

COMODULE is provider of Internet of Things solutions for vehicle manufacturers and fleet owners.

We empower mobility of tomorrow by providing tools for digitization. We're working with the leading companies in the light vehicle industry who are delivering our solution to 45 countries globally.

Hiring: Electronics Engineer

RESPONSIBILITIES

- Develop electronics for our products
- Work closely with Project Managers and play a key role in new product development as well as improving existing models
- Work on the projects from initial discussions to standing next to the SMT line in mass production
- Define test criteria and execute these test plans on functional prototypes to demonstrate the robustness of your designs
- Give support to debug and fix your own or already existing designs out on the field. Tens of thousands of vehicles around the Globe

WHAT DO WE EXPECT FROM YOU

- Expertise in electronic engineering and design, including component selection, schematic design, schematic capture and layout design.
- Experience with electronics CAD program (*we use Altium Designer*)
- Understand low power electronic design
- Proven ability to diagnose and tackle performance problems
- Comfort and ability to use all types of electronic test equipment
- Extra plus for RF, soldering or programming skills
- Great interpersonal skills - the ability to collaborate cross-teams
- To feel comfortable when there is no clear plan or process and sometimes day and night get mixed up

OUR OFFER

- This is a great opportunity to join an exciting and innovative company in a technically challenging role where you will be at the forefront of innovation
- Flat hierarchy & opportunity for personal development alongside company's rapid growth
- Be part of the digital revolution of mobility & lead the future of transportation
- Office in Tallinn old town
- Multicultural team with diverse background driven by success (2 x "Forbes 30 under 30");
- Competitive salary & bonuses for your efforts
- Fun team events & lots of ping-pong in the office
- And loads of weird humour

Waiting forward to receive your short personal introduction and CV (or link to your LinkedIn profile)!
