human spaces - the bathrooms.

### **The complete bathroom**

### **It's all about inspiration**

It all begins with questions posed by the design discipline to understand needs, desires and choices. Designed by Vitra, an extraordinary wealth of attractive combinations help satisfy these needs and desires.

### **High powered perfection**

Seven cutting-edge factories and plants in Turkey and Russia create sophisticated designs and maintain extremely high standards whilst progressively reducing Vitra's ecological footprint.

### **Collaboration with designers**

Vitra works with acclaimed industrial designers from around the world. Not only does the collaboration with these top talents improve product functionality, but it also introduces an entirely original range.

### **Vitra across the world**

Bathroom designs greet customers around the world through 2000 sales points in over 75 countries, including 150 exclusive Vitra showrooms in Istanbul, London, Cologne, Moscow, Dubai, Mumbai, Delhi, and other major cities.

### **Technology lights up the future**

The Vitra Innovation Centre serves as the headquarters of the brand's R&D activities with a strong engineering team, leading the bathroom industry with new solutions and technologies.

### **Improved personal hygiene**

Vitra's continuous research into human health introduces new technologies for improved hygiene in the bathroom. These solutions raise the personal hygiene experience to a new level.

### **A pledge to the future**

Vitra embraces Blue Life, a set of guidelines devised to mitigate our impact on the environment, and is held as a production, design and management philosophy.

In our innovations,  
we're inspired not only  
by nature but also by  
culture. With this in  
mind, we uncover new  
layers and habits and  
challenge the norm.
