### Project

Field(s)	Civil Society Projects: Promotion of Social Engagement and Solidarity “European Network of Solidarity Municipalities”:
Description	<p>This proposal aims to promote a network of Municipalities at European level that share a certain approach about public policies as tools to promote the values of solidarity and coexistence, integrating in an innovative way local public and private agents: small local commerce, municipal social services, associations and local governments existing in the territory.</p> <p>This proposal seeks to convert businesses into social transformation agents and generate new spaces to foster relations and articulations between citizens and the most vulnerable population.</p> <p>The project will involve thousands of people in everyday accessible gestures of solidarity that allow the social peripheries to become new customers of those local businesses in a dignified manner.</p> <p>* The idea for this project stems from a project that Zabalketa is already implementing in Getxo, SOLIDARIDUP: <a href="http://zabalketa.org/actuaciones-especiales/solidaridup/">http://zabalketa.org/actuaciones-especiales/solidaridup/</a></p>
