PUNKT JA JOON

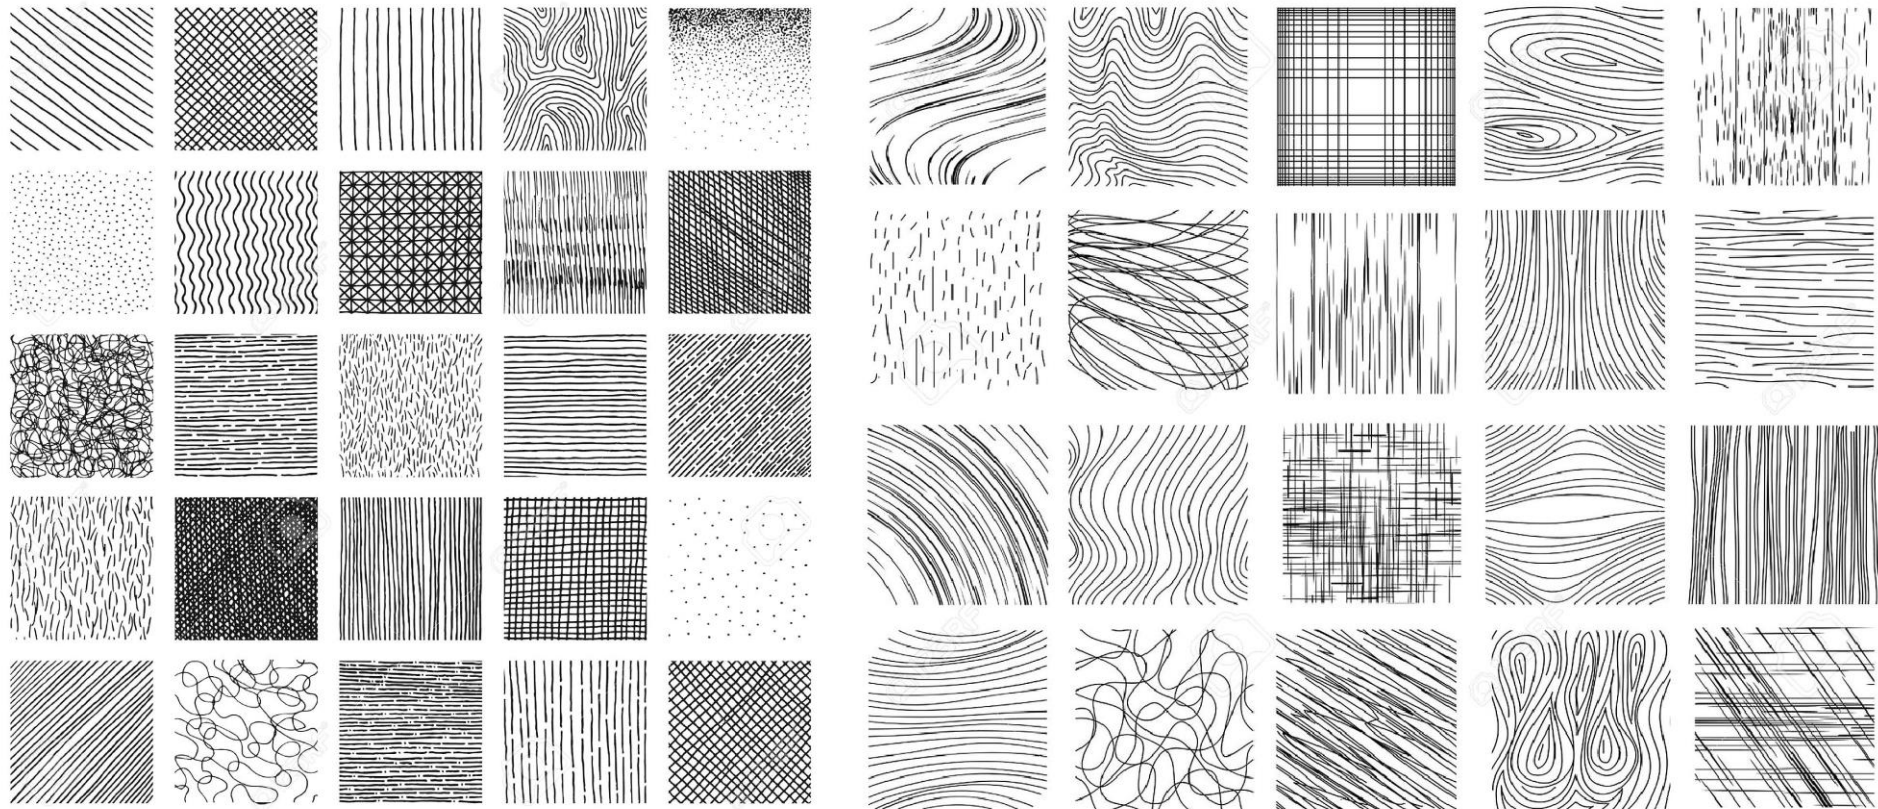

- Joonistuse/ kavandi aluseks.
- Joonte/punktide vahekorra- ja suundadest tekib mulje ruumilisusest.

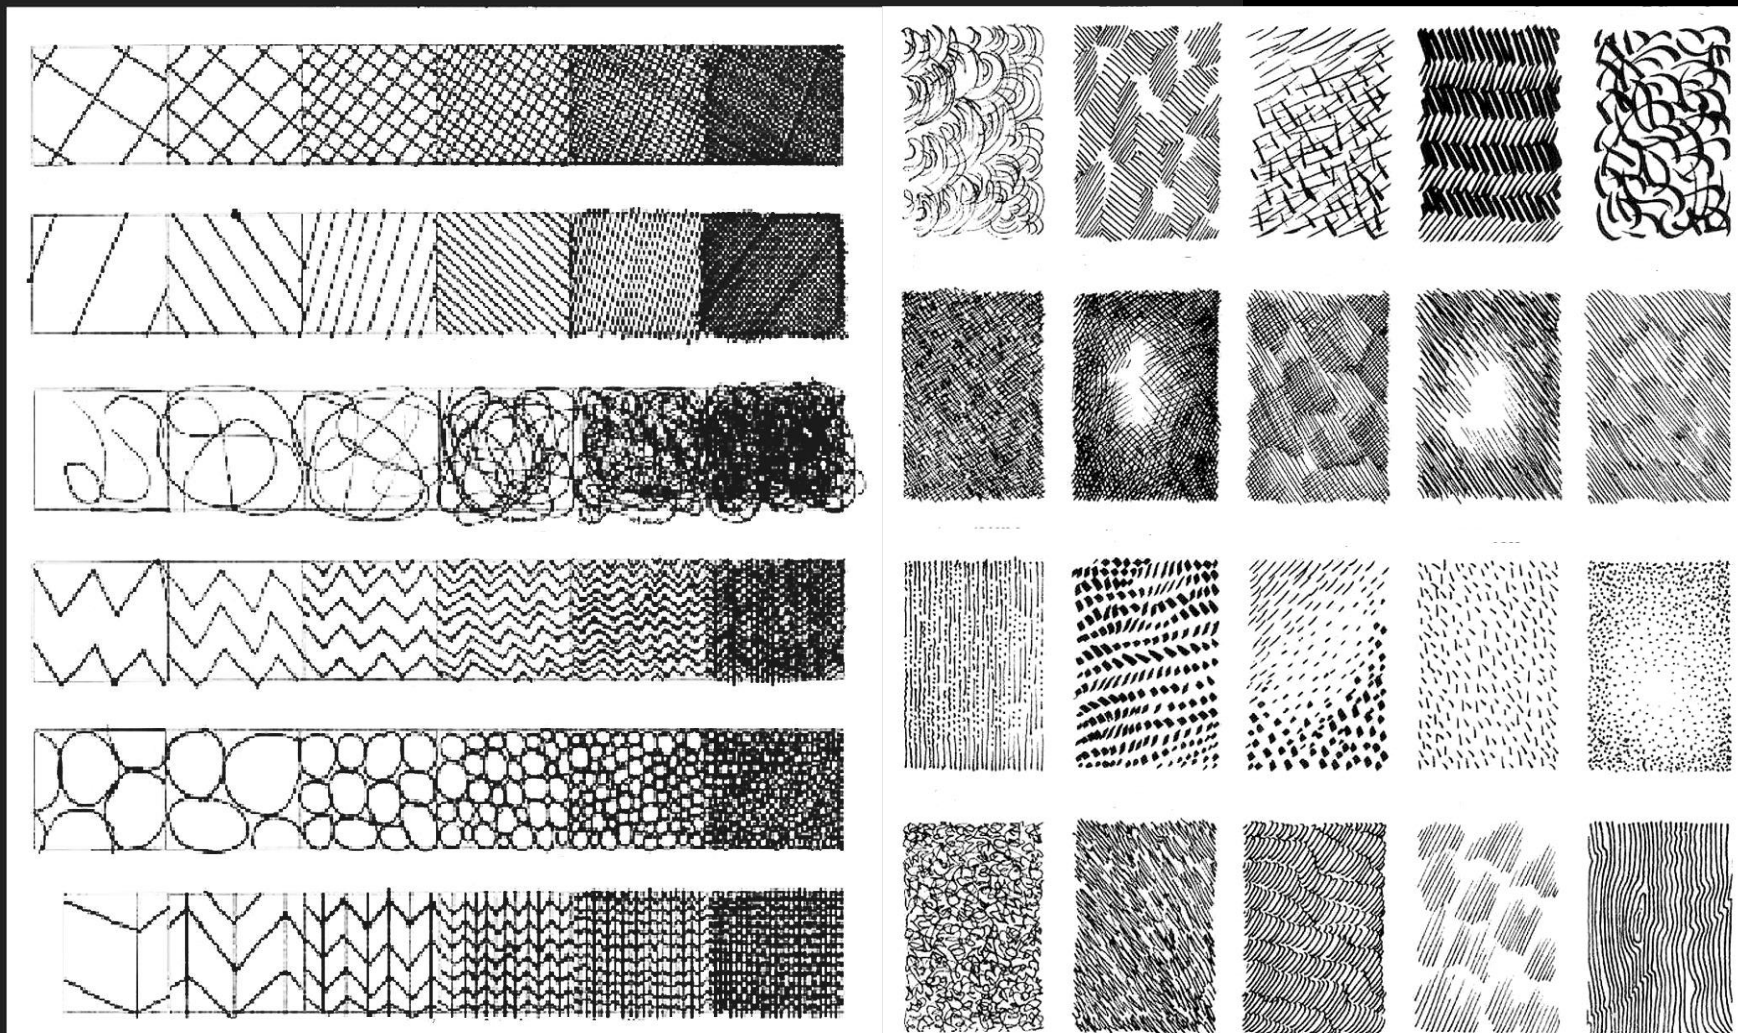

Faktuurid on pinnamood, materjali pinna eripära

Joonestusliku stiili vaba tihenemine tekitab faktuures pinna – üleminek teadlikult struktuurilt “käekirjale“, viirutamisele, pinnamoele.

Struktuur (ladina sõnast strūctūra ehitus, tarind)
on terviku kõigi osade seoste kogum.

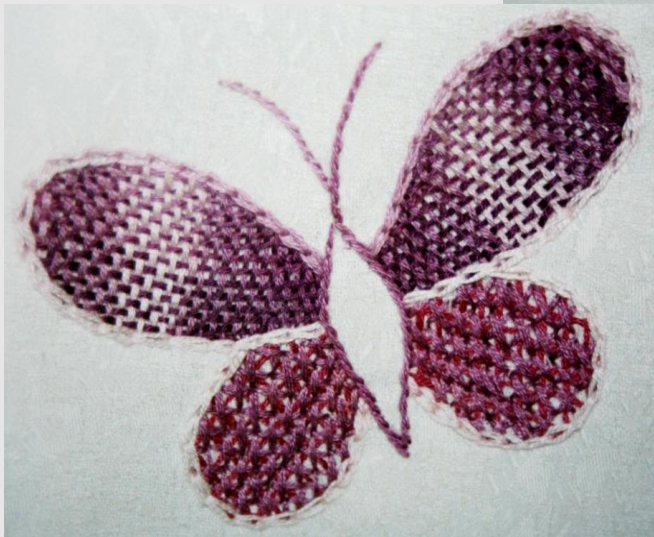

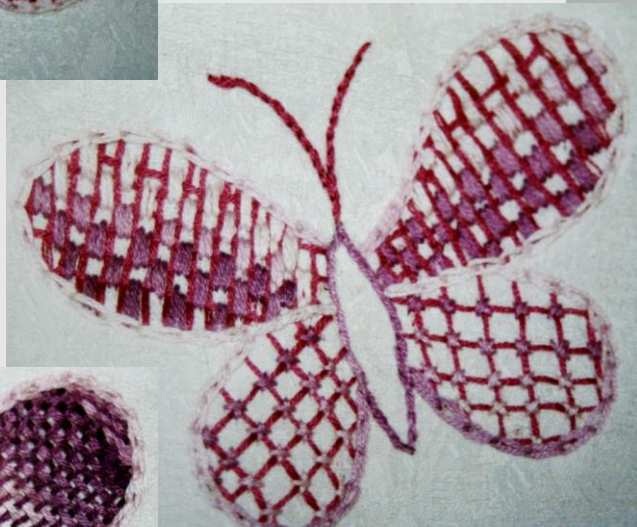

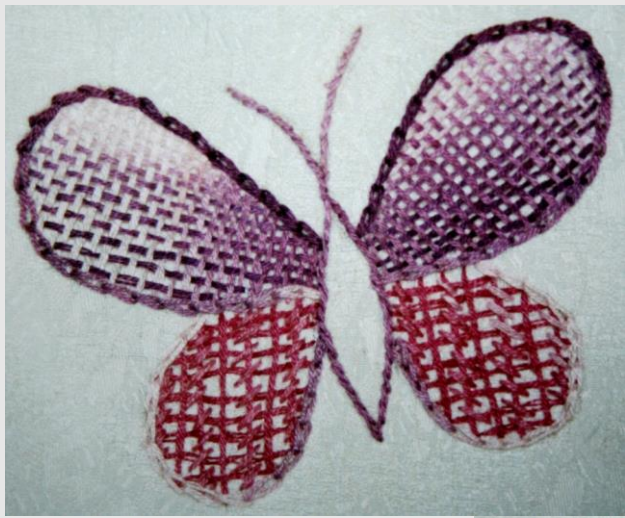

Struktuurid on kontrastatud süsteemid
