

COMODULE is provider of Internet of Things solutions for vehicle manufacturers and fleet owners.

We empower mobility of tomorrow by providing tools for digitization. We're working with the leading companies in the light vehicle industry who are delivering our solution to 45 countries globally.

# Hiring: Product Manager

## Responsibilities

- Market analysis: identifying target market, value proposition, competitive landscape, customer interviews
- Product management: creation of development roadmap, generating product requirements, defining features, ensuring releases
- Planning: prioritization of feature backlog and development
- Daily management: working closely with UX/UI designer for product design, translating functionalities/needs for engineering teams, making informed trade-off decisions
- Work with cross-functional teams:
  - project management to help with launch initiatives
  - customer success to support issues from the field
  - marketing & sales to form value proposition, feature and benefit documentation

## What to we expect from you

- Think strategically, work collaboratively and lead interdisciplinary projects from concept to creation
- Prior experience in B2B product management with proven success in delivering products and services
- Excellent communication and presentation skills to pass knowledge externally to customers as well as internally to engineering, marketing and sales teams
- Entrepreneurial drive to take initiative & willingness to go out of your comfort zone while working in multiple project environment and requiring minimal supervision
- Structured and disciplined to run projects from concept to release
- Willingness to constantly learn and adopt: "You have to feel comfortable in being uncomfortable"
- Fluent in English verbal & written

## Our Offer

- This is a great opportunity to join an exciting and innovative company in a technically challenging role where you will be at the forefront of innovation
- Flat hierarchy, a technology savvy environment & opportunity for personal development alongside the company's rapid growth
- Be part of the digital revolution of mobility & lead the future of transportation
- Multicultural team with diverse background driven by success ("Forbes 30 under 30")
- Bonuses for your efforts
- Office in Tallinn old town
- Fun team events & lots of ping pong in the office
- And loads of weird humour
