KLUDI BALANCE WHITE

So pure. So clean. So light.

KLUDI BALANCE WHITE stirs the emotions. Pure white gives a new intensity to the sense of purity and freshness. Discreet chrome accents allow the white surfaces to gleam.

The subtle purity of colour accentuates the airiness of the lines. The lever seems to float above the mixer body.

The functional element fits in the hand like a charm, regulating the flow of water with precision.

Gleaming white in premium quality

KLUDI BALANCE WHITE enhances the lines with a further design feature: the surface. KLUDI sets particular store by its workmanship. Superior finishing is what lends the pale surfaces their brilliance and durability. This ensures the mixers remain beautifully white for a long time.

Consummate quality is also what characterises the WHITE edition. It is consistent with the chrome-coloured KLUDI BALANCE line, which has received many awards. In 2012, the KLUDI BALANCE single lever basin mixer was awarded the renowned iF product design award.

Harmony and extravagance in bathroom design

KLUDI BALANCE WHITE makes it possible to design exceptional bathrooms. The white mixers form one harmonious unit together with white ceramics. This is accentuated discreetly by the chrome-plated elements. Dark wood mosaics provide a striking contrast with the white mixers.

KLUDI BALANCE WHITE appears wonderfully light in combination with natural materials like travertine and wood. When you combine the purist mixers with waxed steel, the result is extravagant bathroom design for loft apartments and boutique hotels.

The new style of mixers for a contemporary lifestyle

In contemporary architecture, bathrooms and bedrooms are no longer clearly delineated. Free-standing baths evolve to become an eye-catcher in open-plan living. KLUDI BALANCE WHITE is simply made for this lifestyle.

In a comfortable white model, the single lever bath and shower mixer for deck mounting seems less like a bath mixer. First and foremost it looks like a stylish design feature, fitted with modern technology to satisfy demanding requirements.

Sophistication in both appearance and function

KLUDI BALANCE WHITE is the answer for sophisticated solutions and practical functions. This is demonstrated by the single lever bath and shower mixer. The diverter for the shower function has been integrated perfectly into the smooth, white surface of the mixer body. As a chrome-plated functional element, it is clearly identifiable and is easy to grasp by the crosspiece even with wet hands. There is even a sophisticated aspect to the very form of the mixer body: its elegant design cleverly conceals the escutcheons.

The KLUDI s-pointer offers added convenience to the washbasin and bath mixers. Simply tapping it with your finger allows you to adjust the angle of the stream of water that suits you best. This makes easy adjustment possible to fit in with every shape of bath or basin. The bathwater runs almost silently down the rim of the bath with the KLUDI s-pointer.

The diverter for the shower function has been integrated. It is easy to grasp by the crosspiece even with wet hands.
