

About us: Sustinere is an Estonian-origin dedicated ESG and sustainability advisory firm – the largest and the most experienced in the Baltics.

We help businesses to implement responsible and sustainable business practice in business models, strategies, and processes.

Why is ESG and double materiality so important?

There are main motivations:

- Compliance
- Market expectations
- Financial market pressure

How Sustinere can support you with EU's sustainability reporting directive and reporting standards?

Double materiality assessment

Double materiality assesment (or mentoring), incl. stakeholder engagement

Recommendations for strategy, reporting structure and KPI-s

Compliance to the directive and the standard

Gap-analysis: alignment of current management practice and reporting to EU's requirements

Roadmap with the development needs for proper ESG governance

Requirements of climate change standard

Climate impact measurement, science-based target setting, transition plan

Climate risk assessment (physical and transition), adaptation measures

In addition to:

- ESG Policy and Strategy
- ESG Report
- CO2 calculations and product LCA
- Physical Climate Risk Assessment
