

Headline font 90

Subheadings 50

Actual text should be no smaller than 30pt

1. Overview

- Describe the product/ service before the project (industry sector/target audience etc..)
- Describe the objective, target, market of the task

2. Process

- Design tools or methods and the process
- How did you gather (customer) insight?
- How did you test the product / service concept?

3. The Benefits of design

Where/how design adds value to..

- On the customer
- On the organisation
- On the competition / market

4. Effect

- Cause and effect

: Proof beyond reasonable doubt of a cause and effect between the service design and the results. Evidence of targets set in the original brief against the results achieved.

- Scale of effect

: Analysis of all effects, not just the primary effect as detailed in the brief. Often a better customer experience also includes more satisfied employees and better financial results. However, keep in mind that all the effects must be documented and substantiated.
