## » Fermentation and storage tank BD

The fermentation and storage tank BD is completely made of AISI304. The tank's resistant walls, its excellent finishing and stability are typical of Speidel's characteristic quality.

The practical top opening simplifies the cleaning and the flat tank bottom allows the tank to be put on pedestals or base frames.

### APPLICATION RANGE (PRESSURELESS)

- › Fermentation
- › Storage
- Ideal for
  - › Beer
  - › Spirits
  - › Fermented beverages

**STANDARD EQUIPMENT FERMENTATION AND STORAGE TANK BD**
