

Here are 10 reasons to start up in Estonia:

Estonia is the perfect place to test and establish your idea! You'll find no-bullshit-people here who will tell you what works and what doesn't.

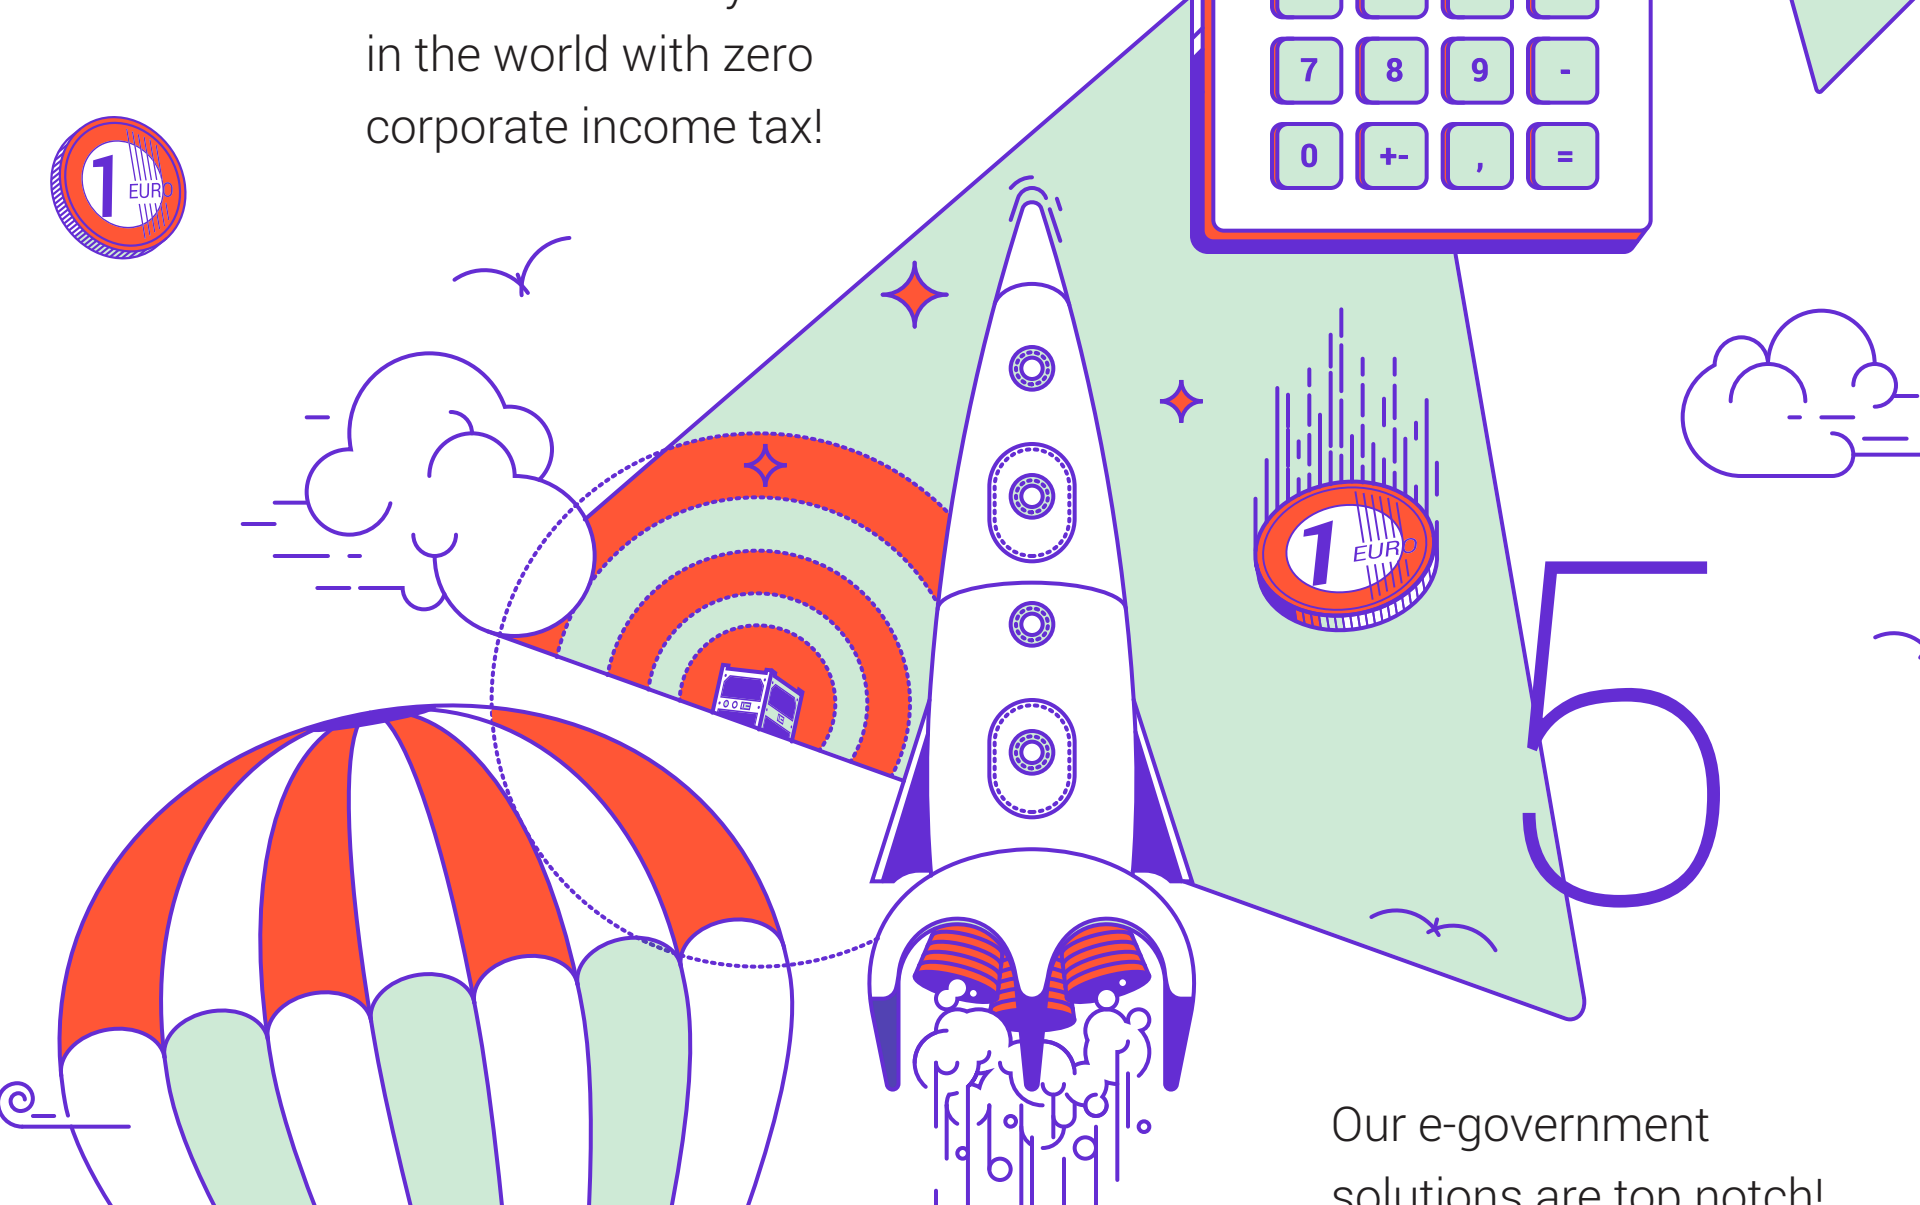

Estonians are encouraged to become techies – kids in primary school have lessons in computer programming and in selected high schools we even teach how to build bitcoin apps!

We do things fast! You can establish a company online in 15 minutes and do the taxes in 3 minutes!

Talking about taxes – Estonia has one of the most liberal tax systems in the world with zero corporate income tax!

Our e-government solutions are top notch! Furthermore, our startup ecosystem works closely with the government to make Estonia the best place for startups to grow.

Life quality in Estonia is high but at the same time the living costs are low. Win-Win!

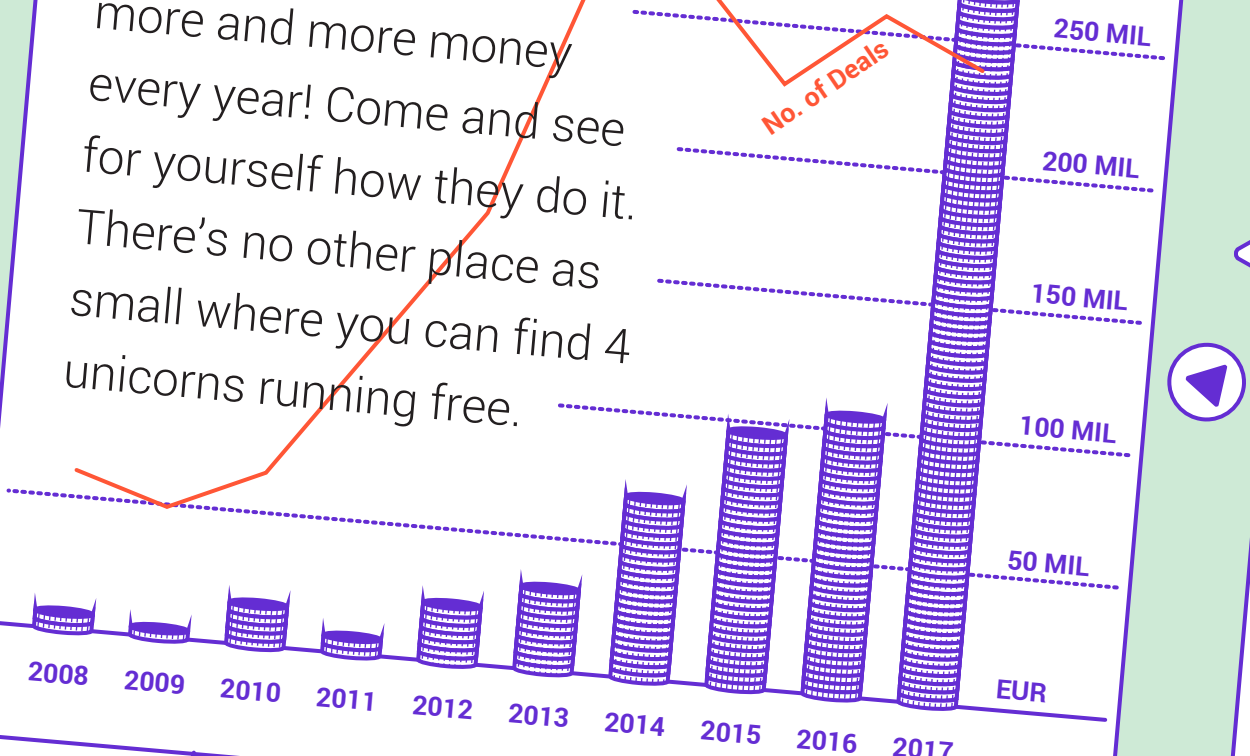

51% of the country is covered with forest, we are surrounded by sea from two sides and our air is the cleanest in the world. Sounds like a great natural environment to boost great ideas?

Estonian is a bit tricky to learn (check the "õigekeelsus-sõnaraamat" for more information) but luckily, we speak the international language of business!

Estonian startups raise more and more money every year! Come and see for yourself how they do it. There's no other place as small where you can find 4 unicorns running free.

Estonia the O.S. your startup needs. Conquer the whole Europe from Estonia!
