

# Synergy & New Dimension Harmonizer tests with Geo-Rhythmogram

## 1. Measuring device and measurement

The measuring device consists of two massive copper handles that measure the body resistance in kiloohm.

The lower the resistance in the body, the better is the Connection between right and left hand.

Disruptive factors increase resistance in the body due to poorer cell communication.

## 2. Measured products

1. Synergy Environmental Harmoniser, silver plated (SEH)
2. New Dimension Agriculture Harmonier, gold plated (NDAH)
3. New Dimension Ring (NDR)
4. Pyramid Pendant, big (PHP)
5. 2 Sacred Cubit Ring, copper, heavy and 2 Lost Cubit Ring, copper, heavy

## 3. Measured circumstances

1. On a chair without interference lines or water vein cross points (without WA)
2. On the chair exactly above the cross point of the water vein (with WA)
3. Wifi and DECT phone switched on (WIFI & DECT)
4. Without WIFI and DECT (without WIFI & DECT)

## 4. Comparison of measurement results

Situation and product used	Resistance in KOhm
<b>Measurements with Synergy Environmental Harmonizer, silver plated</b>	
01) WIFI & DECT + with WA without everything	69,0
02) WIFI & DECT + Wateraders + SEH on	58,5
03) WIFI & DECT + Wateraders + SEH on + NDR 2 minutes	59,0
04) WIFI & DECT + Wateraders + SEH on + NDR 3 minutes	79,0
05) WIFI & DECT + Wateraders + SEH on + NDR 5 minutes	50,7
06) Without WIFI & DECT + without WA + SEH + NDR	39,8
07) Without WIFI & DECT + without WA + SEH + NDR + PHP	44,5
<b>Measurements with New Dimension Agriculture Harmonizer gold plated</b>	
08) WIFI & DECT + NDAH + without NDR	86,8
09) WIFI & DECT + NDAH + with NDR	38,4

10) Without WIFI & DECT + NDAH + with NDR	<b>34,6</b>
11) Without WIFI & DECT + NDAH + with NDR + PHP	<b>20,1</b>
12) Without WIFI & DECT + NDAH + with NDR + PHP + seat ring	<b>15,9</b>

## **5. Evaluation of the measured values**

1. The body has to get used to the Agriculture Harmonizer. Therefore, the values go first higher and with time these get good again (Ref. 08).
2. The use of Harmonizers reduce resistance. That gives a better Cell communication and therefore a better metabolism.
3. The New Dimension Agriculture Harmonizer shows the best results with the New Dimension Ring (Ref. 09)
4. A combination of Harmonizer, New Dimension Ring and seat rings and/or Pyramid Pendant give the best values even without WIFI & DECT radiation (Ref. 11 & 12)

## **6. Suggestions for optimal results**

1. The best radiation is that which is not generated.
2. The best results we get with the combination of Harmonizer and Rings.
3. The New Dimension Rings not only strengthen the energy field of the Environmental and Agriculture Harmonizer, also they give less resistance.
