## Caring for your kids, and the planet.

Growing bodies and minds need spaces which offer stimulation as well as safety. With decades of experience and stringent quality standards, our range of children's furniture offers the ideal balance of safety with fun.

We ensure that all raw materials are from environmentally friendly sources, and carry the FSC®C116426 label. We use form-pressed birch veneer and plywood, child-friendly lacquers, and curved edges everywhere to ensure maximum safety.

# Moose benches

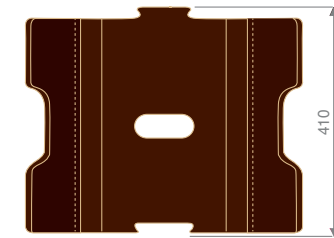

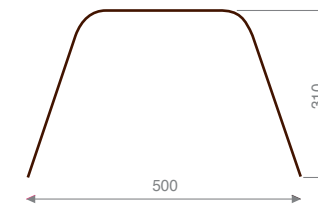

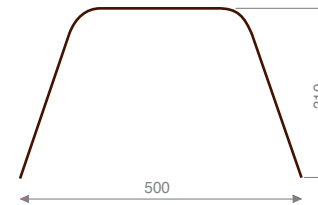

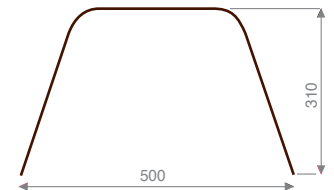

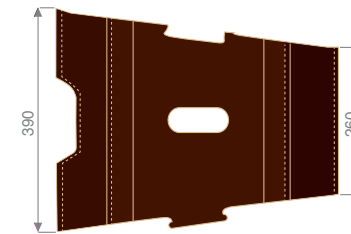

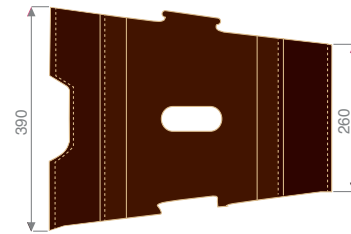

Stackable Moose benches are practical, durable and playful. With the parts you can create different seating combinations. The Moose is sold in a set of five parts: one wide part and 4 narrow parts or 5 narrow parts. To make the benches more comfortable, we added seating cushions, which are covered with sheepskin and are easily removable.

## Sofa Mini Howard

Mini Howard is a high quality relaxing 1-seater, 2-seater or 3-seater sofa for children. There are four different fabric groups to choose from. Seating cushions consist of foam and feathers. Frame is made in 100% solid birch, legs in solid birch or oak.

## Sofa Mini Howard

## High chair Kiddo and NiNo

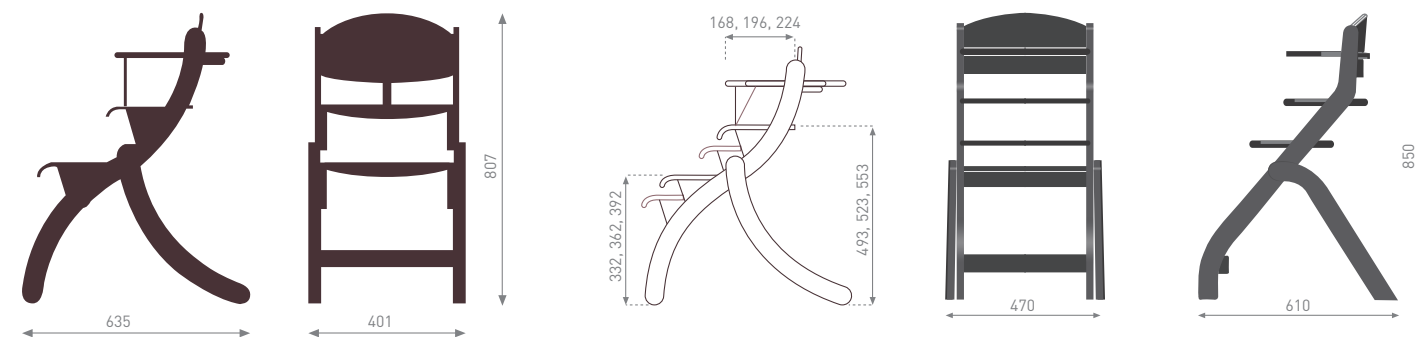

Kiddo is a classical Scandinavian children chair designed by Karl Ekornes. It is easily adjustable when the child grows. By additional safety kit, the chair can be turned into a high chair for babies.

High chair NiNo is a standardized chair for babies and children, for 6 months and up. The seat and footrest can be adjusted into three different positions following the growth of the child. The chair comes with a safety bar and additional safety straps.

Both chairs have been tested for safety and correspond to the latest EU standard EN 14988:2006+A1:2012
