VEA

VEA is an iconic design with a minimalism interpretation of retro memory...

It creates a bridge between the past and the future.

The designer defines the VEA collection as "an inspiring original design combines soft lines inspired by the fluidity of water with sharp corners". Offering an alternative to the iconic colors of retro, night blue, ruby red and ocean green.

Vea carries the traces of the past to today's bathrooms.

VEA basically calls to remember the past, its inspiration; An iconic design that draws from the harmony of contrasts such as past-future, city life-rural life.

The image shows a modern bathroom with a warm, terracotta-colored wall. On the left, a dark teal wall-hung toilet is mounted. Above it is a matching teal flush plate. In the top left corner, a green plant is partially visible, and a gold-colored plaque with the text "Artisan Edition" is mounted on the wall. To the right, a glass partition with vertical ribbing and a black frame separates the toilet area from the rest of the room. Further right, a vanity unit with teal vertical-ribbed cabinets and a black countertop is partially visible. A gold-colored light fixture is mounted on the wall above the vanity. The floor is made of large, light-colored tiles.
