PRODUCT CATALOGUE

marmorin

MARMORIN is a B2B manufacturer of washbasins, bathtubs, shower trays and kitchen sinks. Based in European Union, the company specializes in private-label and custom design products made with advanced casting technologies and innovative materials. With over 35 years of experience and technological know-how, Marmorin is a reliable partner that supports Your business, brand and product.

SUPPORT FOR YOUR BUSINESS, BRAND & PRODUCT

NOTICE! Availability of products may differ by region.

MINERALICAST®

CAST DOLOMITIC MARBLE

MINERALICAST® is a material with a long history within our company and a huge list of satisfied Customers all around the world. Developed 35 years ago and constantly improved over time, MINERALICAST® is one of the most reliable and unique cast material on the market. The main component of the material is powdered dolomitic marble that consists of 96% calcium magnesium carbonate, which is a natural mineral, known as “dolomite” - $\text{CaMg}(\text{CO}_3)_2$. The powder is produced by disintegrating and purifying genuine dolomitic marble, which is a metamorphic rock formed by natural transformation (metamorphism) and estimated to be over 500 million years old.

During the production process the powdered dolomitic marble is mixed with dedicated resin creating a strong casting filler. The external surface of each casted product is covered by one of our exclusive sanitary gelcoat coatings for perfect surface finish and performance. This combination of material elements form unique composite material - MINERALICAST®. Its chemical and physical properties allow to manufacture high quality products of almost unlimited shapes and efficient technical and functional features. We offer various coatings each dedicated to different product characteristics and designation.

 500 MILLION-YEAR-OLD DOLOMITIC MARBLE	 HIGH CONTENT OF NATURAL MINERAL	 MAT OR GLOSSY FINISH	 DEDICATED SURFACE COATINGS	 WIDE COLOR PALLET	 FULLY DEAERATED
 SUITABLE FOR INTEGRATED OVERFLOW	 SCRATCH-RESISTANT	 VOID-FREE AND NON-POROUS	 AVAILABLE FOR CUSTOM-TRIMMING	 SELF-EXTINGUISHING	 STAIN-RESISTANT
 EASY TO CLEAN	 THERMAL-SHOCK RESISTANT	 SURFACE ABRASION RESISTANT	 UV-RESISTANT	 REPAIRABLE & RENEWABLE SURFACE	 HYGIENIC
 IMPACT-RESISTANT	 WARM TO TOUCH				

MINERALICAST® STM

MINERALICAST® STM is an entry option in our cast dolomitic marble offer which characterizes itself with a very satisfactory quality-price ratio. Final products are delivered with a flawless high glossy surface available both in pure white or pure black. Additionally, it is possible to apply custom shades of white or other selected colors from RAL color spectrum.

MINERALICAST® DURO

MINERALICAST® DURO offers increased resistance to surface abrasion and stronger rebound hardness. Product external surface is also more resistant to chemical agents. Features useful in both domestic and public spaces. Unique chemical and physical properties of MINERALICAST® DURO ensure great reliability in manufacturing complex shapes of products which is an important factor in a large-scale production.

MINERALICAST® MAT

It is a powerful alternative to typical mat solid surface products. Our specially developed gelcoat layer, dedicated for mat "soft-feel" finish, makes products warm and pleasant to the touch - characteristics commonly associated with solid surface. The great benefit of this material solution is the thick gelcoat layer which ensures longevity and renewability of the surface. MINERALICAST® MAT offers the same surface characteristics as ATH-based compounds but at much more accessible price range.

MONOCAST®

PURE SOLID SURFACE

MONOCAST® is a pure solid surface material that has been produced by Marmorin for over 15 years. It is a uniform and homogenous, ultra-white mass obtained by combining high quality and clean Aluminum Trihydrate (ATH) with carefully selected highly resistant resin. MONOCAST® is 100% solid all the way through the entire product, non-porous and void-free with exceptional surface finish. Marmorin is among very few manufacturers that fully mastered production of casted solid surface bathroom products. Whether, it is a small, medium or large scale production we can provide our Customer with the same high quality product. There are almost no limits in terms of shapes, complexity or sizes for products made of MONOCAST® which makes it perfect solutions for demanding projects.

MONOCAST® GLOSS

MONOCAST® GLOSS is an interesting offer for any Customer who seeks solid surface products with high glossy finish. During the production process the mold is covered with a layer of white gelcoat which stays on the product external surface. The gel coated product is hand polished until an excellent high glossy finish is achieved. MONOCAST® GLOSS is a cost-effective solution in compare to typical glossy polished solid surface products where a great deal of sanding and polishing is required. The gel coated layer will ensure a flawless and repairable surface of a finished product.

 100% SOLID THROUGHOUT THE ENTIRE PRODUCT	 HIGH CONTENT OF NATURAL MINERAL	 MAT, SATIN OR COATED GLOSSY FINISH	 SUITABLE FOR INTEGRATED OVERFLOW	 FULLY DEAERATED	 UV-RESISTANT
 REPAIRABLE & RENEWABLE SURFACE	 SCRATCH-RESISTANT	 VOID-FREE AND NON-POROUS	 ANTIBACTERIAL	 AVAILABLE FOR CUSTOM-TRIMMING	 STAIN-RESISTANT
 EASY TO CLEAN	 SELF-EXTINGUISHING	 SURFACE ABRASION RESISTANT	 THERMAL-SHOCK RESISTANT	 IMPACT-RESISTANT	 WARM TO TOUCH

LIGHTCAST®

THERMO-LIGHT COMPOSITE

LIGHTCAST® is one of our biggest technological secret and achievement. After years of research and testing our R&D Department developed the most unique composite material that combines both extraordinary durability and exceptional lightness. It is a combination of careful handmade processes with advanced casting technologies. LIGHTCAST® has its own dedicated production line and is exclusively manufactured by Marmorin.

The material is especially dedicated to large size bathtubs with or without integrated overflow. Products made of LIGHTCAST® are much lighter than equivalents manufactured with other common materials such as cast marble or solid surface but at the same time they outperform their competitors with longevity and durability. The secret lies in a fiber glass structure, special filling and an external gelcoat layer. The surface of LIGHTCAST® products is repairable and thanks to higher thermal insulation of the composite material water temperature stays constant for a longer time. At special Client's request our technological capabilities allow us to deliver a product with a custom weight.

 EXTRA LIGHT	 DURABLE INNER FIBER STRUCTURE	 HANDCRAFTED WITH ADVANCED TECHNOLOGIES	 MAT OR GLOSSY FINISH	 PRODUCT WEIGHT REGULATION	 HIGH THERMAL INSULATION
 SUITABLE FOR INTEGRATED OVERFLOW	 STAIN-RESISTANT	 MADE ONLY BY MARMORIN	 HYGIENIC	 THERMAL-SHOCK RESISTANT	 SCRATCH-RESISTANT
 REPAIRABLE & RENEWABLE SURFACE	 EASY TO CLEAN	 UV-RESISTANT	 IMPACT-RESISTANT	 SURFACE ABRASION RESISTANT	 NON-POROUS
 WARM TO TOUCH
