- Sümmeetriline aplikatsioon, mis on õmmeldud valgele kangale.
- Originaalis punane valgel.
- Aplikatsioon koosneb neljast veerandist.
- Elemendid on inspireeritud loodusest – igal neist on oma nimi.
- Kapa moe tekid:
 - Töödeldud puukoored.
 - Töödeldud puukoor oli teppimiseks sobimatu ning Hawaii kliima ei sobinud puuvilla kasvatamiseks.
 - Tepitud Hawaii aplikatsioonid on tehtud sissetoodud kangastest.
 - Aplikatsioon on geomeetriline.
 - Tekk on kokku õmmeldud mitmest aplikatsioonist.
- Teppimine sai Hawaii saartel alguse 1820-ndatel, mil misjonärid tõid endaga kaasa Lääne kangad.

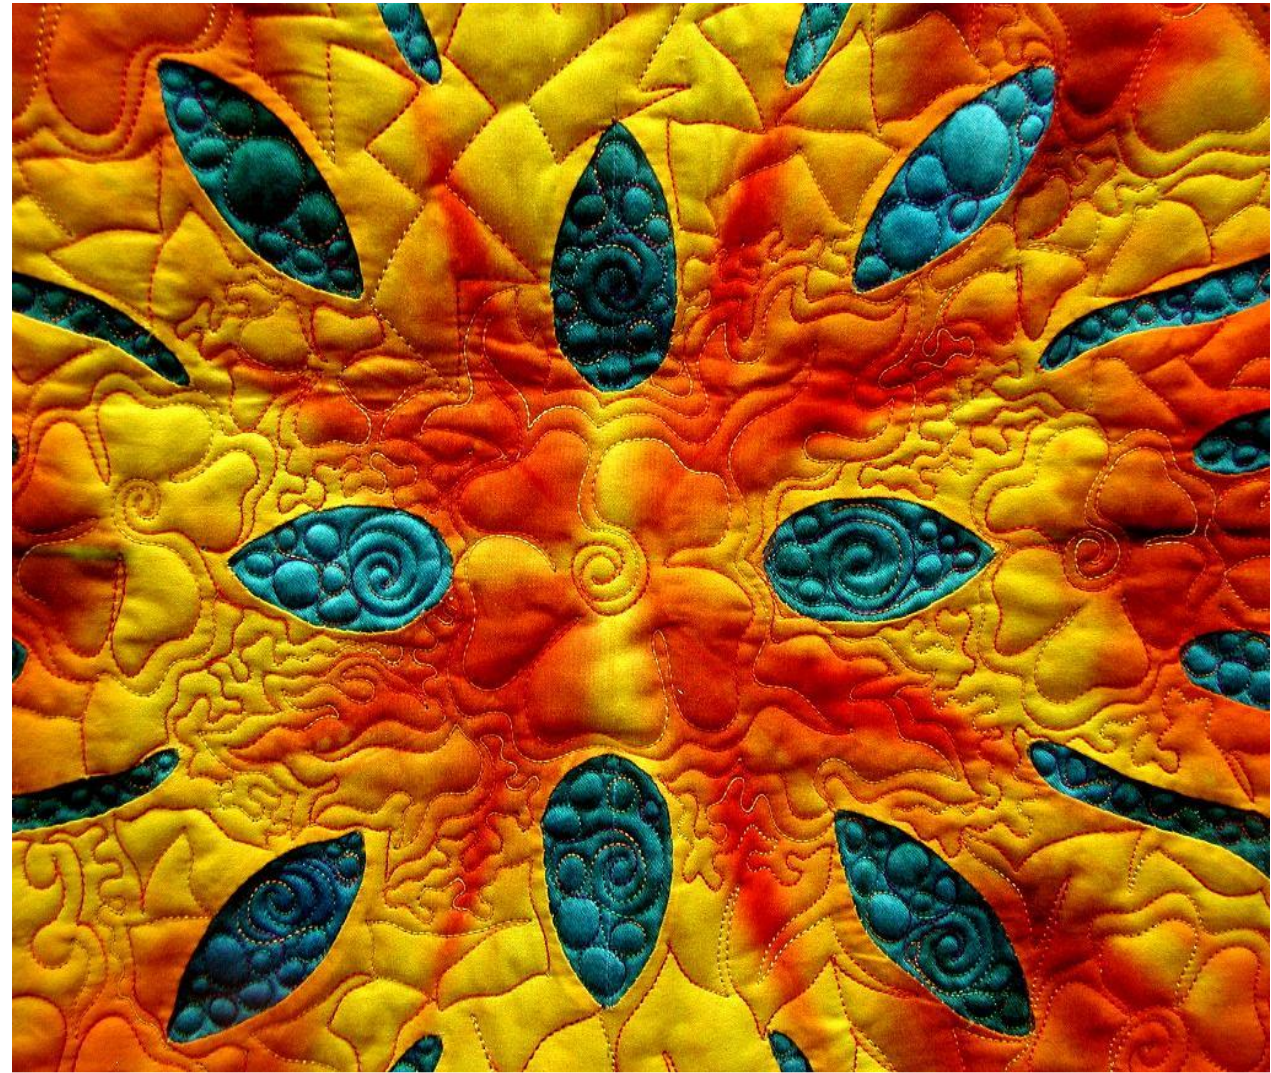

Puidust tekstiili tegemine
