

# BOMBARDIER FLIGHT DECK APPLICATION

Bringing paperless efficiency to pilots

**BOMBARDIER**

# BOMBARDIER FLIGHT DECK APPLICATION

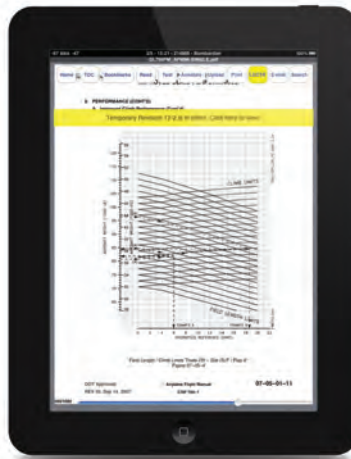

## Access documentation instantly via tablet device

No more carrying pounds of aircraft manuals and documents on-board. No more waiting for Temporary Revision (TR) updates. With the Bombardier Flight Deck\* application, Bombardier aircraft pilots can enjoy the benefits of going paperless by being able to store and access manual data and other documentation instantly via tablet device - even without WiFi. No other solution combines automatic TR updates, user control of content and aircraft serial number-specific information into one application. The Bombardier Flight Deck application also includes all required FAA, EASA and TC compliant audit trails for paperless operations.

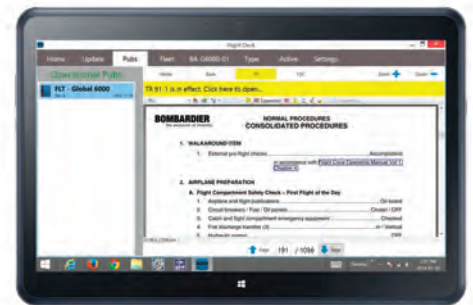

## All Documents. All Accessible. All in One Place.

Fast and easy, you can drag and drop electronic versions of aircraft documents, manuals and forms into online folders. Pilots simply enter a license code, sync and the updated documents are automatically downloaded and cataloged. In less time than it takes to send a fax, pilots can sign documents, add text and email it to the fleet manager.

## Automatic Revision Updates

No more manually inserting revisions or Temporary Revisions (TRs) into Bombardier's flight manuals. These are automatically inserted into the correct sections and distributed across every tablet in the operator's fleet by Bombardier Technical Publications. Valuable time is saved and pilots are always ready to fly in accordance with the latest regulatory requirements.

## e-Touch Efficiency

You can find any document in your library with the touch of a button. Fill out and send checklists and forms, and organize your documents by library, publication, folder and more. The Bombardier Flight Deck application lets you do it all, instantly and securely with optimal reliability, using Cloud technology to store and deliver documents to your tablet.

## Pricing and Availability

The Bombardier Flight Deck application is available for both iPad® and Windows tablets for most Bombardier aircraft.

For subscription pricing and availability of the Learjet, Challenger and Global flight manuals on the Bombardier Flight Deck application, email [bbad.pubs.dist@aero.bombardier.com](mailto:bbad.pubs.dist@aero.bombardier.com) or call toll free (North America) **1-866-538-1247** or **+1-514-855-2999** and choose option 5.

For technical assistance with the Bombardier Flight Deck application, please email [flightdeckapp@aero.bombardier.com](mailto:flightdeckapp@aero.bombardier.com) or call toll free (North America) **1-877-905-6615** or **+1-450-595-2200**.

For more information on the Bombardier Flight Deck application, please visit the Business Aircraft website at <https://my.businessaircraft.bombardier.com>.

\*Paperless refers to the process identified in the relevant airworthiness requirement pertaining to paperless cockpits, including but not limited to FAA-AC-91-78. Use of the Bombardier Flight Deck application does not relieve operator and its flight crew of their responsibility to comply with the applicable airworthiness authority approved documents.
