great sleep depends on so many different factors. In addition to your mesh base and mattress, your pillow and duvet are also really important. Your pillow should support your neck and head, allowing your neck muscles to relax entirely. And a duvet that wraps nicely around your body will prevent gushes of annoying cold air. Auping ensures that you can wake up each morning feeling refreshed and full of energy.

A duvet cover not only offers comfort, it also creates a lovely ambiance in the bedroom. The Auping collection comes in a whole range of designs and colours that blend beautifully with the latest fashion and design trends.

All of our duvet covers have an extra long tuck-in flap

## Choose the perfect Auping pillow and duvet to suit you

A good night's sleep also depends on the right room temperature. It should neither be too cold nor too warm. That is why Auping pillows and duvets feel light and airy and they ventilate perfectly. This creates the perfect temperature, allowing you to wake up feeling refreshed.

Your choice of duvet depends on your own personal preferences. Which feeling is right for you? Do you prefer to feel warm or a little cooler in bed? You can choose a summer or all-year duvet. When the nights get really cold or if you are quick to feel the cold then these are easily combined with buttons to create a 4-seasons duvet.

### Responsible Down Standard (RDS)

Auping sells down duvets and pillows that are certified according to the Responsible Down Standard (RDS). Read more on [auping.com/rds](https://auping.com/rds)
