* Sõltuvalt valgusest, võib esineda toonides erinevusi.

Saviukumaja savikrohvid on 100% looduslikud. Peenviimistluskrohvides ei ole tooni saavutamiseks kasutatud pigmente, vaid eri värvi savisid. Mahedad ja soojad savi toonid loovad hubase miljöö nii ajaloolisesse kui kaasaegsesse interjööri.

DEKO seeria annab võimaluse luua veel isikupärasema miljöö. Kõiki peenviimistluskrohve saab väärindada erinevate looduslike lisanditega.
