SOGNO

Sogno, the premium design lines of ISVEA, brings the appeal of rounded lines to modern bathrooms with a new interpretation of classical lines.

When designing Sogno, the ISVEA design team focused on blending design with the modern perspective of design. Sogno, which offers a compact and convenient experience with its 100cm size, with 5mm thin-edged sharp&slim Infinity basin, by the scope of WAU Architetti signature, which is the main partner of ISVEA. It is both useful and stylish with its two drawers with a non-slip floor plus an organizer and a mirror in the form of a storage room and a glass shelf. Thanks to its two fully automatic drawers and double mirror cabinet, it is used for all applications needed in a wide and full-length bathroom with glass shelves.

By the modern approach of its classic design and color range as amber, night blue, sand beige and anthracite matte lacquered, it is enlarged as a remarkable and practical object in the bathroom, rather than a piece of furniture.

RINATO

Rinato, one of the premium design line of ISVEA, blends retro lines with a modern design approach. While designing Rinato, the ISVEA design team aimed to bring a modern interpretation to the fuga technique of traditional woodwork.

Creating a useful countertop area thanks to its 120cm wide washbasin module with massive wooden counter, with 5mm thin-edged sharp&slim Infinity basin, designed by WAU Architetti, the Italian design partner of ISVEA. Rinato is functional with two wide drawers, including an organizer, plus a hidden drawer with a separator and a mirror cabinet with led lighting. Rinato offers everything needed in the bathroom with its both side top unit and tall cabinet with large storage volume!

Complementing the most "hype" shades of retro design; cream and pastel green matte lacquered body with shiny gold colored attractive handles,; Rinato shares an experience that is both stylish and timeless with its users.
