

The principles of providing a service of packages with fixed prices in the DEAX Law Firm.

Before providing a service, a contract is signed with a client. The contract fixes all the participants' rights and obligations. Below, there are some principles that are the basis of providing a service of packages with fixed prices. They are not binding until the client contract is signed.

- The exact price is pre-agreed before providing a service and is fixed in the client contract.
- The client pays the agreed price that does not depend on the lawyer's final workload. The price does not change even when the work execution takes more time than planned.
- The work is executed on the basis of prepayment. Special agreements are possible.
- The package price includes legal service (consultation, creating documents, negotiation and representation). The package price does not include state fees, travel expenses, translation expenses, etc.
- DEAX Law Firm provides service according to the current law, using the information received from the client, and acts with due diligence, but cannot guarantee the desired result.
- **20% VAT is added to the prices.**
