Estonian Presidency
of the Council of the
European Union

Challenges

National differences

- Not all Member States have national hospital associations
- Not all EU hospitals have hospital pharmacies

Moderate/limited involvement of hospital/
hospital pharmacy representatives on national
level

Diverging levels of FMD implementation and IT
readiness

**SAFER EUROPE
WITHOUT FALSIFIED
MEDICINES**

Estonian Presidency
of the Council of the
European Union

Implementation barriers

- Limited knowledge of FMD in health (and social care)
- Limited involvement of hospital expertise in NMVOs
- Limited information on on-boarding
- Limited cross-information between Member States on issues and solutions

**SAFER EUROPE

MEDICINES**

Estonian Presidency
of the Council of the
European Union

EMVO Hospital Platform

Facilitation of the reduction of implementation barriers through

- Increase of hospital expertise on national level
- Integration of “hospital indicators” in the monthly reporting
- Sharing of best practices

**SAFER EUROPE
WITHOUT FALSIFIED
MEDICINES**

Estonian Presidency
of the Council of the
European Union

Communication Strategy

Level of awareness cannot only be raised through
the hospital platform

Engagement of Member State authorities is needed

**SAFER EUROPE
