Volume of Training	1 day (8 hours / ~11 academic hours)
Curriculum group	Motor vehicles, ships and aircraft
Price of Training	As agreed
Target Group	Training is designed for Managers, technical personnel, auditors employed in CAMO or Part 145 organisations and their sub-contractors, as applicable; Regulatory Authority Managers, inspecting staff and Surveyors; EASA Form 4 Holders/Applicants; Maintenance managers; Planning personnel and Records personnel Training. Participant need to have a good working knowledge of EASA Part M and have attended a Part M training course no more than two years prior to attending this refresher workshop
Size of Training Group	Max 12 participants
Aim of Training	To keep abreast of updates to EASA Airworthiness Regulations and the compliance challenges these bring. In addition to review current requirements and regulations
Topics of Training	<ol style="list-style-type: none">1. Regulation overview and rulemaking;2. All amendments to the requirement, its AMC and GM published in the preceding 24 months;3. Open forum discussion of pre-notified rule interpretation and its practical application;4. Future proposed changes as published in NPAs, CRDs and Opinions
Learning Outcomes	Attending this workshop will: <ul style="list-style-type: none">• Advise participants of most recent changes and current proposed changes to EASA Airworthiness regulations;• Provide participants with an opportunity to discuss how to implement new requirements, concepts, or means of compliance within your organisation;• Help participants to demonstrate an up-to-date knowledge of the requirements to one's regulator, customers and internal auditor/compliance monitors;• Better prepare participants to engage with one's Competent Authority and EASA in the rule-making process for emerging rules;• Ensure participants' organisation's compliance with the regulations at all times;• Stay ahead of the competition by knowing how best to apply the

regulation in one's business environment;

- Enable participants to align current process and business practice with the latest regulations;
- Increase one's confidence and competence to discuss elements of the regulation with the EASA Competent Authority regulatory staff
