

For kitchens

Almost 100 years ago

KLUDI began manufacturing bathroom fittings using traditional methods of craftsmanship. Followed by high-quality, reliable fixtures of timeless design, this expertise formed the foundation of KLUDI. From the tradition as a faucet specialist, the goal was created to combine the highest quality of use and perfect design in a unique way. Thus the claim Water in Perfection finds unmistakable expression in our products as well as in all services we provide for our customers.

It inspires and drives

our future activities.

Hot off the presses:  
Discover the variety of our  
bathroom fittings.

# KLUDI – the most innovative brand

An independent international group of experts has presented the KLUDI brand with an award for outstanding achievement in the areas of quality, functionality, ergonomics, design and ecology. The Plus X Award for the Most Innovative Brand confirms KLUDI's reputation for excellence and its strong position on the international market. As the award has been presented to relatively few companies in the sanitation industry, we are very proud to have received this title.

## Plus X Award

Many of our fittings have been given the international Plus X Award seal of approval, which guarantees that these fittings are made of high-quality components, and that the design is based on a thorough analysis of the users' needs. Having observed our commitment to creating outstanding products, millions of people around the world have chosen outstanding KLUDI fittings for their home.

## Interior Innovation Award

The Interior Innovation Award is one of the most prestigious design awards in the world. The international title is awarded exclusively to products with an exceptionally refined and functional design.

Many of our products have been recognised for their excellence in international competitions, and have been recommended by design experts around the world.

To meet the needs of our customers, KLUDI continuously tracks the latest trends in design.

To meet the needs of our customers, KLUDI continuously tracks the latest trends in design.

## Shower or spray? A small button – a large range of options

A powerful jet of water that makes it easy to quickly fill or wash a pot might be too strong when rinsing delicate lettuce leaves. We solved this problem by equipping our fittings with a small button that allows you to adjust the water pressure according to your needs.

### Benefits of the shower/spray automatic diverter:

- the water flow can be adjusted to your needs
- a delicate spray setting is available for rinsing dishes and washing fruit
- the button on the fitting is placed in an ergonomic position
- the spray hose is made of high-quality fibre, which ensures durability and quiet operation
- the spray hose can be extended up to 40 cm

The function is used in the following series:  
KLUDI TANGENTA, KLUDI MX, KLUDI BINGO STAR,  
KLUDI BINGO STAR XS, KLUDI TREND0, KLUDI OBJEKTA,  
KLUDI ZENTA

Another practical feature is the s-pointer aerator, which allows you to change the angle of water flow with just a flick of your finger.

The function is used in the following series:  
KLUDI TANGENTA, KLUDI MX,  
KLUDI OBJEKTA, KLUDI ZENTA

## Any way you want it! A swivelling spout is a must

No more room in the sink? Or maybe you want to move the spout out of the way when you are not using it? You can select fittings that allow you to do exactly that. A spout that swivels 360° is ideal for all kinds of kitchen designs, from conventional layouts to various kinds of kitchen islands.

### Benefits of a swivelling spout:

- easy to manoeuvre – you can move it where you want it
- frees up work space around the kitchen sink
- provides a practical solution for kitchen islands and two-compartment sinks
- allows you to fill pots outside of the sink

The function is used in all KLUDI kitchen series.

## Expanded range thanks to a pull-out spout!

Imagine being able to extend the range of your spout by up to 70 cm. The pull-out spout has an ergonomic shape that makes it easy to fill containers and pots on work surfaces.

### Benefits of a pull-out spout:

- allows you to use water anywhere, even outside the sink
- makes washing and filling even the largest pots and containers easy
- allows you to direct the water flow precisely where you want it
- the spout can be extended up to 70 cm
- has an ergonomic shape that makes the spout easy to handle

The function is used in the following series:  
KLUDI E-GO, KLUDI TANGENTA, KLUDI L-INE, KLUDI L-INE S,  
KLUDI BINGO STAR, KLUDI BINGO STAR XS, KLUDI BOZZ, KLUDI SCOPE

## Electronic fittings – an intelligent choice for your kitchen

Would you like to wash your dishes without ever touching the fitting? With its built-in movement sensor, the innovative KLUDI E-GO is the perfect solution for you, allowing you to control the flow of water even when both hands are full. The smart sensor works in three phases.

Phase 1: Turn on the water with a single movement of your hand. The sensor's range in this mode is 1-5 cm.  
Phase 2: While in active operation mode, the sensor's range increases to 20 cm, allowing you to work freely.  
Phase 3: When the sensor no longer detects any movement, it shuts off the water flow and returns to standby mode.

### Benefits of electronic fittings:

- touch-free operation – especially useful when both hands are busy
- allows you to optimise the temperature and the amount of the water used
- easy to keep clean

The fitting can also be operated manually, thanks to the convenient lever on the side.

The function is used in the following series:  
KLUDI E-GO

## A fitting by the window thanks to a bayonet connection

Many people dream of enjoying the natural light and convenience that having a sink next to a window can provide. Thanks to our innovative bayonet connection, it is possible to install the fitting right next to a window. To open the window, simply remove the fitting from its base and place to one side.

A simple and discreet solution: a bayonet connection at the fitting base.

### Benefits of bayonet connection:

- provides greater freedom in designing the sink zone and in selecting the kitchen cabinets placed near the window
- the fitting can be easily removed from its base – a single movement is enough
- extendable hoses reinforced with stainless steel wrap ensure the exceptional durability

The minimum distance between the worktop and the window is 3 cm.

The function is used in the following series:  
KLUDI MX, KLUDI L-INE, KLUDI BINGO STAR, KLUDI TRENDO,  
KLUDI OBJEKTA, KLUDI SCOPE

## Functional and safe A multi-connector in the kitchen

As the number of devices used in the kitchen has grown, the need for a comprehensive solution to managing this complexity has become more pressing. Thinking about this problem led us to come up with the multi-connector, which allows water to flow to a washing machine or a dishwasher.

To improve the look of our interiors and gain space in smaller bathrooms, many of us are moving the washing machine into the kitchen, installing it under the kitchen countertop.

### Benefits of the multi-connector:

- the valve makes it easy to turn off the water flow to your washing machine or dishwasher
- safety guarantee: the valve greatly diminishes the risk of flooding when you are not home
- the convenient valve placement means you never have to lean down to close it

The function is used in the following series:  
KLUDI MX, KLUDI L-INE, KLUDI BINGO STAR, KLUDI TRENDO,  
KLUDI OBJEKTA

Open and close the valve with a single movement of your hand.

## Easy installation thanks to the push-fit connector

The installation and removal of fittings has never been so easy. No need to hire a plumber or use specialised tools: just select a fitting with a spout house that uses the universal push-fit connector.

### Benefits of the push-fit connector:

- the fitting is remarkably easy and simple to install – you do not need tools or specialist knowledge
- guaranteed watertight connection
- the spout hose is easy to clean

The function is used in the following series: KLUDI TANGENTA, KLUDI MX, KLUDI L-INE, KLUDI BINGO STAR, KLUDI BOZZ, KLUDI OBJEKTA, KLUDI ZENTA

## Fittings suitable for under-counter water heaters

This solution is recommended for systems in which the distance between the fitting and the water heater is large, as heating the water where it is needed saves energy.

### Benefits of fittings for under-counter water heaters:

- positioning the fitting and heater close together saves water and energy, reducing operating costs
- compatibility: our fittings will work with the majority of under-counter water heaters available on the market

The function is used in the following series: KLUDI ADLON, KLUDI MX, KLUDI L-INE, KLUDI BINGO STAR, KLUDI TRENDO, KLUDI OBJEKTA, KLUDI ZENTA, KLUDI SCOPE, KLUDI LOGO NEO

# KLUDI E-GO

## Always the centre of attention

A series for lovers of original design. The KLUDI E-GO collection is ideal for people who seek bold aesthetics coupled with comfort and convenience. These fittings are well-suited to modern and minimalist interiors,

including lofts. The bold form of the fitting underscores its functionality. As well as being pleasing to the eye, the flexible, removable spout simplifies everyday tasks around the kitchen.

What do you feel like eating today? Mediterranean cuisine? A taste of Asia? If you like experimenting in the kitchen, you should not shy away from experimenting with design.

The swivelling spout can be detached from the holder at any time and moved in any direction.

This is the only fitting that gives you a choice between touch-free operation and manual adjustment.

## Appetite for good design

Kitchens are created for people, with all their emotional and social needs. Well designed interiors should thus be places where shared passions come to life.

The tall spout of the fitting makes it easy to rinse large dishes and the ingredients needed to prepare delicious meals.

The white removable spout hose significantly extends the range of the water jet.

# KLUDI E-GO

## A key element of a designer kitchen

The KLUDI E-GO collection is for anyone who loves a simple, raw and modest design – a look that can be shaped by seemingly minor nuances. In a modern, minimalist interior – especially in a monochromatic

room or loft space – meticulous attention must be paid to every detail. A fitting with clear lines and a fine finish set against a single block of colour can become the focal point of the entire room.

# Maximum comfort in a minimalist design

Turn on the water with just a flick of your hand. Thanks to the built-in electronic movement sensor, you can activate the tap without touching it. This is the only fitting on the market that can be operated both touch-free and using the convenient handle on the side.

Thanks to our high-sensitivity sensor, the mixer can be turned on and off completely without touch. This practical feature makes it easy to keep the fitting clean – regardless of what you are doing in the kitchen.

# KLUDI ADLON

## Inspired by tradition

The combination of white and pale wood grain is a universal recipe for creating a kitchen filled with warmth. The rustic atmosphere of the room is enriched by functional items that complement the decor.

With their rounded shapes and pastel colours, we drew inspiration from the kitchen furnishings, small household appliances, and porcelain tableware of this era to create fittings with a timeless look. The lovely cross handles, porcelain marquetry, and beautiful cut of the spout make the KLUDI ADLON fitting an ideal piece in a kitchen with a classic design.

The combination of decorative detail and classic forms will appeal to those who appreciate elegance combined with fine materials.

Among the attention-grabbing details of the fitting is its artistic form, especially its beautifully shaped spout.

The cross-shaped handles and porcelain marquetry add to the character of a contemporary home.

516060520  
sink mixer

## Wood & white

Those who value traditional solutions and want a kitchen with a warm, cosy atmosphere often prefer fittings with a retro or rustic look inspired by historic country homes.

The large, swivelling spout (360°) takes advantage of the space in the kitchen sink, while preventing water from spraying in unwanted directions.

Beiges, cream colours and natural hues evoke a feeling of safety. Don't overlook the power of colour when choosing your kitchen furniture.

## KLUDI TANGENTA

### The heart of the home

The kitchen – not the living room – is the true heart of the home. This is the room where people gather to talk around the table, to cook together, to do their homework, or to do chores while listening to music. As the place where something is always going

on, the kitchen needs to have durable and robust fittings, preferably made of brushed steel. The KLUDI TANGENTA fitting series will help you discover your love of best-in-class equipment and dishes made of raw stainless steel.

Why would you be afraid of making a mess? We can clean it up quickly, making cooking together with your family more fun.

A solid body and conveniently profiled spout are advantages you will appreciate in your kitchen.

The discreet, strong and stable lever will make your work in the kitchen easier.

44941F875  
single-lever sink mixer

# Cooking with your family

The brushed stainless steel fitting is scratch-resistant, robust and easy to clean. What's more, it's the perfect choice for a kitchen that combines traditional and modern styles, with steel finishes serving as one of the main design elements.

The s-pointer aerator allows you to change the angle of water flow and adapt it to the shape of the sink.

single-lever sink mixer

## KLUDI MX

### An ideal fit

Designing a rustic kitchen or a loft space with a less finished look? The KLUDI MX fitting is a practical and beautiful solution. Available in many colours, the KLUDI MX

fitting has a range of functions. Despite its slim and elegant design, the tap is robust and easy to use. The fitting makes kitchen design a breeze.

We provide a range of options for creating a modern kitchen that is both comfortable and functional.

Every detail matters – like a beautiful spout, designed to be perfect.

The ceramic cartridge allows for the easy and smooth regulation of the water flow.

**399070562**  
multi single-lever sink mixer

KLUDI MX

## Pleasant design

Have some fun with colour when designing your modern kitchen. Try combining warm beige with delicate greys – the composition will POP thanks to the chrome-plated surface of the fitting.

Shower or spray – you decide. Adjust the fitting to the task.

A multi-connector is a perfect solution in your kitchen (more information on page 12).

**399419262**  
single-lever sink mixer

## White on top

A white kitchen is the latest hit in interior design. A white fitting complements bright cabinet doors combined with wooden countertops.

A high-quality ceramic cartridge allows you to set the water temperature precisely.

# Practical solutions for your kitchen

Think practically! Which model will best suit your needs? Which functions are you most likely to use? The KLUDI MX fitting range offers many different models with varying functions and in an array of colours, making it easy to choose the fitting that is perfect for you.

The bayonet connection allows you to install the fitting right next to a window. Simply remove the fitting from its base and put it on its side.

# KLUDI L-INE

## A stylish line

The KLUDI L-INE proves that straight fittings can also be very elegant. The beautifully designed fitting is characterised by its tall, L-shaped spout. The combination of matt and chrome surfaces makes KLUDI L-INE an original and interesting choice.

The unparalleled design of the fitting matches its functionality. The pull-out spout and ergonomic lever ensure that it is comfortable to use even in a kitchen island or large two-compartment sink.

The tall spout makes the fitting very convenient to use – the tap accommodates even the largest pots.

The pull-out telescopic spout makes washing dishes or rinsing fruit easy.

The ergonomic side lever allows you to quickly select a water temperature and a flow rate.

428210577

single-lever sink mixer

KLUDI L-INE

## Part of your passion

Do you love cooking? Regardless of whether you prefer to experiment or to stick to tried-and-true recipes, you can select the best and most functional solutions for your kitchen.

A pull-out spout means that in your kitchen, nothing is impossible.

The spout allows you to extend the water jet range to 70 cm.

# The beauty of a straight line

The elegance of the KLUDI L-INE series lies in the simplicity of the design. The KLUDI L-INE fittings represent a marriage of function and form, combining practicality with timeless beauty. A fitting that is discreet and yet easy to use will quickly become an essential detail that sets the tone in your kitchen.

# KLUDI L-INE S

## Subtle shape

Designing a raw, industrial interior means mastering the art of compromise, as finding and combining wall finishes and colours requires finesse. A modern white kitchen with a flash of steel can

be stunning in its subtlety and elegance. The dignified, perfectly contoured shape of the KLUDI L-INE S fitting represents a union of cutting-edge design and functionality.

A beautiful kitchen inspires positive emotions and becomes the place where people want to gather.

Kitchen jobs are made simpler by the swivelling, pull-out KLUDI L-INE S spout.

The wide side lever makes the fitting very easy to use.

**408510575**  
single-lever sink mixer

## Functionality in its simplest form

Artistry meets a high level of functionality. The pull-out spout enclosed in a slender form will complement the raw decor of your kitchen.

# KLUDI BINGO STAR

## The only one of its kind

A little bit of quirkiness and courage? When designing a kitchen, these qualities are essential. Just as we experiment with new food tastes and intense seasonings, we should not shy away from trying out bold design solutions. The attention-grabbing double arch of the KLUDI BINGO STAR fitting is

an aesthetic detail that can define the look and feel of a space. For those who prefer more traditional shapes, we offer a classic, single-line spout. Regardless of the features you select, the KLUDI BINGO STAR series fittings combine robust design with a range of functions needed in the kitchen.

And there you go! Prepare the centrepiece dishes your loved ones appreciate.

The diverter shower/spray is discreetly embedded in the spout. The shower jet allows you to quickly fill any container.

Thanks to the spray switch, you can wash your dishes quickly, saving water in the process.

Finish: 05 chrome, 96 stainless steel look

of the water jet.

The stable, convenient lever  
allows for comfortable control  
of the water flow.

428510578  
single-lever sink mixer

## A clear choice

We all love clear and spacious interiors filled with light. White goes beautifully with wood, glass and steel.

The tall spout increases the space around the sink and makes it easy to wash fruits and vegetables.

A perfect solution: a swivelling spout with a diameter of just 24 mm and an automatic shower/spray diverter.

# Uncompromising functionality

Enjoy the highest possible standards of functionality, convenience and comfort! The KLUDI BINGO STAR fittings are a solution designed for people who value versatility and the efficient use of kitchen equipment.

In the kitchen colours come to life and your senses awaken.

# KLUDI BINGO STAR XS

## New lightness for kitchens

KLUDI BINGO STAR XS is our reinterpretation of the classic arch shape. The design follows a traditional line and is both powerful and delicate. KLUDI BINGO STAR XS is the perfect fitting for anyone who cooks light and balanced meals. The slim arched outlet is sub-

tle, but adds a highlight to any modern kitchen. A shortened handle and the locking and extending outlet are technical refinements of the single-lever mixer. The white matte and black matte surface variants offer impressive contrasts in all current kitchen designs.

Practical and beautiful:  
The extending outlet makes everyday kitchen work even easier.

Modern and ergonomic:  
The shortened handle fits the hand well and gives full control of water volume and temperature.

Perfect shape:  
The extending outlet snaps back into place audibly and tangibly after use.

**468518778**  
single-lever sink mixer

# High-contrast combinations – as you like it

Modern kitchens impress with clear divisions and extensive surfaces. KLUDI BINGO STAR XS is the ideal partner for functionality and pleasing aesthetics. Its contrasting shapes and colours enable it to blend perfectly into any modern kitchen design.

## KLUDI TRENDO

### Timeless classic

In a classic kitchen, the equipment and the materials are chosen for their timeless style, while in a modern kitchen, the emphasis is on practicality and efficiency. Is it possible to combine these two design approaches? Of course! To ensure aesthetic coherence in a classic or a modern kitchen, as well as a high

level of functionality, turn to tried-and-true solutions like KLUDI TRENDO fittings. This series is ideal for those who shy away from extravagance and showiness when choosing a kitchen design. A KLUDI TRENDO fitting blends perfectly into any tastefully designed kitchen with simple furniture and muted colours.

Quality is what matters most in the kitchen. Carefully selected ingredients and aromatic seasonings give the dish its unique character.

The convenient multi-connector allows you to regulate the flow of water to a dishwasher or a washing machine.

Just a single movement is needed to open or close the valve.

# Your space, your rules, your taste

One series, many possibilities!  
The KLUDI TRENDO series offers full range of different products with a chrome or a stainless steel finish. The fitting can be mounted on a kitchen island

or next to a window (thanks to the bayonet connection). The fitting is available with a pull-out hand spray and a shower/spray diverter.

# Setting a new standard for convenience

What matters in life are the details, the invisible solutions that make everyday activities satisfying and just plain fun. A fitting with an extendable spout sets a new standard for convenience and comfort in the kitchen. Using the pull-out hand spray, you can easily fill a pot placed beside the sink.

## Fulfil your dreams

Making a plan is the first step towards fulfilling your dream of having a beautiful and functional kitchen. Don't wait – set your priorities and get to work!

In designing your kitchen, take advantage of expert knowledge and modern tools.

Relax at work with a strong and aromatic cup of coffee.

428510576  
single-lever sink mixer

# KLUDI BOZZ

## The essence of modernity

A minimalist kitchen attracts attention with its economic approach to colour, while an industrial kitchen draws the eye with its raw surfaces and finishes.

Designing these kinds of kitchens requires care and consideration. The KLUDI BOZZ fitting

is a perfect choice for minimalist and industrial kitchens, blending seamlessly with their simple and austere design elements. The organic shape of the tall, slender spout is the product of a rigorous and conscientious design process.

We all love the sweet moments in life. A cup of coffee makes a piece of your favourite cake taste even better.

Small, but functional! The spout can be pulled out easily.

A subtle but convenient lever allows for comfortable control of the water flow.

Finish: 05 chrome

## Creative combinations redefine good taste

Daring combinations of patterns and textures work perfectly in modern interiors. Natural wood goes well with stone, glass and steel, while darkly coloured walls can offset brightly coloured furniture. Finding a fitting that goes well with an already beautiful interior design is the proverbial icing on the cake.

Beans from Columbia  
or a refreshing brew from  
the very heart of Africa?  
The aroma of freshly brewed  
coffee wafts through the home.

The pull-out spout makes  
everyday tasks in the  
kitchen easier.

## KLUDI OBJEKTA

### Delicate and versatile

The delicate contours of the fitting can serve as a starting point for all other interior design decisions. The KLUDI OBJEKTA fitting goes well with a cosy, bright kitchen with a noticeably feminine look. A tall base, a long body, and a refined lever – these are the

features of a true lady in the world of fittings! This classic feminine form can be combined with equally elegant and discreet accessories, while the versatility and functionality of the fitting will prove useful in day-to-day work around the kitchen.

Do you cook using recipes or prefer to improvise? Regardless of how you cook, you can count on delicious results.

Tastefully contoured, the wide handle goes well with the ergonomic design.

The unusual, ascending line of the spout is the hallmark of the KLUDI OBJEKTA series.

# A functional kitchen filled with light

Even if your kitchen is small, it can still be both functional and beautiful. Combining wood countertops with white cabinet doors attracts the eye. The ideal kitchen also has a window – the sun shining into the room makes the space even warmer and friendlier.

Installing a fitting next to a window has never been so easy. Thanks to the bayonet connection, you can easily remove the fitting from its base, set it to one side, and open the window without any obstructions.

## A practical choice

Nothing makes everyday tasks in the kitchen easier than a perfectly selected fitting.

A standard shower jet is all that is needed for most tasks.

A spray may be useful for rinsing dishes or washing fruits and vegetables.

**389730575**  
single-lever sink mixer

## KLUDI ZENTA

### Balanced geometry

Like attracts like. A kitchen dominated by monochromatic colours and minimalist cabinetry also needs accessories with clean lines. The KLUDI ZENTA fitting perfectly complements stark and distinctive interiors. The minimalist, geometric

shape and the monolithic form of the fitting make it both elegant and practical. The KLUDI ZENTA fittings are available with a range of functionality options, such as an extendable, swivelling spout or shower/spray diverter.

Do you prefer order and clean lines? Choose an arrangement with regular, orderly shapes.

The geometric design of the spout is the hallmark of the KLUDI ZENTA series.

A cohesive and discreet lever is integrated into the body.

**389840575**  
single-lever sink mixer

# A modern kitchen at its best

A modern interior design can be created from a wide range of materials, such as stone worktops, wooden surfaces, and shiny chrome and stainless steel. Combining all of these materials with universal and fashionable white tones will lend the kitchen a minimalist feel.

**389739675**  
single-lever sink mixer

## A universal addition

Fittings with a stainless steel veneer look best against a contrasting background. Try combining warm natural wood with white tones.

Comfort is the main priority in the kitchen – choose fittings that are functional and easy to use.

A perfectly prepared dish tastes best in a beautiful interior.

## An exceptionally practical fitting

To achieve your desired look, choose interior design elements that complement a fitting with an elegant stainless steel veneer, such as matt accessories, cabinet doors in grey tones, and wooden surfaces. Especially when suffused with natural light, the kitchen

will be warm, cosy and inviting. The KLUDI ZENTA fitting is a masterful example of the power of contrasts, with a geometric design formed by sharp lines and delicate curves converging in a single, harmonious piece.

## Balancing contrasts A black and white kitchen

In interior design, geometric shapes can be used to create strong contrasts. In the kitchen, try combining black with white elements or warm wood with the cool glint of shiny steel.

Diversity inspires. A black fitting against a white wall or white fittings paired with black? You decide.

## KLUDI SCOPE

### Versatile in every way

A simple, universal fitting is the perfect choice for even the most elaborate and extravagant design. This model complements all minimalist, ultra-modern and loft kitchens, spaces

where form is just as important as function. With its ergonomic shape and range of available features, KLUDI SCOPE will surely satisfy even the most particular needs.

Kitchens should be filled with rich aromas, such as the smell of a freshly baked cake.

The precise shape of the fitting is the result of our designers' careful attention to detail.

The seamless transition between the spout and the base is a hallmark of this fitting.

Finish: 05 chrome, 96 stainless steel look

339300575  
single-lever sink mixer XL

## Universal simplicity and flexible solutions

KLUDI SCOPE makes multi-tasking easy! The extendable, swivelling spout simplifies the task of washing dishes or fruit, while the bayonet connection allows you to install the fitting right next to a window (more information on pages 8-13).

Raw interiors with brown surfaces call for bright, contrasting accents. The glint of a chrome-plated fitting will perfectly complement the minimalist simplicity.

# KLUDI functions

## A full range of possibilities

To make choosing the perfect fitting easier, we have prepared a summary of all of the functionalities available for all of our product series. Do you want to take advantage of lower water flow?

Or maybe you are looking for a fitting with an extendable swivelling spout? The table below will help you quickly and easily choose the best fitting.

	S-pointer	Eco	Pull-out spout	Hand spray	Push-fit connector	Bayonet connection	Multi connector	Low pressure	Sensor	Battery powered	Mains powered

A pull-out spout greatly extends the range of the water jet.

An automatic diverter allows you to transform a shower jet into a delicate spray.

Functionality is what matters the most in a kitchen. The cooking, storage and washing zones are the places that require the most robust and imaginative solutions.

# KLUDI fittings come in various colours and finishes

The trend towards bold colour combinations is now well-established in kitchen design. The colour brings the interior to life, adding visual interest through striking contrasts or monochromatic harmony. Unconventional colours and innovative surfaces are becoming increasingly prevalent in KLUDI kitchen fittings.

In addition to white, black can be used to achieve stylistic simplicity. A black fitting is both elegant and sensual.

Another option – a fitting made of brushed stainless steel – will perfectly complement any raw, industrial interior.

# Technical details

Are you looking for the perfect fitting for your kitchen?  
Or maybe you simply want to quickly check the height  
and technical parameters of a given model?  
The drawing and measurements below will allow  
you to quickly determine the height, diameter  
and length of the spout.

All dimensions are given in millimeters.

H1 = Height of fitting  
H2 = Spout height (bottom of spout)  
A = Projection of spout  
Ø1 = Diameter of tap hole  
Ø2 = Diameter of fitting

A = Projection of fitting from wall

**S-pointer**  
Angle of water flow can be adjusted  
to fit different shaped sinks.

**Eco**  
Saves at least 40% water.

**Pull-out spout**  
Fitting with pull-out spout for extended  
working radius.

**Hand spray**  
Fitting with pull-out hand spray can be switched  
over from normal flow to spray mode.

**Push-fit connector**  
It just takes one click to fit the end of the hose to  
the adapter on the mixer body with the push-fit connector.

**Bayonet connection**  
Fitting suitable for installation very close to a window.  
The connection allows to remove the fitting from its base.

**Multi-connector**  
Fitting with a connection for a washing machine  
or a dishwasher.

**Low pressure**  
Fitting suitable for under-counter water heaters.

**Sensor**  
Fitting with non-contact operation.

**Battery-powered**  
Electronic fitting with battery operation.

**Mains-powered**  
Electronic fitting for 230V AC connection.
