

TARMEKO  
KIDS

TARMEKO, a woodworking cartel created in 1947, is now an innovative FSC® (C116426) certified furniture producer in Estonia. The company is working together with Scandinavian and Estonian designers. The products are collected under the trademark Tarmeko Kids®.

The furniture is designed in bent birch plywood with care for children. In the selection there are mainly chairs and tables which are suitable for homes, daycare centers and schools. The company uses child friendly lacquers, stains and glues.

Tarmeko is an innovative user of next generation eco glue that meets the future demands of zero formaldehyde content. The products are tested for mechanical safety and correspond to the EU safety standards.

# TOMMY

## MODIFICATIONS:

- square, round, half circle and trapeze tables in different heights
- for Montessori schools the chair handle is modified
- white laminate chair with oak stain or birch clear lacquer legs

## REGIO Tommy and Pippa table

SPECIAL PROJECT! Tarmeko has developed new Tommy and Pippa tables with printed flags and the world map.

The tables are both educational and fun.

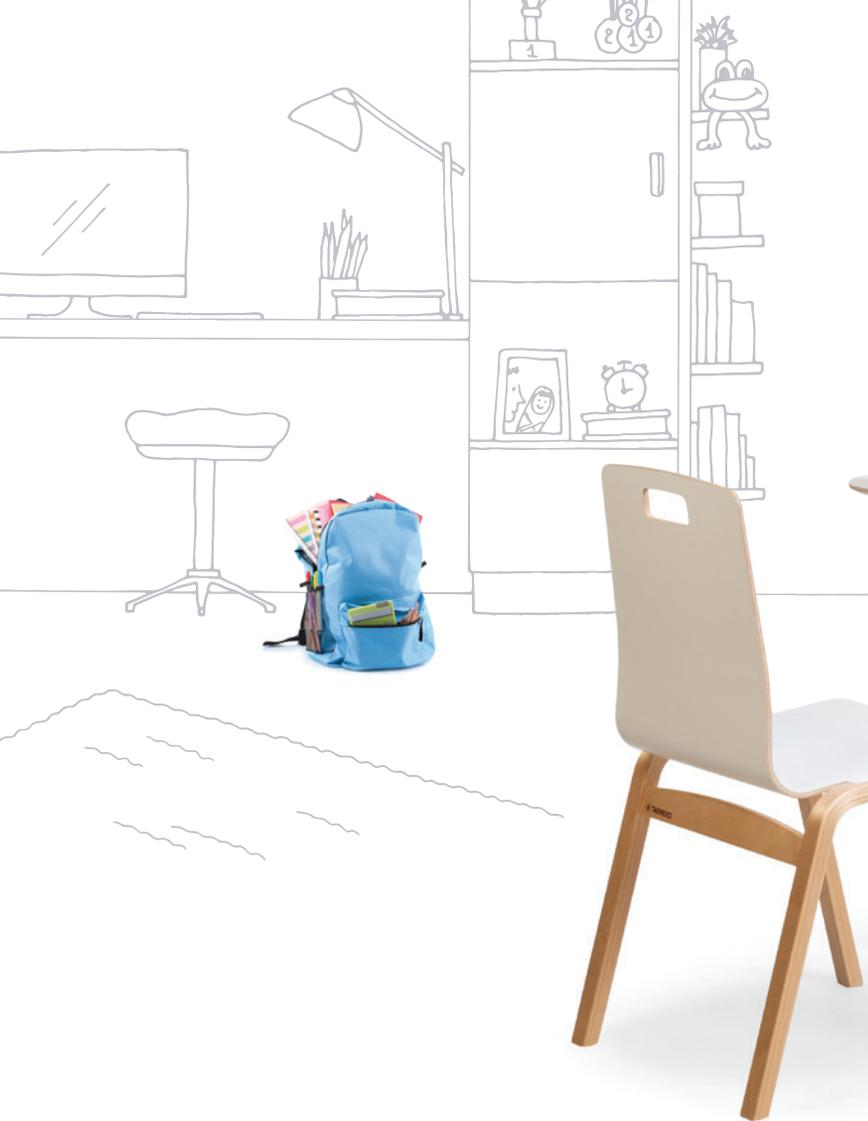

## P.A.N.U set

P.A.N.U is a table and chair set for school children aged 7-14 years.

- the set is made out of birch plywood and covered with laminate
- different size options for the chair and table
- the chair is stackable and the table has a removable side shelf
- the set is designed by Panu Kiukkonen

## Table PIPPA

PIPPA is a classical table with a round or square top. The table forms a set with Tommy 2 or Pippa chair.

### FINISHING:

- clear lacquer
- whitewash
- espresso

### SPECIAL EDITION!

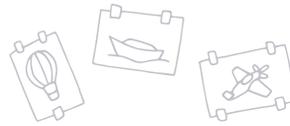

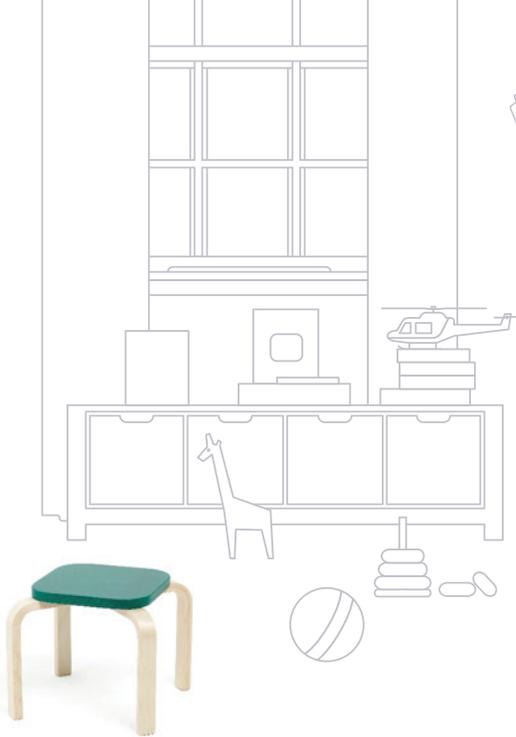

LUDO table has a printed game on top.

# Stool TIPA

Tipa is a joyful and practical stool. There are many fun colours and different heights to choose from.

## MOOSE benches

Playful Moose benches are sold in a set of 5, enabling you to create different seating combinations. The benches are designed by Thomas Leerberg.

- sheepskin cushions are optional and easily removable
- finishing: clear lacquer, whitewash, espresso or red

## KIDDO high chair

Adjustable chair Kiddo is designed by Karl Ekornes. With the extra safety kit the chair can be turned into a high chair for babies.

The product is tested and corresponds to the EU safety standards.

- finishing: clear lacquer, whitewash or espresso

## KUUSK and JUSS wall rack

KuusK and Juss are designed by Mait Rätsep and Kadri Kadalipp. The wall racks are practical and fun – a must-have design element for homes and public spaces.
