

» Storage tank FD

The storage tank FD is entirely made of AISI304, too. In contrast to storage tank BD, the FD is equipped with welded-on stainless steel legs and an additional bottom outlet.

The FD's bottom and top are both vaulted. This is why it stands on three legs, thus allowing easy operation. The FD is available for capacities up to 625 litres.

APPLICATION RANGE

- | | | |
|----------------|-----------|-----------------------|
| › Storage | Ideal for | |
| › Maturation | › Juice | › Spirits |
| › Fermentation | › Must | › Fermented beverages |
