Liquid

Liquid

Expressive minimalism

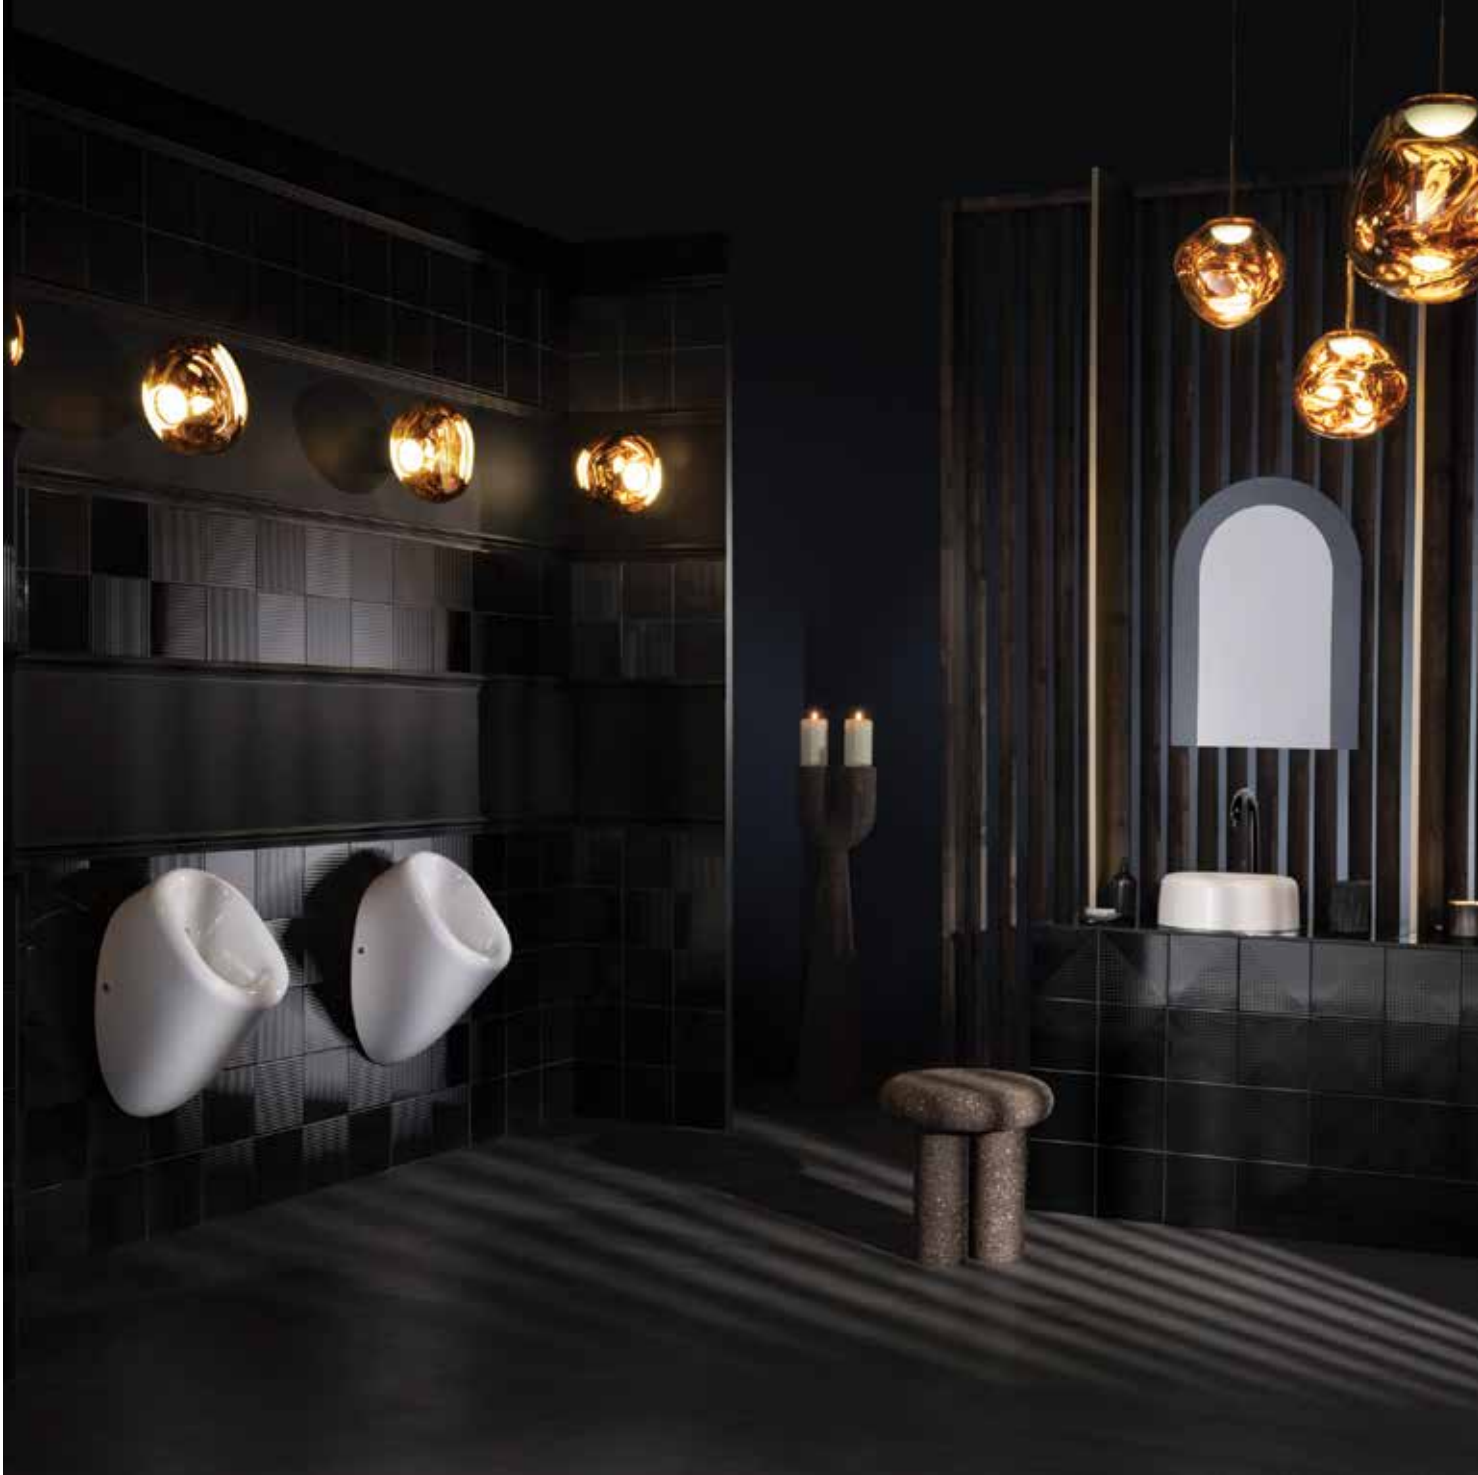

Liquid is a unique collaboration between Tom Dixon and Vitra, bringing the British designer's philosophy of expressive minimalism to the bathroom.

Liquid

Timelessness

Designed to stand the test of time, the Liquid collection provides the vision for the bathroom of tomorrow – defining a new standard in bathroom products for home, hospitality and commercial spaces.

Liquid

Generosity

Expressive of self-care and wellbeing, the curves of Liquid's ceramics chime with robustly rounded brassware that is compellingly tactile and intuitive to use. Working in unity, the collection's generous proportions and materiality eradicate sharp edges from the bathroom.

Liquid

Creativity in ceramics

Extending sculptural ceramics beyond the traditional realms of basins and sanitaryware, the collection includes the unusual feature of a rotund moulded ceramic stool – for use in the shower or anywhere else in the home.

Liquid's washbasins span an expressive range from discrete inset solutions to wall-hung, countertop and freestanding options.

Liquid

Flowing silhouettes

All models make use of Vitra's Rim-ex rimless technology for superior hygiene performance.

Bidets and WCs come in wall-hung or floor-mounted designs, and the urinal uses touchless technology.

Liquid

The supporting cast

The classic bathroom palette of black, white and chrome is complemented in Liquid's furniture options.

Under-washbasin closed storage offers a choice of scalloped stripes of Scandinavian glass or the robust stamp of perforated black metal mesh. With internal shelves of glass, the units can be floor or wall mounted. An open-storage alternative introduces contrasting lozenges of blue glass shelving oversailing a simple frame.

Liquid

Stylised enrichment

Liquid's brassware combines conical handles with exuberant tubular bodies. Easy to use and joyfully communicative of function, the range of taps and showers comes in two finishes: glossy black and chrome.

Extending the tubular language of Liquid's brassware, a suite of accessories including a towel hook, toilet roll holder, toilet brush and double soap dispenser is available.

Liquid's accessories range is enhanced by robust and round-edged ceramic shelves in two lengths.

New Metropole

Metropole Edge

Simple, exclusive designs

The bathroom furniture in the Metropole Edge series, designed to meet high expectations, stand out with chic details.

The series features MDF cabinet bodies and drawers, modules with glass doors, tall cabinets, and mirror cabinets. Elegant and slim frames made of solid wood create harmony with the natural finish.

Shades such as walnut, light oak, and black oak reference the rich colour options.

Metropole Edge

A different mood in the bathrooms

The Metropole Edge series features washbasin units in different sizes for efficient use of space and elevates the bathroom mood with its design details.

The standard washbasin modules with two drawers come in widths of 50 cm, 60 cm, 80 cm, 100 cm or 120 cm while vanity modules with two drawers are offered in widths of 60 cm, 80 cm, 100 cm or 120 cm. The series also includes modules with ceramic countertops and single drawers in widths of 80 cm or 100 cm.

The drawers feature a push-to-open system for practicality and boast an exclusive look with interior lighting details and interior finishes in anthracite.

Metropole Edge

A reflection of modern ideas

The mirror cabinets in the Metropole Edge series offer a modern look and practical storage solutions in widths of 60 cm, 80 cm, 100 cm or 120 cm, fitting perfectly to washbasin areas in various dimensions.

The mirror cabinets feature double mirrors that can be used even when the door is open. The socket inside the cabinet offers convenience when using appliances such as a blow dryer, shaver, and electric toothbrush.

Metropole Pure

Clean lines, pure design

Metropole Pure

Functionality hidden in simplicity

The Metropole Pure series offers everything expected from a modern washbasin cabinet in its purest form, fitting all bathrooms thanks to its simple lines.

Similar to the Edge series, standard modules with two drawers are available in widths of 50 cm, 60 cm, 80 cm, 100 cm or 120 cm while vanity modules with two drawers come in widths of 60 cm, 80 cm, 100 cm or 120 cm. Modules with ceramic countertops and single drawers are offered in widths of 80 cm or 100 cm.

Interior lighting and anthracite interior finishes lend to the aesthetic look of the drawers, which feature a push-to-open system for easy opening and closing.

Metropole Pure

Perfect washbasins with holistic design

The washbasins, blending impressive vertical lines with rounded edges, are created with a fluid design language from overflow holes to syphon covers. The collection's various form, colour and size options contribute to different design alternatives that make it easier to create unique styles.

VitrA Universal Mirrors

VitrA

VitrA Universal Mirrors

Designs that reflect the heart of the bathroom

V-Care Ultra Smart Toilet

V-Care Ultra Smart Toilet

We care about your personal hygiene with ultimate protection.

Automatic opening and closing

V-Care Ultra provides optimal hygiene by using UV-C ray technology to prevent the formation of bacteria inside the toilet bowl. The smart toilet also offers a range of washing options, adjustable water temperature, and a durable, easy-clean Duroplast toilet seat.

Toilet seat temperature adjustment

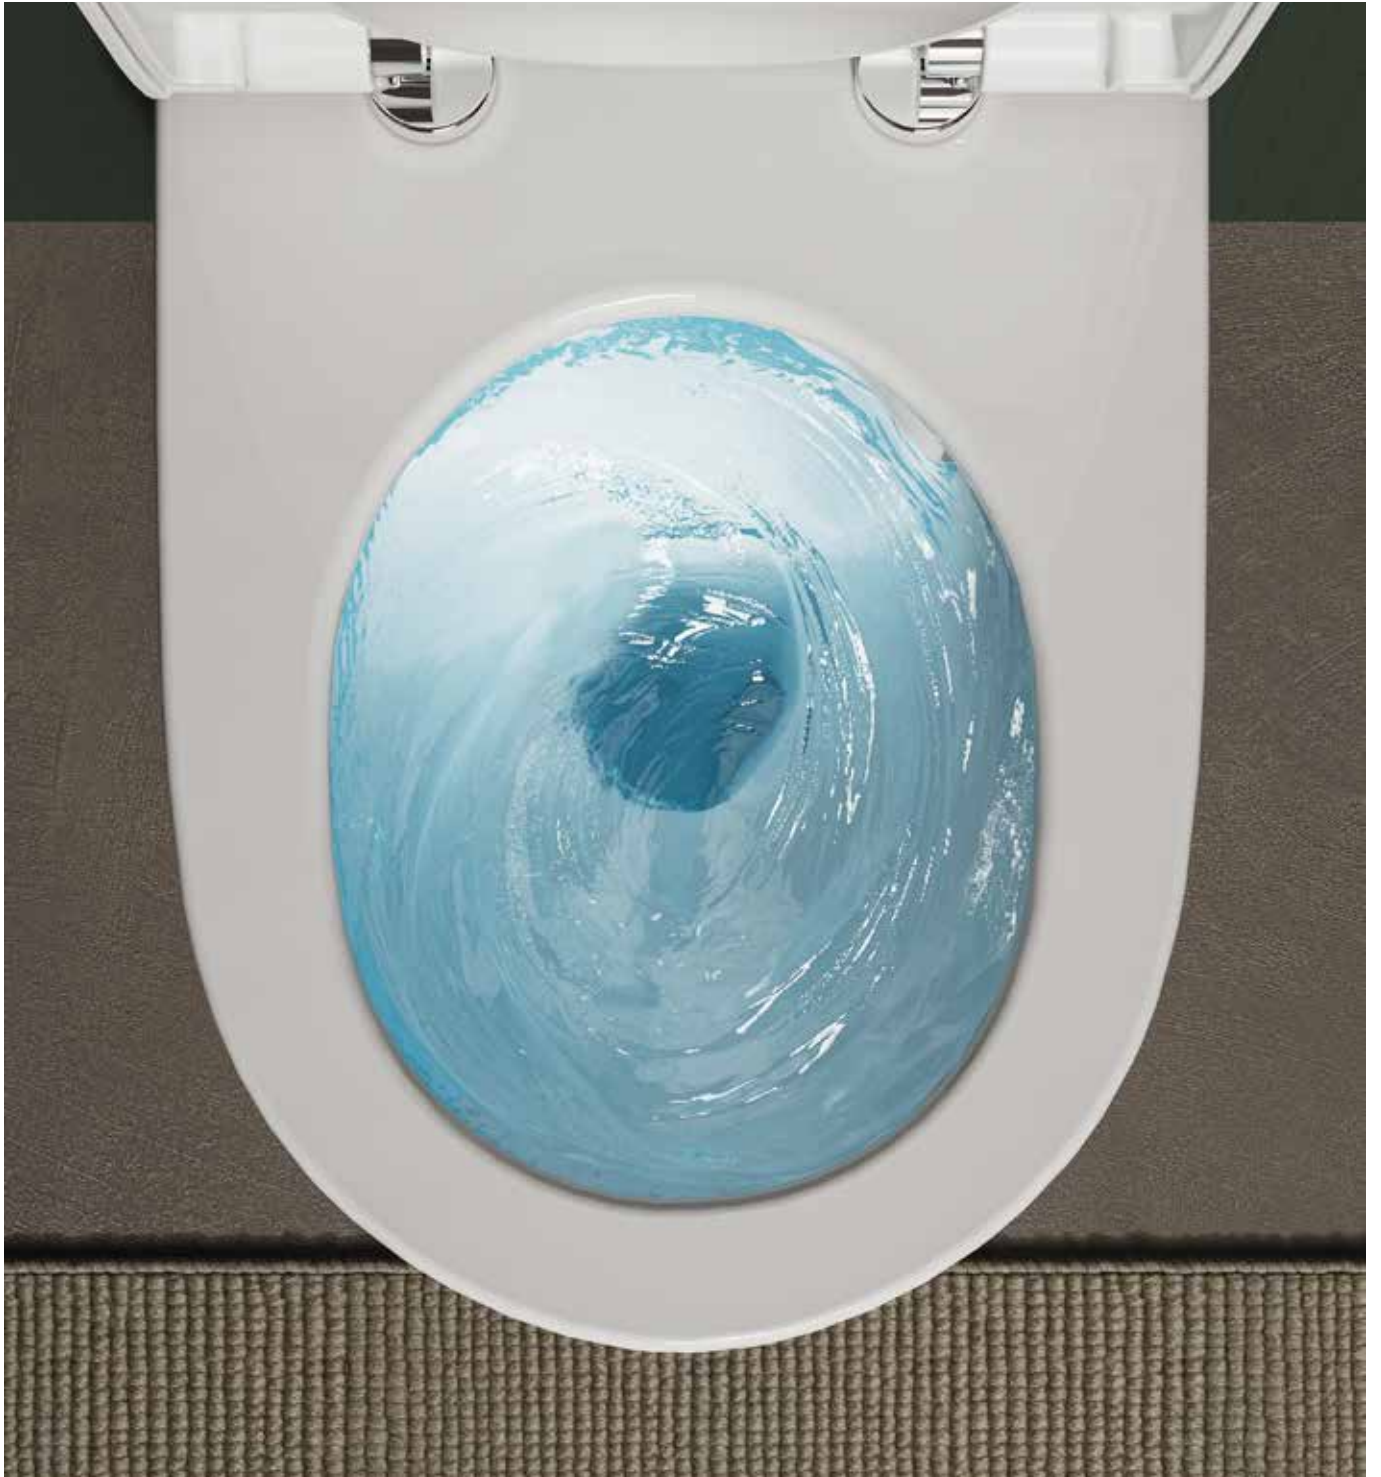

VitrA QuantumFlush

VitrA QuantumFlush

A brand new flushing technology

**A brand new
technology from
Vitra:
QuantumFlush**

Engineered based on the principle of laminar flow, QuantumFlush is designed to clean by spreading the water in the most powerful way, without splashing or noise over the entire inner surface of the toilet bowl.

VitrA QuantumFlush

The perfect cleaning technology

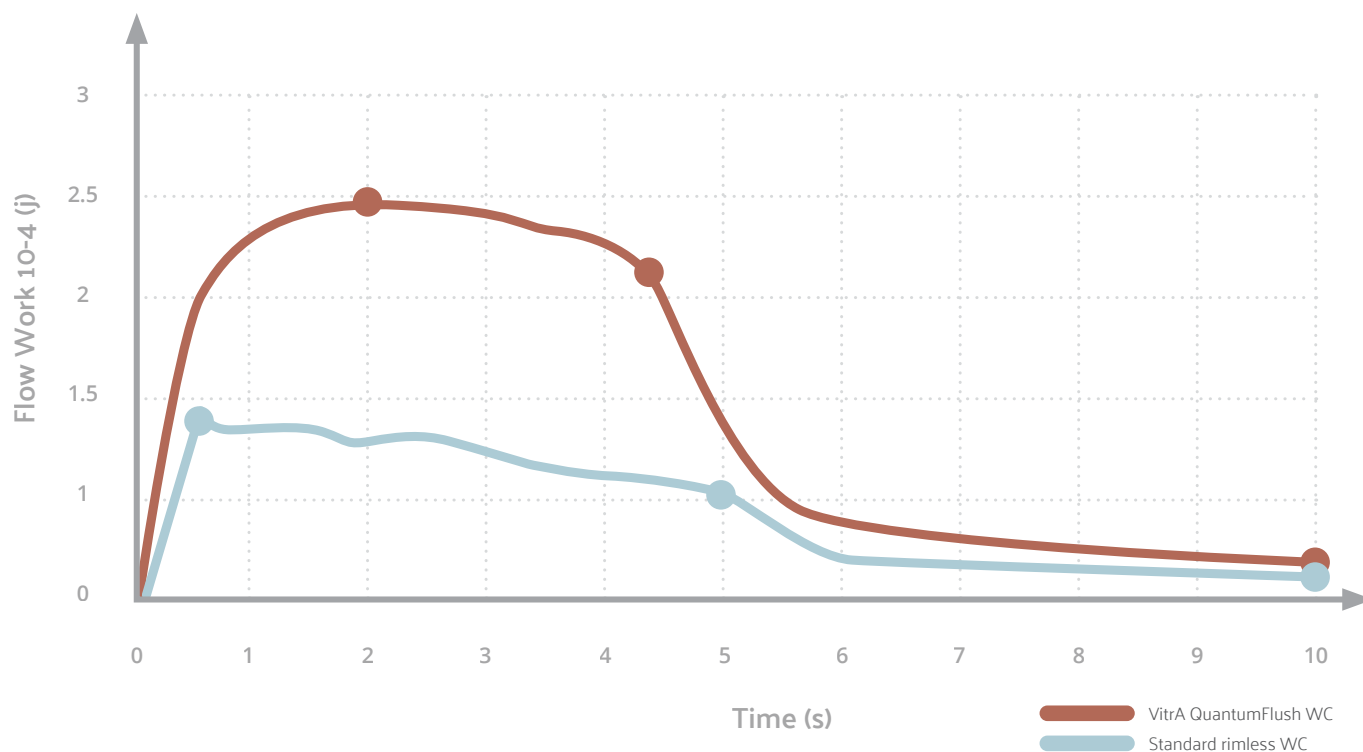

At the rear of the QuantumFlush is a strong momentum manifold with 3 outlets designed using the laminar flow principle. This engineering solution converts the turbulent flow of water in the manifold into laminar flow. This prevents energy loss by allowing the water to flow smoothly inside the toilet bowl. The energy of the water is maintained so that it reaches every point and cleans the bowl in the best possible way.

2x as much cleaning power

In the QuantumFlush toilet, the flush works 120% better than in a standard rimless toilet

VitrA QuantumFlush

Powerful yet splash free

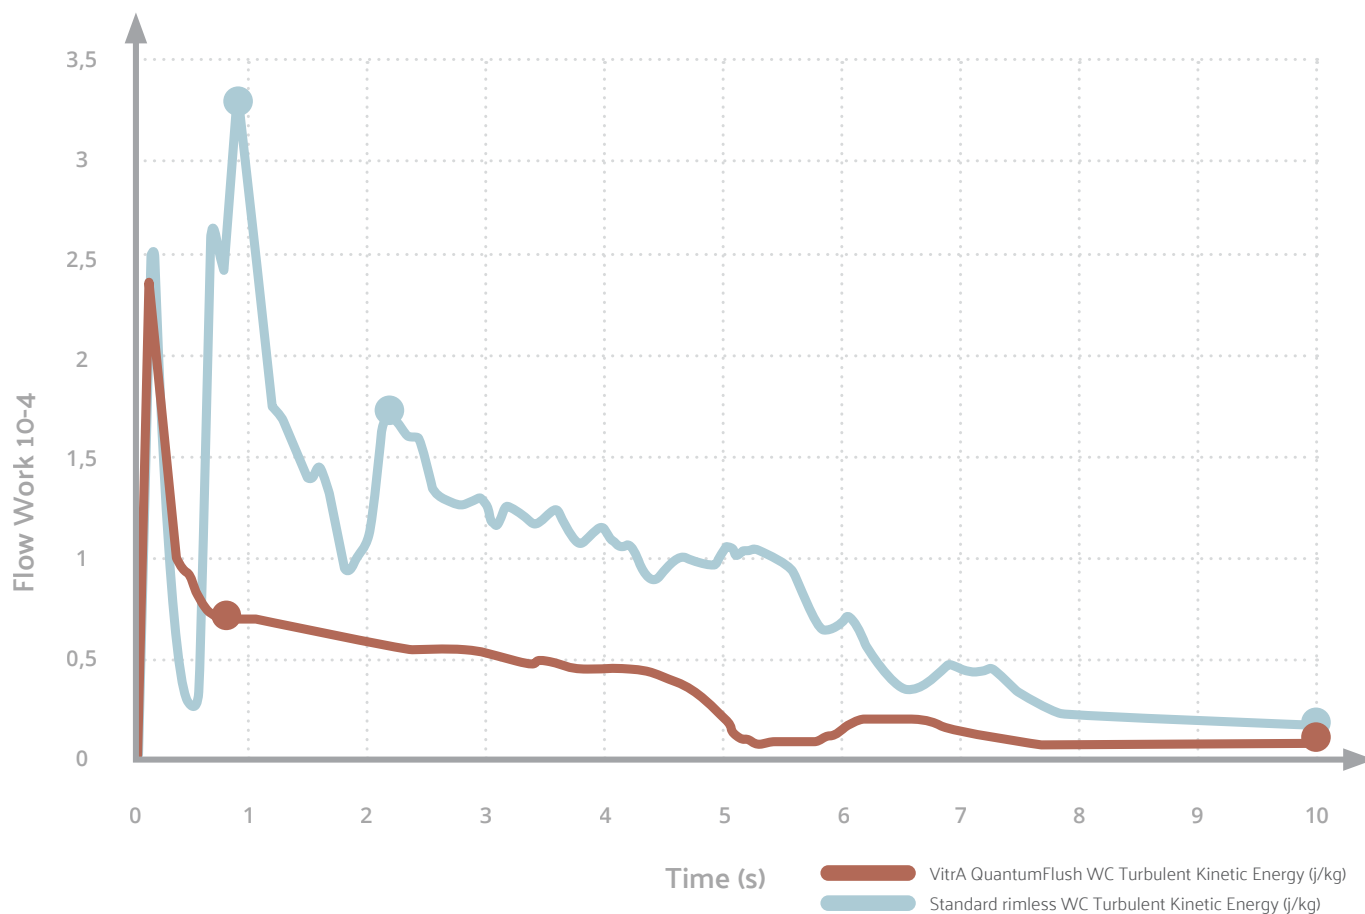

In current flushing systems, water particles collide in the bowl due to irregular flow, resulting in splashing and the spread of bioaerosols in the bathroom environment. QuantumFlush, on the other hand, provides a cleaning power that not only exceeds the norm, it also prevents water from splashing and provides a hygienic toilet experience.

2x Less turbulence... Less splash...

VitrA QuantumFlush

Powerful yet silent

7 times less noise

QuantumFlush utilises the power of water in the most efficient and quiet way. Due to the characteristics of laminar flow, it reduces the turbulent kinetic energy of the water and prevents the noise caused by the chaotic collisions of the water that is flushed. This allows QuantumFlush to provide a much quieter flush than standard toilets.

QuantumFlush is one of the quietest toilets in the world

According to accredited lab tests, QuantumFlush has 8.45 dBA less sound energy than a normal WC. 8.45 dBA means that it produces approximately 7 times less noise.

Certified by Quiet Mark

Zentrum

Zentrum

A minimalist approach to your bathroom atmosphere

The Zentrum WC series was designed so that it could be easily adapted to any bathroom atmosphere with smooth transitions, timeless design and minimalistic style.

The Zentrum collection includes wall-hung, close-coupled and back-to-wall toilet options.

Zentrum

A simple look with functional solutions

Hygienic and durable

The Zentrum toilets incorporate SmoothFlush technology which prevents the build-up of dirt and bacteria, thanks to the rimless design.

The VitrA Hygiene glaze prevents the growth of bacteria by up to 99%. Furthermore, the rimless design and triple-nozzle diverter ensure maximum hygiene.

Equal Washbasins

Equal Washbasins

Brave simplicity

Designed as a custom piece of furniture, Equal's vanity unit amplifies the visual effect of completeness, thereby creating the perception of more space. Single and double washbasins display a striking contrast of linear and flowing forms. Available in wall-hung, countertop or metal frame options with towel holders or shelves, Equal washbasins float above an uninterrupted floor surface perfect for easy cleaning.

Origin Classic

Origin Classic

A harmonious blend of classic and contemporary

Origin Classic combines elements of the past and future, executed with a contemporary touch to highlight its graceful and elegant lines. The collections consists of complementary faucets, accessories and shower systems, and creates a unique ambiance in the bathroom, with the harmony of the classic and the contemporary. Different colour and usage options provide a lot of design freedom.

Origin Classic

Classic design that unifies the bathroom

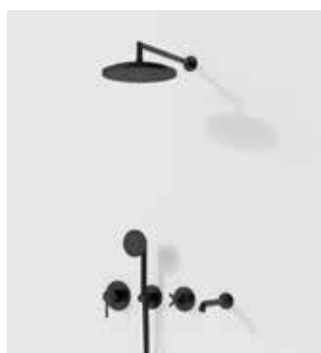

The design language of Origin Classic reflects the harmony of classic and contemporary style in every piece in the collection. The collection offers a wide range of products to accommodate different approaches and usage habits. Complementary faucets, shower systems and accessories provide flexible design alternatives in the bathroom.

Origin Classic

Diversity-enhancing details

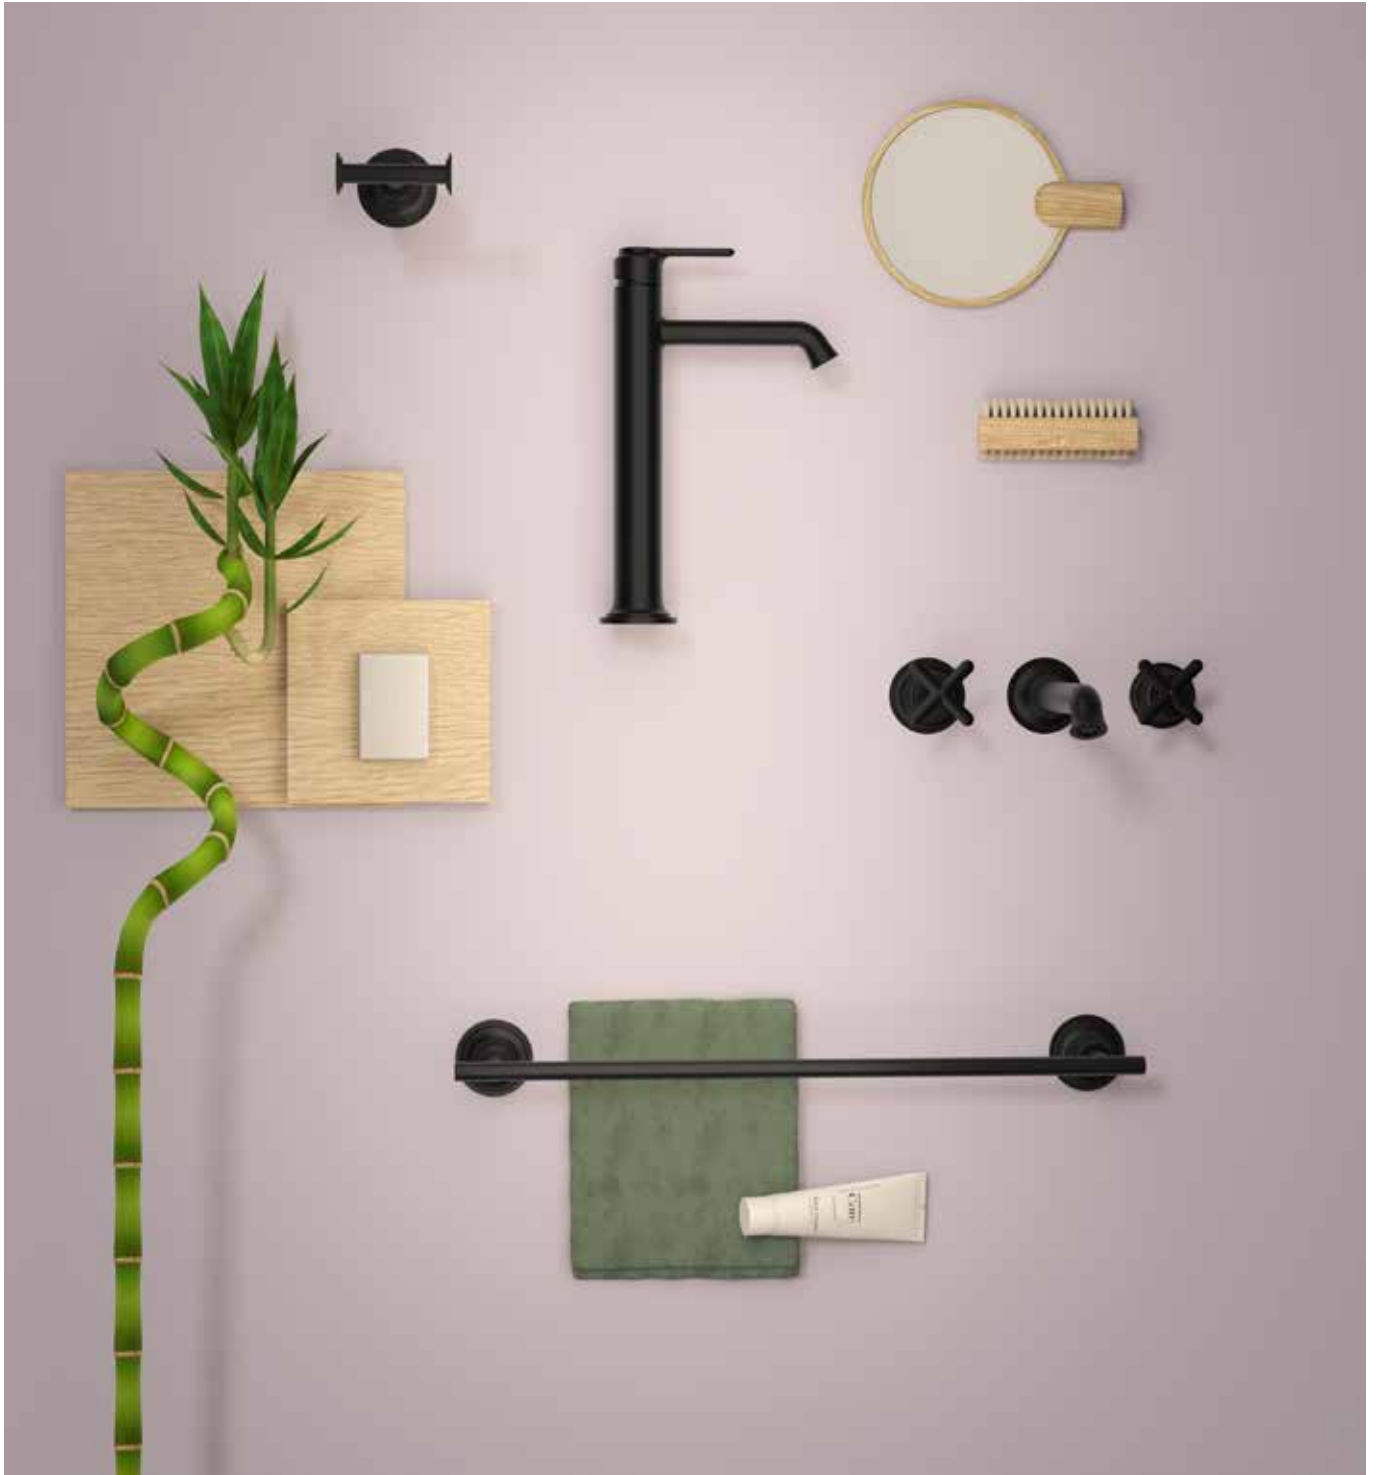

The unique details on the faucets give the collection a distinguished feel. The on-off function of the classically styled control levers located on the sides, or the single control lever, located on the top, is designed to maintain its sensitivity and smooth usage for years, thanks to its easy movement feature. The special ceramic coated cartridge in the overall range enables a slim body design, and ensures a more durable and long-lasting life. The simple assembly apparatus makes installation quick and easy.

Origin Classic creates a classic ambiance with the variety of colours it offers; in chrome, soft copper, brushed gold and matt black, to ensure durability for years to come.

Origin Classic

Different solutions for different washbasins

The faucets in the collection appeal to different user preferences and feature classic style control levers located on the sides, or a single control lever located on top. Origin Classic faucets add a distinctive touch with the unique curve of the spout, and offer different height options for each washbasin type.

Origin Classic

Alternative solutions for different showering areas

Origin Classic brings the elegance of classic design language to the showering area, offering solutions suitable for different spaces, including 4-hole bathtub mixers, floor bathtub mixers, built-in shower and bathroom mixers as well as bath and shower mixers.

Origin Classic

Accessories that complement the classic ambiance

The accessory options offered by Origin Classic not only complement the design language of the collection, they add the final touch to bathroom ambiance to make the bathroom complete, with the classic spirit.

Suit

Suit

Shaping water by design

The Suit Collection, designed by Design Studio Vitra, uses geometric shapes and transforms them into an elegant and original design. The design language of the collection combines round and square lines to create a sculptural appearance thanks to the slim body.

Suit

Colour alternatives

The Suit Collection perfectly complements the harmony in the bathroom with chrome, glossy black, soft copper and soft gold colour alternatives that will look new for years.

Suit

Freedom of choice in the bathroom

The collection includes every detail necessary to design a bathroom where all the parts are in harmony, and it offers a range of different colours, sizes and solutions. The Suit Collection makes bathroom design a unique experience.

Flow Line

Flow Line

Variety suitable for any design

The three new Vitra faucets feature taps with different designs. They complement the entire Vitra collection and help accentuate the desired style in every part of the bathroom.

Flow Line

Designed for durability

Flow Round

Flow Soft

VitrA expert quality management and quality assurance teams work hard with other teams to ensure conformity with the highest standards in product coating, functionality and durability at every step from design and product development to testing and installation.

Flow Square

Flow Line

V-SuperFix

Installation is a breeze with V-SuperFix

Easy installation is made possible thanks to the fixings that can be adjusted by hand in just 15 seconds, without the need for tools.

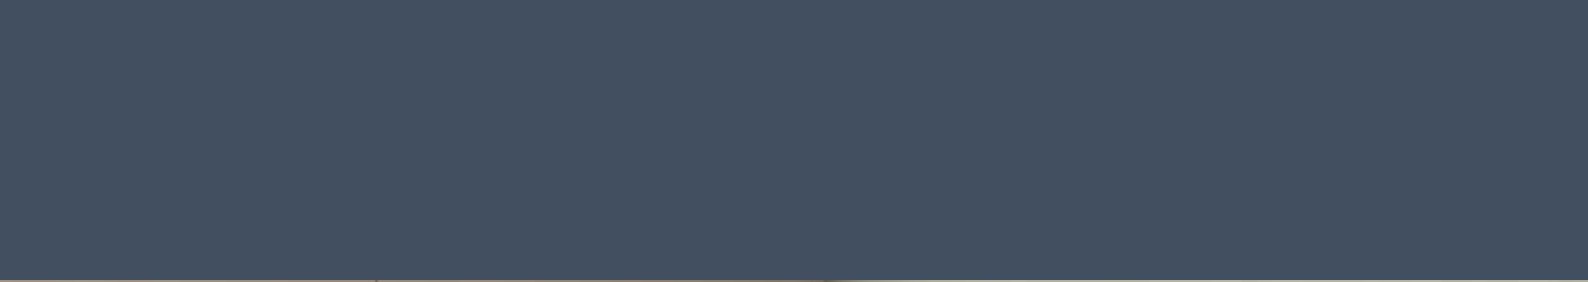

V-Pure

Technology that saves water: V-Pure

V-Pure technology ensures the water flows clean and pure. The inner-waterguides used in production prevent the water from direct contact with lead to ensure a healthy flow of water.

VitrA Universal Panels

VitrA Universal Panels

Diversified bathrooms in a variety of combinations

Vitra not only provides functional solutions for every bathroom need, it also adds a distinctive touch with the wide range of sizes, colours and patterns it offers in shower enclosures. The fact that front and side panels can be selected in combinations to match individual need and taste ensures for a wide range of bathroom

Impact-resistant glass

The glass of the shower enclosure has undergone a specific durability test and can withstand impacts of up to 60 kg.

Guaranteed seal to prevent leakage

As a result of leakage tests performed by spraying 33 litres of water per minute on the enclosure, it is clear that Vitra Universal Panels are guaranteed to be leak-proof.

VitrA Universal Panels

Age-defying performance

Installer-friendly and compatible with every bathroom size

The dimensions of Vitra Universal Panels allow a tolerance margin that enables the panel to be adjusted according to the size of the area where it will be installed. At the same time, regardless of the wall type, it can be easily adapted to any measurement during installation.

Seamless and quick installation

Vitra Universal Panels save time due to the easy and quick installation option with detailed designs. Front and side panel designs with integrated fittings and equal profile thickness make it possible to easily apply the desired combination without the need for an additional module, unlike standard shower enclosures.

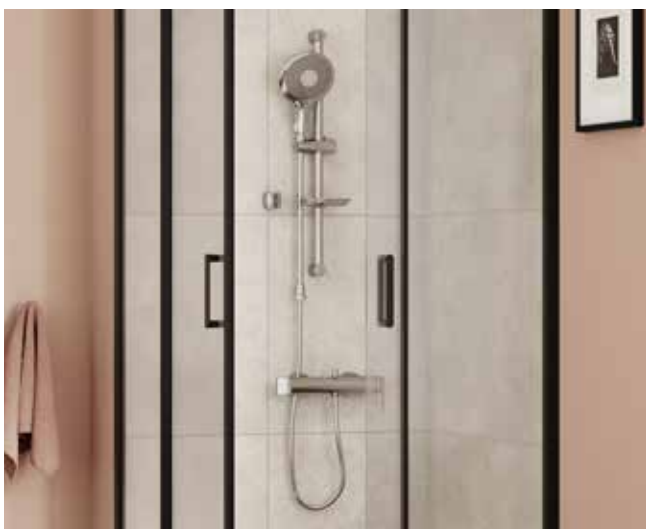

Age-defying performance

Tested for the durability of its mechanical parts by opening and closing 80,000 times, Vitra Universal Panels have proven to be long-lasting.

One step ahead in safety: Protect Plus

The transparent Protect Plus is an invisible coating that is easily applied to the shower glass. It keeps the glass in one piece and prevents glass fragments from scattering in case of a breakage.

VitrA Universal Panels

Shower enclosure series for every individual style

Compatible with all wall types, VitrA Universal Panels offer standard door or fixed panel options that make it easy to go in and out. Glossy silver and matt black profiles with standard doors can be applied with transparent or degraded glass while fixed panels with matt black profiles can be combined with smoked and transparent glass options.

VitrA V-Fix Concealed Cisterns

VitrA V-Fix Concealed Cisterns

Faster, easier, fault-free

VitrASilent Concealed Cisterns

By special filling system the cistern filling sound does not exceed 19 db and stays in the range of valve group I. Thanks to the system that instantly cuts off the filled water, disturbing noises are prevented during the cutting process. The styrofoam on the product provides extra insulation and so that provides a quiet use both in the bathroom and in the connected living quarters.

10 years guarantee and 30 years spare part availability

Qualified, durable, and sustainable VitrA products create highly functional and reliable solutions. The durability of VitrA V-Fix is backed up by VitrA's high technology standards and engineering. In addition to the 10-year warranty, a 30-year spare part supply guarantee is also provided for each concealed cistern. VitrA always allows the purchase of spare parts to maintain the continued function of a VitrA Concealed Cistern for up to 30 years from the manufacturer's date of sale.

VitrA V-Fix Concealed Cisterns

Adjustable flush volume

With its inner tool settings, the adjustable flush in Vitra V-Fix reduces flush volume easily by changing the full flush volume to meet individual requirements. Good for the environment: Thanks to a real dual-flush system, the partial flush stays constant with a water-saving 2,5 or 3 litres.

Control panel flexibility

Control panels in different colours and designs provide functionality within elegance. In addition to pneumatic and mechanic control panels, touch-free panel options offers more hygienic solutions. On the other hand, the smart panel embodies Vitra as a pioneer in the sanitary sector.

VitrA V-Fix Concealed Cisterns

Durable products, higher standards

VitrA V-Fix' durability and performance have been tested by international standards organisations and meets the DIN EN 14055 European standard for cisterns, and certified for many countries for longlasting fault-free usage.

China Water Efficiency Label

Anqas Certification - Malaysia Product Certification

European Committee for Standardization

French Function, Material and Noise Standards Compliance

TÜV LGA Quality Test

Turkish Standards Institution

UK Water Supply Regulations Compliance

Israel - SII

VitrA assurance in security and performance

VitrA Concealed Cistern developed with high technology undergoes quality, performance and reliability tests such as strength and stability, durability, resistance to temperature fluctuations, and resistance to frost and water contraction.

Leak test

All products undergo the leak test with the water filled into the cisterns at VitrA facilities.

Flow test

Discharge rate and water level are very important for a good cleaning. Therefore VitrA laboratories perform tests at regular intervals with international standard flow rates (2L/sec)

Overflow test

The part that acts as a safety valve in the discharge mechanism is the overflow pipe. This pipe is tested over and over again at different pressures, with incoming water at different intervals.

Weight test

Cisterns used with wall-mounted WC pans should support not only the user but also the force exerted by the person. Built-in cisterns are specially designed in laboratories and tested up to 500kg.

Function test

All products undergo functionality testing at VitrA production facilities and all functions are checked.

Life test

One of the most important measure of quality is longevity. VitrA Concealed Cistern products undergo world-class life tests. No part should stop performing even after 200,000 consecutive uses.

VitrA V-Fix Concealed Cisterns

Perfect for bathroom design, ideal for quick and easy installation

With engineering behind, VitrA V-Fix are perfect products with their well-thought-out features that guarantee fault-free operation following many years of continuous improvement.

Highlights

- Statically self-supporting and durable up to 500 kg.
- Assembly options to dry and brick wall.
- Available for wall-mounted, back-to-wall, single WCs and also for squatting pans.
- 2.5/4 L and 3/6 L flushing options.
- Complies with sound insulation st

Flush Plate cover
For marking dry-wall easily without measuring cut points.

Marking
Marks 100 cm

Flush valve
Easily to set flush volume from 2.5 / 4 L to 3 / 6 L

V-stopper
With drywall marking point to easy installation

Turnable feet

Wall fixations
Fixing components are included.

Angle valve
Water flow with zero leakage

Fill valve and flex house
Silent filling

Electric conduit and junction box
Opportunity to renovate WC pan and flush plate to electrical product without breaking the wall.

Clamp
Easy installation

Eccentric adapter
By attaching the eccentric adapter to the clamp, it is possible to exit to the rear.

VitrA V-Fix Concealed Cisterns

Simply unpack and install

With cisterns of different depths and heights, for easy and quick assembly done in a faultless way. In every depth, there is a suite of options for different wall and WC types. The modules can be installed in homes as well as the commercial hotel or healthcare sector.

Brick wall modules

VitrA V-Fix V8, V12 concealed cisterns - the module for pre-wall brick wall assembly.

Drywall modules

Pre-assembled sanitary installations for assembly in cavity wall systems, in metal or wooden stud walls, or free-standing in front of the wall.

Highlights

- Available for installation to brick or dry walls.
- Available in versions for V-Fix Prime cisterns with 12 cm and 8 cm thicknesses.
- Cisterns full pre-assembled and sealed.
- Lower installation height options of 82 cm and 98 cm in VitrA VUni cisterns.
- Available for wall-mounted, back-to-wall, single WCs and also for squatting pans.
- Metal construction frames are also available for washbasins, urinals and bidets

Modules for every situation

VitrA V-Fix offer technological solutions for different requirements. Here are our most popular models:

V-Fix 8 & 12 cm

Concealed cistern WC frame for wall-mounted WC pans, with shower toilet conduits, wall and floor fitting.

V-Fix 8 & 12 cm

Concealed cistern WC frame for wall-mounted WC pans, with shower toilet conduit, floor fitting.

V-Fix 8 & 12 cm

Concealed cistern WC frame for wall-mounted WC pans, floor fitting.

V-Fix 8 & 12 cm

Back to back concealed cistern WC frame for wall-mounted WC pans, floor fitting.

VUni

Concealed cistern WC frame for wall-mounted WC pans, in 82cm and 98cm height options.

V-Fix 8 & 12 cm

Concealed cistern for wall-mounted WC pans, adjustable thick metal brackets

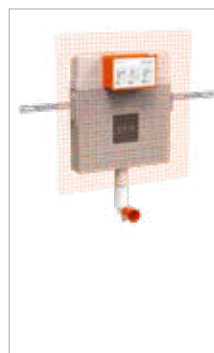

V-Fix 8 & 12 cm

Concealed cistern for wall-mounted WC pans, without metal brackets.

V-Fix 8 & 12 cm

Concealed cistern for wall-mounted WC pans, adjustable thin metal brackets.

V-Fix 8 & 12 cm

Concealed cistern for floor standing back-to-wall and child WC pans.

V-Fix 8 & 12 cm

Concealed Cistern for squatting pans

VitrA V-Fix Concealed Cisterns

Upgraded VitrA V-Fix for easy, quick and fault-free assembly

VitrA Concealed Cistern assembly is now easier and quicker with the latest innovations. Besides reducing installation times, building on VitrA engineering knowledge, VitrA V-Fix offer installers problem-free installation. Save time and money by spending less time on installation.

Wall connection fixing set

Quick assembly to the wall, with sensitive front depth and wall adjustment.

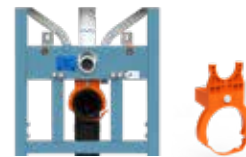

Height positioning markers

100 mm and 32 mm height stickers that provide accurate and easy cistern and WC installations without any need for measurement.

Reference markers

Marking drywall for quick installation by reference points on V stopper and protection box.

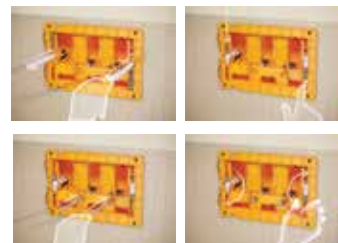

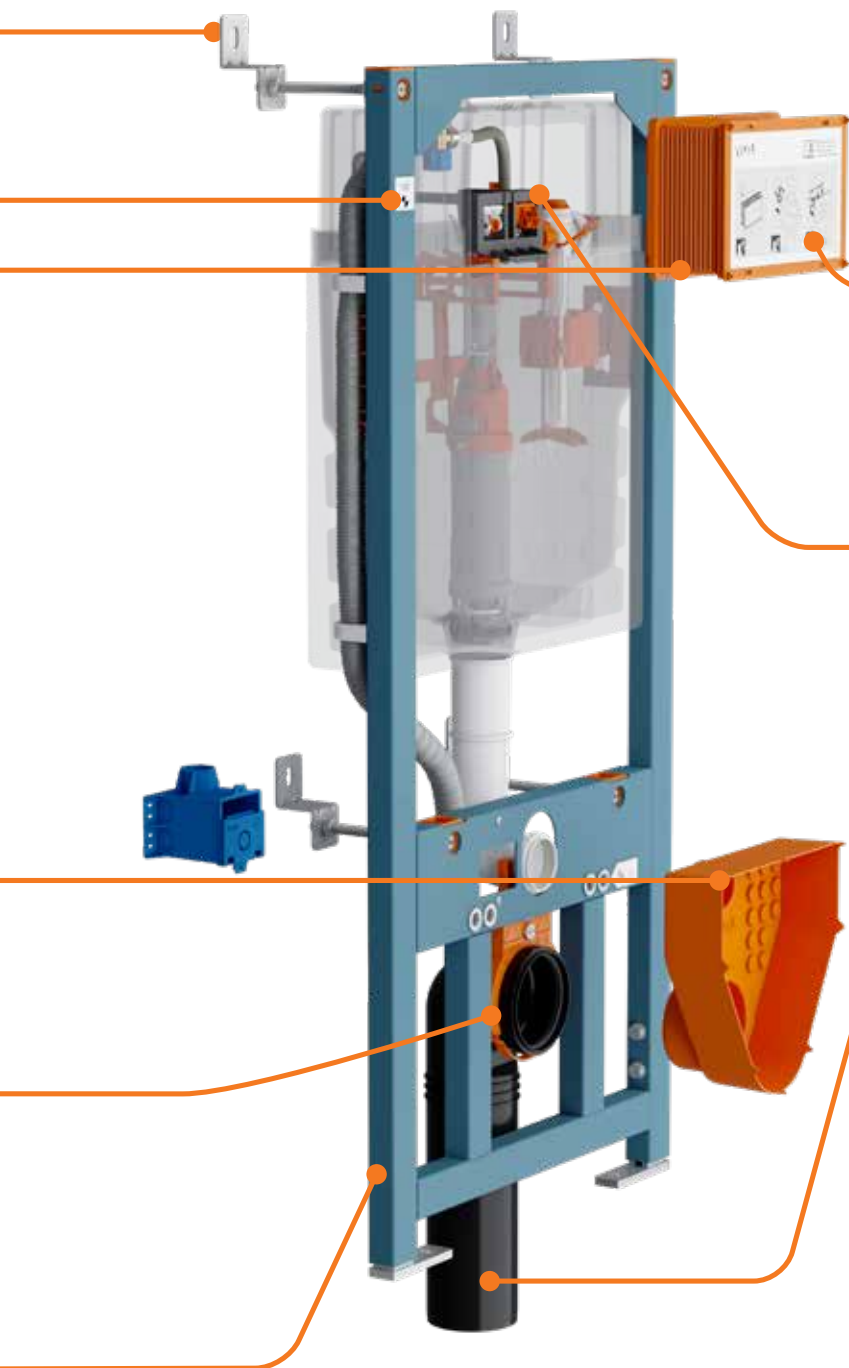

Adjustable clamp

Preventing incorrect assembly and giving a more durable installation via fitting clean water pipe.

Adjustable floor fitting

Adjust height easily and precisely, done by just one person.

Faster than ever flush plate installation

With easy fit, the flush plate can be installed in one go. Without adjustment or remeasuring, simply insert and lock in place. Insert the screws, push them through and tighten them with just a few turns.

Tool-free flex

Manual installation of flex with no need for tools. The O-ring inside the flex ensures it is leak proof.

Easy waste pipe assembly

Providing easy installation regardless of the distance between the drainage pipe and the concealed cistern.

Thanks to the levels on waste pipe, fixing clamp and adapter, the waste pipe can be moved 80 mm in total

By attaching the adapter to the clamp, it is possible to pull through to the back.

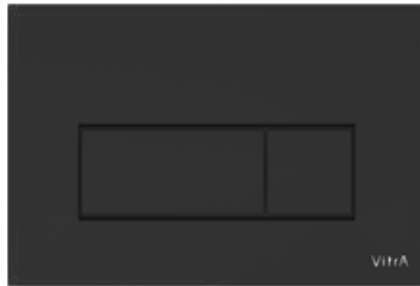

With the adapter provided, 10 mm of movement is provided forward and backward in the pipe axis.

Green building certification

These products fulfill Green building certification (LEED, BREEAM and DGNB) criteria with their environmentally-friendly features including lower environmental footprint, water, conservation and the use of local materials, as well as life cycle assessment (LCA), environmental product declaration (EPD) and sustainable forestry (FSC), certificates. They are recommended for projects aiming for a Green building certification.

Water saving

Developed by VitrA with special bowl structures and low-flow internal mechanisms, the 2,5/4 L water conserving WC pan provide efficient flushing with less water and are certified for lowest water consumption by EU standards. When used together with VitrA concealed cisterns, these WC pan can reduce water consumption by up to 70 %.

Special needs

VitrA bathroom products designed to accommodate seniors and people with special needs are wheelchair accessible and provide enhanced convenience in the bathroom.

VitrA Touch-free

Controlled by a built-in sensor, the VitrA Touch-free Technology ensures hygiene in bathrooms by providing to control products touch-free, thus reducing the risk of cross contamination of pathogens.

VitrA Rim-ex

The smoothly attractive rimless WC pan Rim-ex prevents germ proliferation and offers superior hygiene thanks to its innovative design. Tests show Rim-ex is 95% more hygienic as compared to standard WC pans.

VitrA SmoothFlush

VitrA SmoothFlush WC pans have no rims or openings that might harbour harmful bacteria or microorganisms. This makes VitrA SmoothFlush WC pans much easier to clean and offer maximum hygiene.

Easy installation

Easy and quick installation with innovative applications.

Quick release WC seat

The screw-free fitting of the Quick Release VitrA WC Seat makes it easy to remove and refit after cleaning.

Soft-close seat

Special hinge for silent and soft closing.

VitrA Clean

Limescale is persistent in most bathrooms. VitrA Clean technology is a special double-glazing process that makes washbasins, WC pans and bidets water repellent. No harsh chemical cleaning agents are needed to keep them beautifully stain-free for years.

%100 recycled

It is a ceramic product consisting of 100% waste raw materials by utilizing all the waste generated during the production of ceramic sanitary ware. It is a patented technology.

VitrA QuantumFlush

A brand new technology from VitrA: QuantumFlush

 **%120**
The perfect cleaning technology

At the rear of the QuantumFlush is a strong momentum manifold with 3 outlets designed using the laminar flow principle. This engineering solution converts the turbulent flow of water in the manifold into laminar flow. This prevents energy loss by allowing the water to flow smoothly inside the toilet bowl. The energy of the water is maintained so that it reaches every point and cleans the bowl in the best possible way.

Sanitaryware & Complementary products

 **2x**
Powerful yet splash free

In current flushing systems, water particles collide in the bowl due to irregular flow, resulting in splashing and the spread of bioaerosols in the bathroom environment. QuantumFlush, on the other hand, provides a cleaning power that not only exceeds the norm, it also prevents water from splashing and provides a hygienic toilet experience.

 **2x**
Powerful yet silent

QuantuFlush utilises the power of water in the most efficient and quiet way. Due to the characteristics of laminar flow, it reduces the turbulent kinetic energy of the water and prevents the noise caused by the chaotic collisions of the water that is flushed. This allows QuantumFlusn to provide a much quieter flush than standard toilets.

Certified by Quiet Mark 

VitrA Rim-ex

Rimless WC that leaves no room for dirt

Sanitaryware & Complementary products

The VitrA Rim-ex system flushes every part of the VitrA wall-hung WC bowl, leaving bacteria nowhere to hide. Free of the channels that can harbour harmful bacteria and microorganisms, the VitrA Rim-ex toilet is easier to clean and 95% more hygienic than standard pans. The triple-nozzle diverter and the smooth curvature of the bowl give a thorough and 25% more hygienic flush each time.

Channel-free WC bowl

Standard WC bowl with a channel

VitrA Hygiene

Ion-rich technology that inhibits the growth of harmful bacteria

VitrA Hygiene, which coats all VitrA ceramicware, inhibits the growth of harmful bacteria by 99.9%. By disrupting the cellular structure of bacteria that cling to the surface during use, this proprietary glaze prevents them from proliferating into a colony.

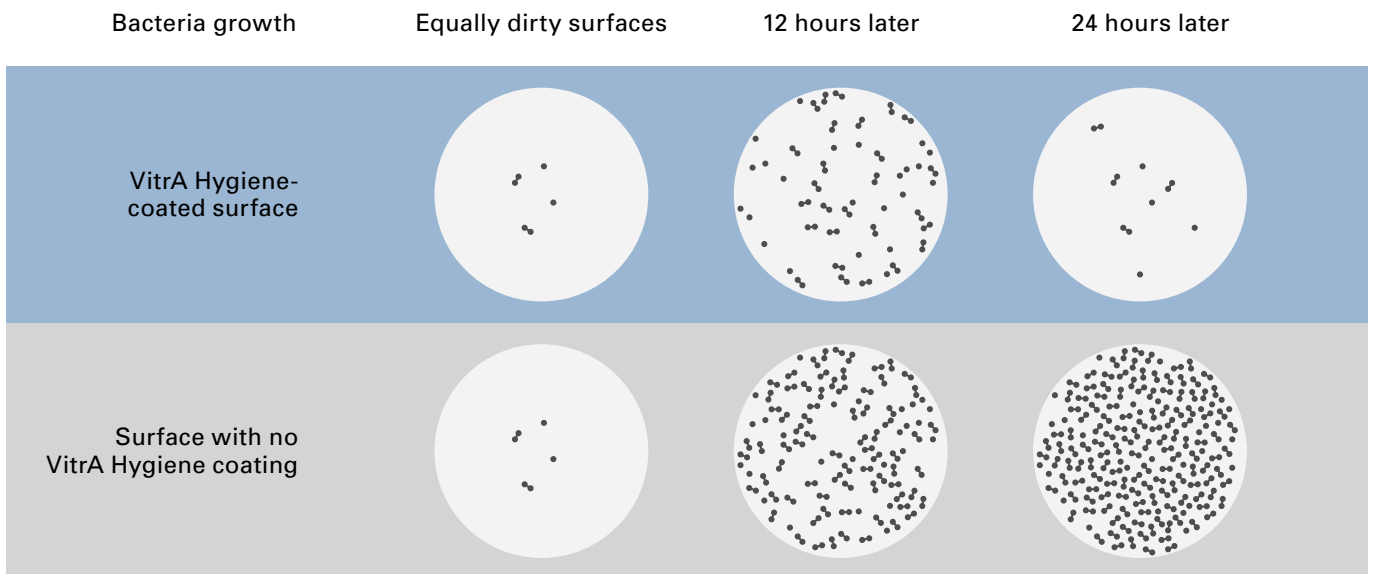

Tests in accordance with the national and universal ISO 22196, JIS Z 2801, ASTM E 3031-15, and TSE 13420 protocols have verified the efficacy of VitrA Hygiene against gram negative (*Escherichia coli*) and gram positive (*Staphylococcus aureus*) strains.

The VitrA Hygiene glaze coats all external and internal surfaces prior to firing in a process for VitrA ceramic sanitaryware even under the most intense usage conditions.

Fewer chemicals and better hygiene with VitrA Hygiene

Sanitaryware & Complementary products

VitrA Clean

Surface that repels dirt and dirty water

Sanitaryware & Complementary products

VitrA Clean has hydrophobic finish over the entire ceramic surface, which repels dirt and dirty water and simplifies cleaning without the need for aggressive agents. VitrA Clean causes water to form droplets that slide down the sloping ceramic surface. As they are pulled down by gravity, these globules carry away any clinging dirt, thereby cleaning the surface.

Developed by the Vitra innovation team and constituting of long chains of molecules, VitrA Clean is suitable for all ceramicware surfaces such as washbasins, WC bowls and bidets in any colour or specification. VitrA Clean's protection lasts for the lifetime of the ceramicware under even the most intense use conditions.

VitrA Seat Technologies

Comfortable and hygienic seat technologies

1- Extra hygienic seat

Thanks to its non-porous structure, Duroplast does not absorb chemicals and stops the growth of bacteria. For this reason, it is more hygienic and durable than plastic seats.

2- Easy-to-clean seat and lid

The screw-free fitting of the Quick Release Vitra WC Seat makes it easy to remove and refit after cleaning.

3- Soft-closing lid

Thanks to the special hinge, the seat closes slowly and silently, ensuring safe use.

Liquid

Designed by Tom Dixon

Creativity in ceramics

Extending sculptural ceramics beyond the traditional realms of basins and sanitaryware, the collection includes the unusual feature of a rotund moulded ceramic stool – for use in the shower or anywhere else in the home.

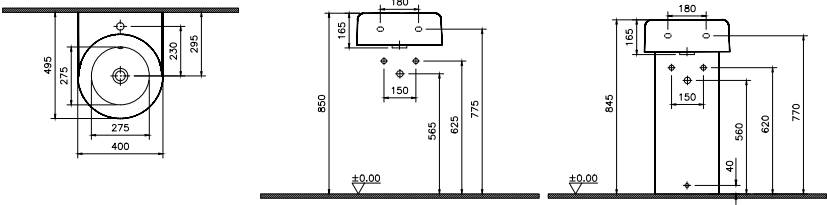

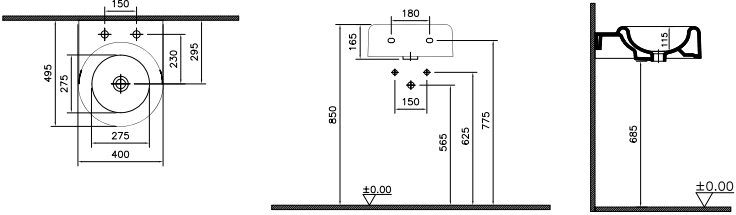

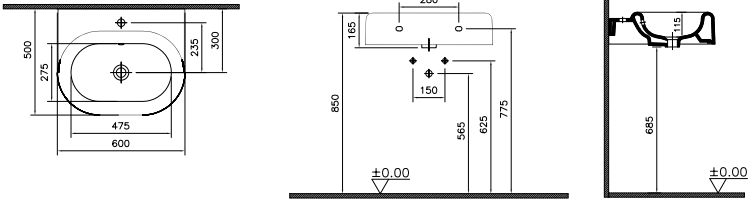

Liquid's washbasins span an expressive range from discrete inset solutions to wall-hung, countertop and freestanding options.

Memoria

Designed by Christophe Pillet

Modern luxury

Memoria washbasins introduce a whole new look in the bathroom with their sharply delineated outlines, exquisitely slender forms, and smooth and glossy surfaces.

Memoria

Stunning washbasin and WC pan designs in a variety of colours available with polished or matt glazing are among the pieces that add distinction to Memoria Black.

- A range of colours available with polished or matt glazing.
- Faucet islands in the basins increasing wet space functionality.
- Comfortably wide and ergonomic washbasins and Rim-ex WC pans.

Istanbul

Designed by Ross Lovegrove

Excellent combination of fluent forms and fine lines

Ross Lovegrove has created a new bathroom for the Istanbul series with a sophisticated approach inspired by nature. The bathroom's outstanding combination of fluent and sculptural forms with fine lines testifies to VitrA's mastership of production technology as well as Lovegrove's unique approach to technology and materials.

With their innovative forms and alluring lines, the ceramic units and auxiliaries of this new bathroom suite further enhances the fabulous ambiance of the series and creates a whole new user experience.

Elegant pieces achieve an impressive harmony with the fine lines of the Istanbul series. New generation washbasins with metal pedestal and countertop options feature minimalist, yet striking, details. Moreover, the compact form and unique design of the new generation urinal add pure stylishness to the series, especially with their concealed installation option.

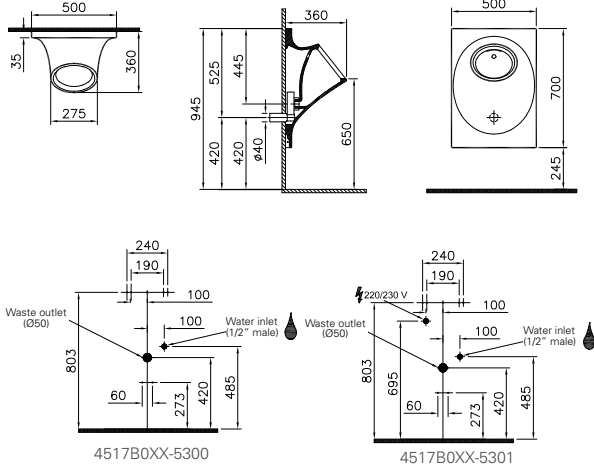

Istanbul by Covegrove.

Plural

Designed by Terri Pecora

Shared intimacy

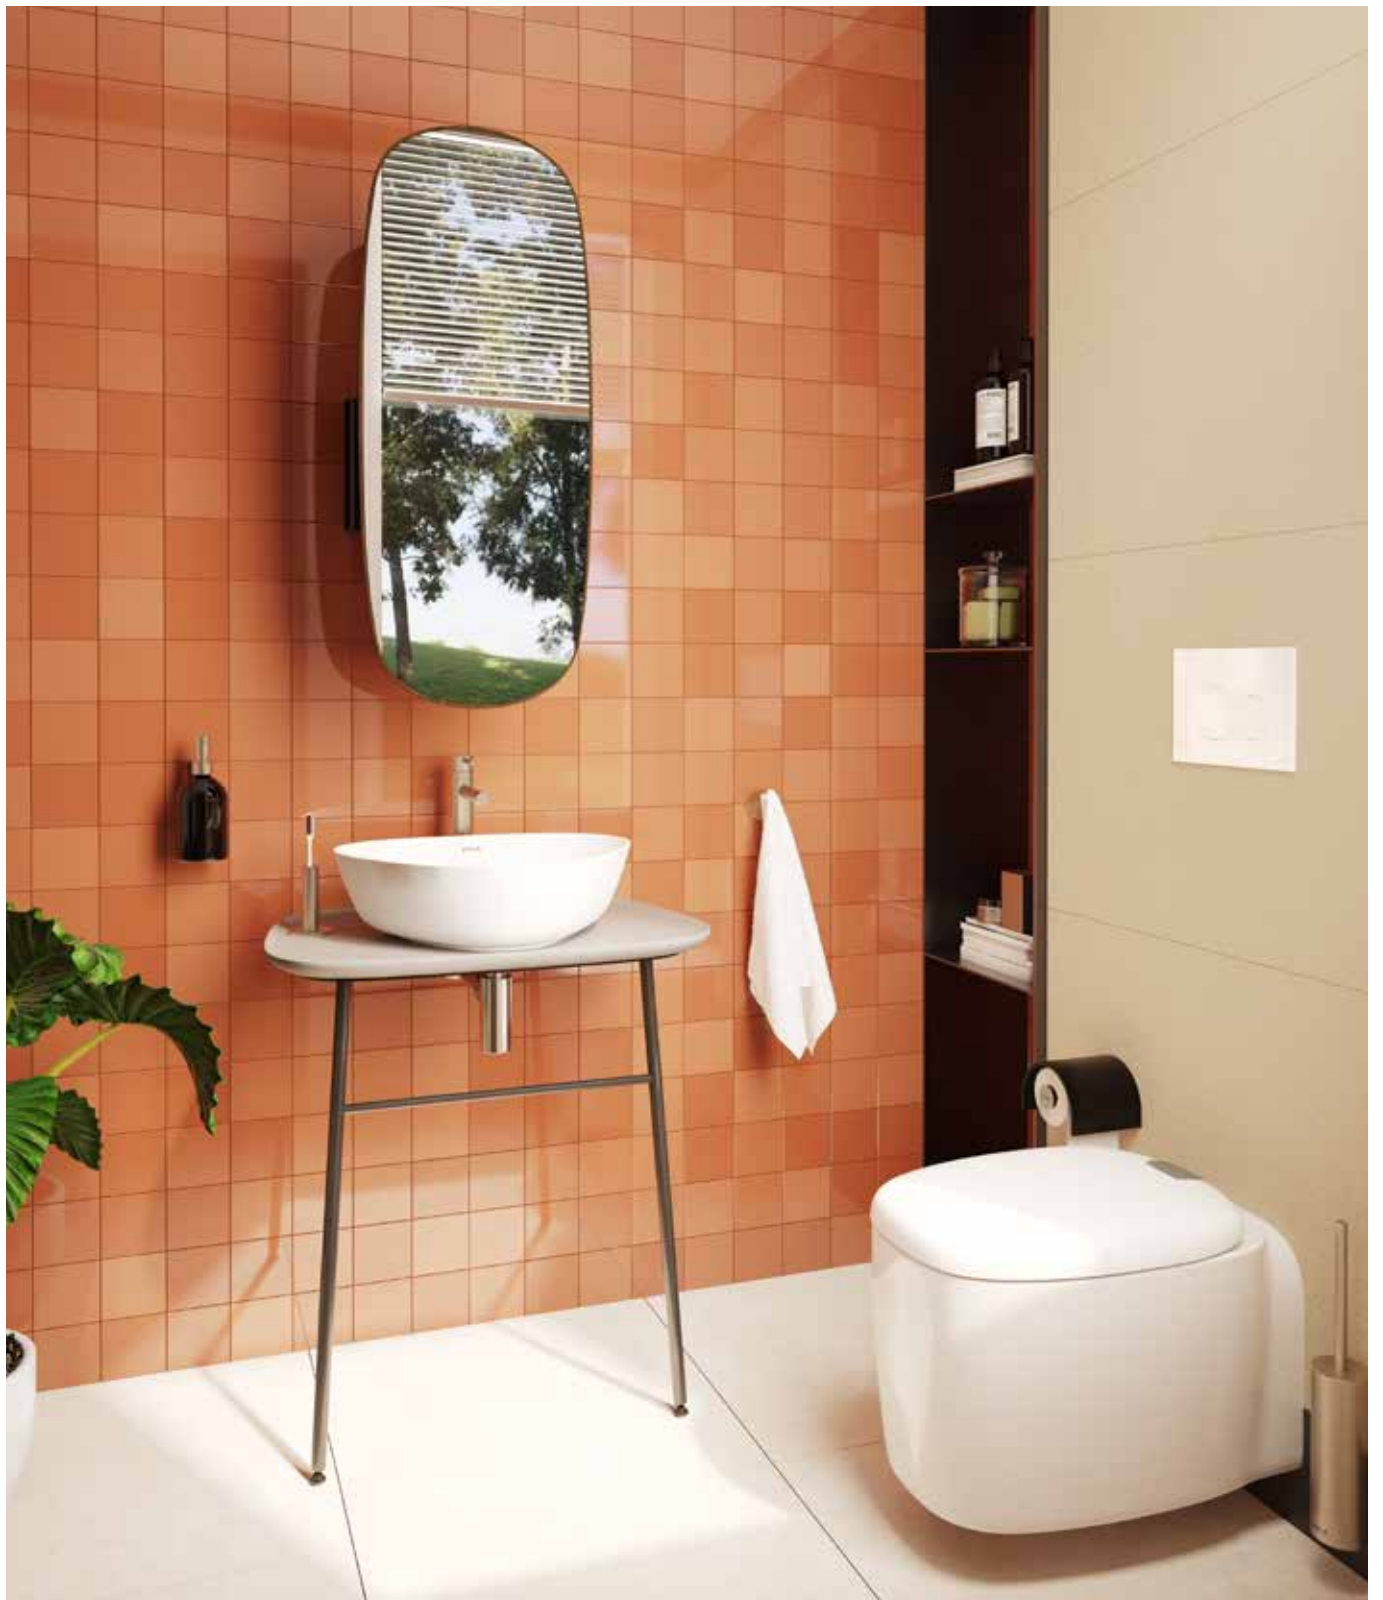

Designed by Terri Pecora in collaboration with Design Studio Vitra, Plural offers the feeling of a vintage living room, inspired by the iconic mid-twentieth century look. Light and airy furniture are creatively embedded into the bathroom environment, introducing a welcoming domestic space where users can share time with others.

Plural's refined design language creates an atmosphere of sensual luxury. With an aesthetic mix and match of forms, finishes and colours, it brings objects and people together in a delightfully harmonious bathroom environment.

Outline

Ceramic virtuosity

A simple design shaped with round lines presents an attractive bathroom feature. Outline washbasins created with durable cerafine material offer exciting design freedom. Modern, authentic and charming, Outline washbasins come in 5 different forms: TV, oval, square, pebble and round, and in 5 colours: matt black, matt stone grey, matt taupe, matt white, and white.

Distinctive design and durable material.

Bringing a fresh new look to basin design, the Outline range is made from cerafine ceramic with the Vitra Clean glazed offers a choice of both new shapes and finishes.

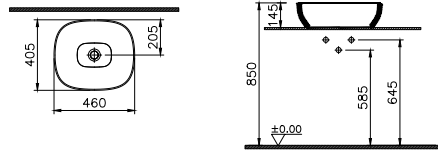

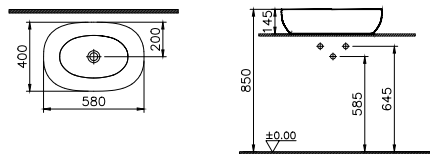

Modern, authentic and charming, Outline washbasins come in 5 different forms – TV, oval, square, pebble and round, and in 5 colours – matt black, matt stone grey, matt taupe, matt white, and white.

Equal

Designed by Claudio Bellini

Brave simplicity

Designed by Claudio Bellini in collaboration with Design Studio Vitra, Equal truly offers a bathroom with character. Simplicity must be treated as the outcome of a brave sophistication, and as a design approach, it is the human shortcut to creating equilibrium within the clutter of an urban environment. This is the balance Equal creates by welcoming diverse needs and desires.

Frame

Clear thinking revealed

A new expression of the modern bathroom that perfects both the performance of each function and the visual appearance. The result is the enrichment of the expressive potential of the bathroom, enabling personalization and the creation of a deeply satisfying space.

Authentic design and functionality are connected in one collection. All the well-thought details that make the Frame unique are at the forefront. With a colour chart collection composed of black, white-oak, beige and a modern design language of thin edges and sleek lines, this enables users to express their style in the bathroom area.

Frame

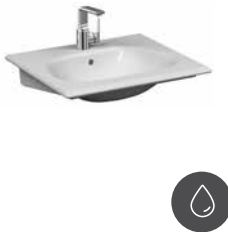

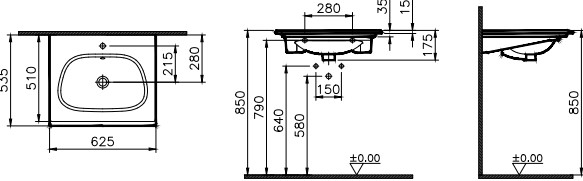

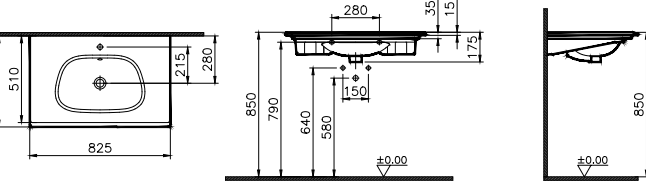

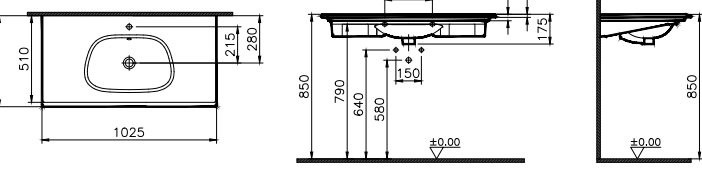

Geometric minimalism

The innovative and modern design of Frame gives a striking new look to the washbasin collection. Frame countertop washbasins stand out with their geometric form and fine design.

Product / Code	Description	EXW EURO / pcs
Rim-ex wall-hung WC pan, 56 cm		
7672BX03-1684	With bidet function, with standard cartridge integrated stop valve (on left)	732
7672BX03-1687	With bidet function, with standard cartridge integrated stop valve (on left), with VitrA Fresh liquid cleaner tank	858
	Standard cartridge integrated stop valve, (mixes hot and cold water for bidet function). For best user experience temperature of the water should be arranged via valve handle. To prevent dangerous surges of heat due to instant hot water, it is highly advised to process water while handle is in middle (mix) position. If you have heating system that work with gas (combi boiler, flash heater etc.), low flow rate of bidet water might prevent the system to heat and result in late arrival of hot water. It is advised to use thermostatic cartridge integrated stop valve if you have central or electrical heating system.	
		
7672BX03-7211	With bidet function, with thermostatic cartridge integrated stop valve (on left)	858
7672BX03-7212	With bidet function, with thermostatic cartridge integrated stop valve (on left), with VitrA Fresh liquid cleaner tank	955
	Thermostatic cartridge integrated stop valve (mixes hot and cold water for bidet function) For best user experience temperature of the water fixes at maximum 38 degrees. If you have heating system that work with gas (combi boiler, flash heater etc.), low flow rate of bidet water might prevent the system to heat and result in late arrival of hot water. It is advised to use thermostatic cartridge integrated stop valve if you have central or electrical heating system.

Nest Trendy / Nest

Designed by Pentagon Design

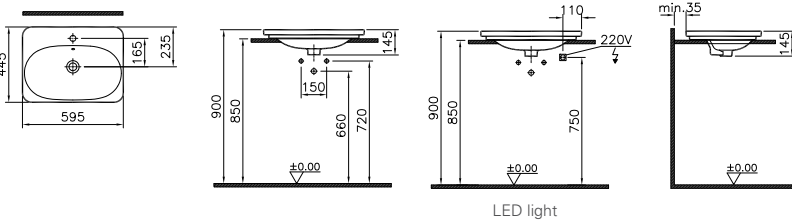

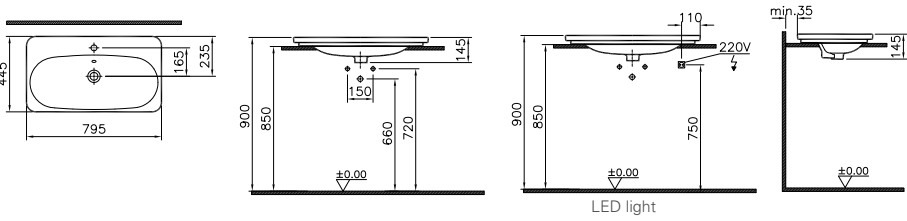

The Nest generation

Nest represents high-quality design which is available to everyone in their bathroom regardless of bathroom size. With a wide range of functional products designed along new generation modularity, Nest serves the needs of every member of the family. Ergonomic features transform a bathroom to a pleasurable space. Nest yields practical solutions that offer family sized comfort. Lines are pure and soothing, solutions “considerate” and “attentive” to real needs.

A wide choice of washbasin

The vanity basins stand out as being visually distinctive, offering an efficient space solution. The washbasin units with a double-mixer in one basin offer ideal solutions for communal areas or for larger families, again saving space.

Built with precision and simplicity, the washbasins with a metal pedestal meet the needs of various spaces without compromising on style.

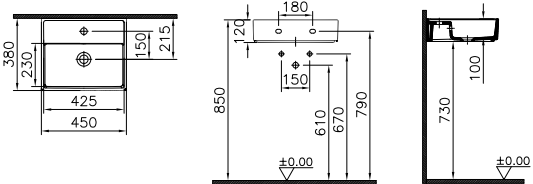

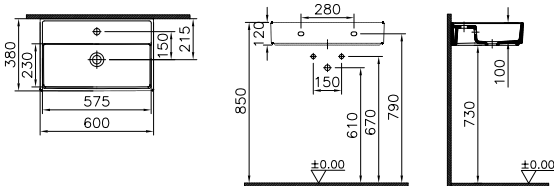

With four different sizes (45 cm, 60 cm, 90 cm and 120 cm) and options with or without drawers, they offer a wide range of stylish choices for both small and large spaces.

Sento

Common sense, uncommon bathroom

The stunning design of Sento Collection is both charming and practical, meeting the individual needs of each bathroom. Sento's various modules present diverse and exclusive solutions for every bathroom to make them cozier and tidier.

The collection offers various colours and forms for different tastes and preferences. Both mirror cabinets and standard mirrors offer an LED illumination feature.

Sento

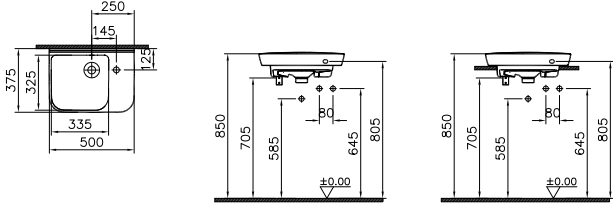

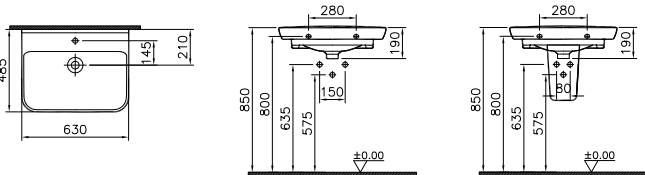

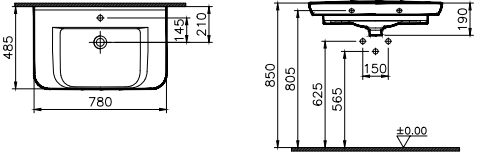

Slim WC seats and Slim cistern lids are just two of the innovations offered by Sento WC pans. The Sento WC pan's soft and pure lines create a precise and elegant harmony with whole series and especially with Sento washbasins.

Nuo

Natural simplicity

Nuo washbasins have elegant, functional and minimalist lines. All Nuo washbasins have been redesigned for a more modern look and provide precisely the right combination of depth, shape and inclination to promote the maximum flow of water to the waste area. This prevents build-up of residue on the bowl surface making it easier to keep clean.

VitrA Clean

Washbasin, WC pan, bidet

Surface that repels dirt and dirty water

VitrA Clean has hydrophobic finish over the entire ceramic surface, which repels dirt and dirty water and simplifies cleaning without the need for aggressive agents. VitrA Clean causes water to form droplets that slide down the sloping ceramic surface. As they are pulled down by gravity, these globules carry away any clinging dirt, thereby cleaning the surface.

Developed by the VitrA innovation team and constituting of long chains of molecules, VitrA Clean is suitable for all ceramicware surfaces such as washbasins, WC bowls and bidets in any colour or specification. VitrA Clean's protection lasts for the of the ceramicware under even the most intense use conditions.

Faucets and shower systems icon guide

Unified Water Label

Unified Water Label indicates the water consumption level of faucets. Class A rating means maximum water saving with the same high level of comfort.

Green building certification

These products fulfill Green Building Certification (LEED, BREEAM and DGNB) criteria with their environmentally-friendly features including lower environmental footprint, water, conservation and the use of local materials, as well as life cycle assessment (LCA), environmental product declaration (EPD) and sustainable forestry (FSC), certificates. They are recommended for projects aiming for a Green Building Certification.

Water conservation

Maximum comfort is ensured with minimum amount of water thanks to the special system used for faucets.

Energy conservation

The grey band on the cartridge can be used to set an upper limit on water temperature, saving energy by avoiding unnecessary heating.

BluEco

With the cartridge that moves to the left at 90 degrees, it saves energy by supplying cold water instead of warm water when the faucet is turned on in the mid-position.

FlowControl

Water saving control function that ensures intentional increase to the high flow.

V-Pure

It ensures the water flows clean and pure.

LowLead

Thanks to the enhanced technology, the level of nickel and lead are at the minimum level.

V-Bright

It offers a rich variety of matt and bright colors thanks to its PVD and wet coating technology.

Faucets and shower systems icon guide

BrightLight

Thanks to its bright chrome finish that is resistant to tarnish and corrosion, it shines like the first day.

SmoothMove

Easy and comfortable use for years thanks to its sensitive and soft on-off feature.

Vitra Touch-free

Controlled by a built-in sensor, the Vitra Touch-free Basin Mixer improves hygiene in public toilets and reduces the risk of pathogen cross-contamination. The sensor detects the user and contributes to water saving by stopping the flow as soon as the user moves away from the detection area.

V-Superfix

It provides easy and error-free installation in 15 seconds, without the need for tools with manually adjustable part.

Easy maintenance

Easy maintenance for the check valve with no need to remove the body.

Practical installation

Ease of manual installation, without requiring any tools.

Easy Installation

Easy and quick installation with innovative applications.

Adjustable installation

It can tolerate installation errors of up to 7 degrees.

Multi-Fit

It offers the freedom to choose from a variety of alternatives with its multi-fit feature.

Brick fit

It allows for mounting on brick walls with a minimum depth of 77 mm.

Faucets and shower systems icon guide

Leak proof

It offers safe usage with its leak-proof cover.

Blind sight

The active button bulges out slightly while taking shower. So, you can easily find the AquaControl's button diverter even when your eyes closed.

SinkComfort

The height of the kitchen mixers facilitates the cleaning and filling of large pots and pans.

ForwardLever

The forward rotation feature does not allow the mixer lever to move backwards, therefore making it easier to use when mounted close to the wall and in small spaces.

FreeSwing

The body of the mixer provides comfortable usage with its 360-degree rotation feature.

ProSpray

Kitchen mixers provide free use in the desired direction around the sink, thanks to their 360-degree rotation feature. The smooth switch between dual flow functions allows changing easily from a normal flow to spray jet flow.

Pull-out Duo Spray

The cool touch spray head of the kitchen mixer is pulled out easily and extends workspace around the sink by providing comfortable use. The double flow function provides customized washing with normal and spray flow options.

Pull-down Duo Spray

The cool touch spray head of the kitchen mixer is pulled down easily and extends workspace around the sink by providing comfortable use. The double flow function provides customized washing with normal and spray flow options.

SafeTouch

Internal body design creates an isolation layer between the warm water and body that prevents the contact of warm water to body. In this way, body surface is never too hot to touch.

Faucets and shower systems icon guide

SafeTemp

Protection against scalding by providing a deliberate/safe switch to temperatures above 38 degrees.

Constant temperature

AquaHeat Thermostatic faucets ensures always the right temperature, for utmost convenience and safety.

UniConnect

The universal connection feature means it's compatible with all hand showers.

No limescale silicon nozzles

The specially designed silicon aerator discharges any lime build-up at the spout with a single touch.

DurableHose

Using advanced technology, the shower hoses are resistant to high temperature, pressure and weight.

AntiTangle

The one-piece Chromatech shower hose has a smooth surface, which prevents water leaks due to breakage and bending, whilst being easy to clean and tangle-free.

EasyClean

One-piece shower hose is easy to clean and tangle-free thanks to its smooth surface.

Comfort control

Direct water to the desired outlet with the button marked.

Height modification

An individual adaptation according to the user height and space of the shower enclosure is possible easily.

Faucets and shower systems icon guide

Aqua Massage

Intense shower flow with massage function that reduces your tension and relaxes your body

Aquarain

Produces the ideal rainfall for a quick and refreshing start to your day.

Aquarain XL

Invigorating rainfall from the larger surface area ensures complete and consistent cover for your whole body.

Aquasoft

Thanks to its special technology AquaSoft Shower Flow relaxes you with its calmness that purifies both your body and soul.

Aquaspray

Thanks to its special technology, the water drops are more voluminous and soft.

Aqua Air Drop

Thanks to its special technology, the water drops are more voluminous and soft.

Aquastream

A soft flow of pure water from the shower head's centre, like a fresh spring falling, reduces stress.

Aquamist

A revitalizing misty flow glides gently over your skin for a relaxing feeling.

Waterfall

Feel the revitalizing effects of water cascading down on you like a waterfall.

AquaTech icon guide

Constant temperature

AquaHeat Thermostatic faucets ensures always the right temperature, for utmost convenience and safety.

SafeTemp

Protection against scalding by providing a deliberate/safe switch to temperatures above 38 degrees.

SafeTouch

Internal body design creates an isolation layer between the warm water and body that prevents the contact of warm water to body. In this way, body surface is never too hot to touch.

FlowControl

Water saving control function that ensures intentional increase to the high flow.

AntiTangle

The one-piece Chromatech shower hose has a smooth surface, which prevents water leaks due to breakage and bending, whilst being easy to clean and tangle-free.

UniConnect

The universal connection feature means it's compatible with all hand showers.

DurableHose

Using advanced technology, the shower hoses are resistant to high temperature, pressure and weight.

EasyClean

One-piece shower hose is easy to clean and tangle-free thanks to its smooth surface.

AquaHeat Thermostatic

Thermostatic bathtub and shower mixers save water by eliminating the need to adjust hot and cold water until the desired temperature is achieved, maintaining a reliable outlet temperature to prevent scalding.

Constant temperature

AquaHeat Thermostatic faucets ensures always the right temperature, for utmost convenience and safety. Safety lock projects against scalding by stopping the water flow at 38°C. After setting the desired water temperature the continuous flow of water will be the exact temperate even after switching on and off.

Safe touch

Its special design ensures that the surface of the faucet is always kept at a safe temperature. The safety measure is specifically designed to protect children.

Flow control

When using Thermostatic shower system, the water starts with low water flow. If increased water flow is requested, a gradual use can be obtained by pressing the control button.

Faucets & Shower systems

• 10 year warranty is offered for chrome coated faucets and 5 year for coloured faucets and accessories excluding touch-free controlled (AquaSee), SST electronic and Perfect Time (AquaTouch) mixers.
 • 2 years warranty is offered for touch-free controlled (AquaSee), SST electronic and Perfect Time (AquaTouch) mixers.
 • Refer to pages 876-893 for compatibility table of faucets with washbasins.

V-Box

DVGW-approved V-Box complies with all international standards.

V-Box

V-Box icon guide

Adjustable installation

It can tolerate installation errors of up to 7 degrees.

Blind sight

The active button bulges out slightly while taking shower. So, you can easily find the AquaControl's button diverter even when your eyes closed.

Multi-Fit

It offers the freedom to choose from a variety of alternatives with its multi-fit feature.

Brick fit

It allows for mounting on brick walls with a minimum depth of 77 mm.

Leak proof

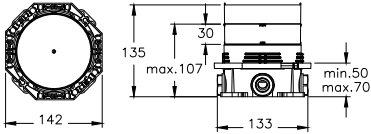

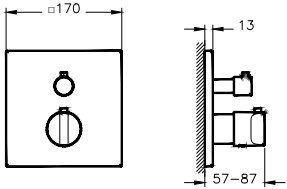

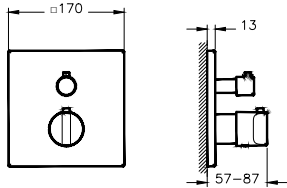

It offers safe usage with its leak-proof cover.

Easy maintenance

Easy maintenance for the check valve with no need to remove the body.

Kitchen sink mixers icon guide

Unified Water Label

Unified Water Label indicates the water consumption level of faucets. Class A rating means maximum water saving with the same high level of comfort.

Green building certification

These products fulfill Green Building Certification (LEED, BREEAM and DGNB) criteria with their environmentally-friendly features including lower environmental footprint, water, conservation and the use of local materials, as well as life cycle assessment (LCA), environmental product declaration (EPD) and sustainable forestry (FSC), certificates. They are recommended for projects aiming for a Green Building Certification.

BrightLight

Thanks to its bright chrome finish that is resistant to tarnish and corrosion, it shines like the first day.

Energy conservation

The grey band on the cartridge can be used to set an upper limit on water temperature, saving energy by avoiding unnecessary heating.

Water conservation

Maximum comfort is ensured with minimum amount of water thanks to the special system used for faucets.

ProSpray

Kitchen mixers provide free use in the desired direction around the sink, thanks to their 360-degree rotation feature. The smooth switch between dual flow functions allows changing easily from a normal flow to spray jet flow.

Pull-out Duo Spray

The cool touch spray head of the kitchen mixer is pulled out easily and extends workspace around the sink by providing comfortable use. The double flow function provides customized washing with normal and spray flow options.

Pull-down Duo Spray

The cool touch spray head of the kitchen mixer is pulled down easily and extends workspace around the sink by providing comfortable use. The double flow function provides customized washing with normal and spray flow options.

SinkComfort

The height of the kitchen mixers facilitates the cleaning and filling of large pots and pans.

Kitchen sink mixers icon guide

ForwardLever

The forward rotation feature does not allow the mixer lever to move backwards, therefore making it easier to use when mounted close to the wall and in small spaces.

FreeSwing

The body of the mixer provides comfortable usage with its 360-degree rotation feature.

Practical installation

Ease of manual installation, without requiring any tools.

LowLead

Thanks to the enhanced technology, the level of nickel and lead are at the minimum level.

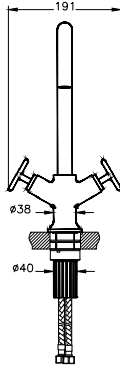

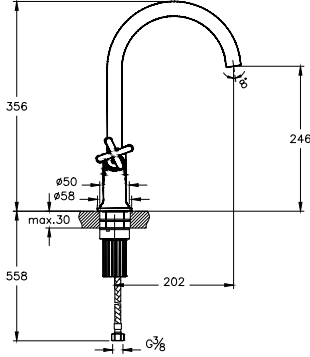

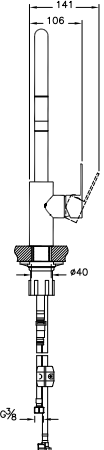

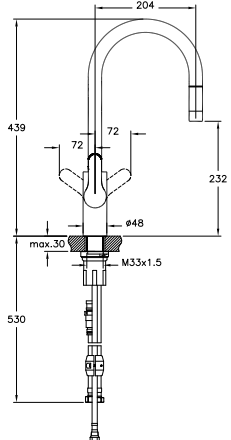

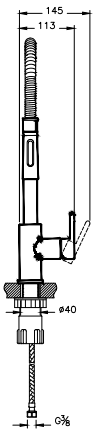

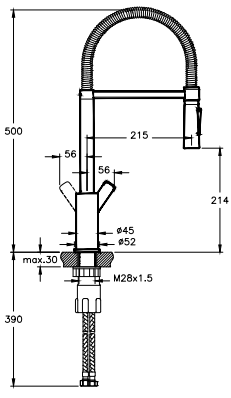

Masterline

Idealine

Shower systems icon guide

Unified Water Label

Unified Water Label indicates the water consumption level of faucets. Class A rating means maximum water saving with the same high level of comfort.

Green building certification

These products fulfill Green Building Certification (LEED, BREEAM and DGNB) criteria with their environmentally-friendly features including lower environmental footprint, water, conservation and the use of local materials, as well as life cycle assessment (LCA), environmental product declaration (EPD) and sustainable forestry (FSC), certificates. They are recommended for projects aiming for a Green Building Certification.

Water conservation

Maximum comfort is ensured with minimum amount of water thanks to the special system used for faucets.

SafeTouch

Internal body design creates an isolation layer between the warm water and body that prevents the contact of warm water to body. In this way, body surface is never too hot to touch.

SafeTemp

Protection against scalding by providing a deliberate/safe switch to temperatures above 38 degrees.

Constant temperature

AquaHeat Thermostatic faucets ensures always the right temperature, for utmost convenience and safety.

UniConnect

The universal connection feature means it's compatible with all hand showers.

No limescale silicon nozzles

The specially designed silicon aerator discharges any lime build-up at the spout with a single touch.

DurableHose

Using advanced technology, the shower hoses are resistant to high temperature, pressure and weight.

AntiTangle

The one-piece Chromatech shower hose has a smooth surface, which prevents water leaks due to breakage and bending, whilst being easy to clean and tangle-free.

EasyClean

One-piece shower hose is easy to clean and tangle-free thanks to its smooth surface.

Shower systems icon guide

Comfort control

Direct water to the desired outlet with the button marked.

Height modification

An individual adaptation according to the user height and space of the shower enclosure is possible easily.

Aqua Massage

Intense shower flow with massage function that reduces your tension and relaxes your body

Aquarain

Produces the ideal rainfall for a quick and refreshing start to your day.

Aquarain XL

Invigorating rainfall from the larger surface area ensures complete and consistent cover for your whole body.

Aquasoft

Thanks to its special technology AquaSoft Shower Flow relaxes you with its calmness that purifies both your body and soul.

Aquaspray

Thanks to its special technology, the water drops are more voluminous and soft.

Aqua Air Drop

Thanks to its special technology, the water drops are more voluminous and soft.

Aquastream

A soft flow of pure water from the shower head's centre, like a fresh spring falling, reduces stress.

Aquamist

A revitalizing misty flow glides gently over your skin for a relaxing feeling.

Waterfall

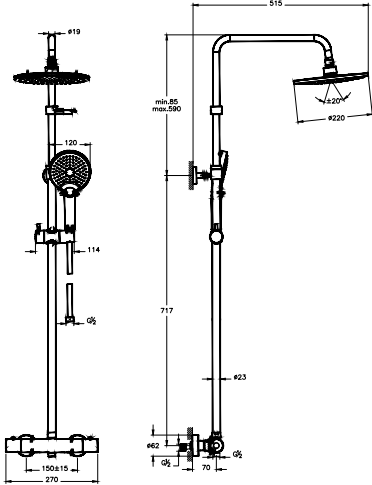

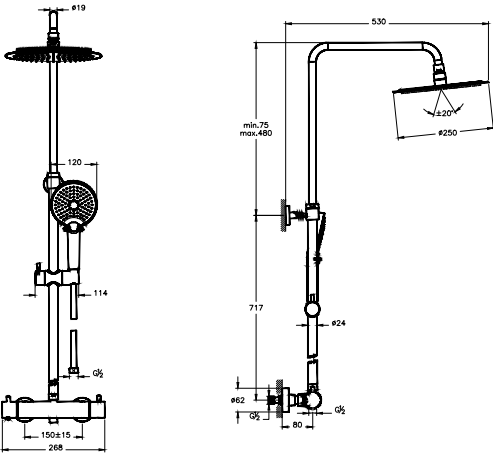

Feel the revitalizing effects of water cascading down on you like a waterfall.

Compatibility table of faucets with washbasins

Large compatibility table with columns for faucet models (A4060 to A2542) and rows for washbasin types (Juno, Root Round, Root Square, Flow Round, Flow Soft, Flow Square, Flo S, Minimax S, Fold S, Solid-S, Win S, Aquat'ech, Dynamic S). 'x' indicates compatibility, 'k' indicates partial compatibility.

Please refer vitra.com.tr for current table. Eczacibaşı Building Materials Co. reserves the right to make technical modifications and alter colors without prior notice.

Faucets & Shower systems

Compatibility table of faucets with washbasins

Table with columns: SERIE, CODE, FEATURE, and a grid of compatibility indicators (✓, x, ✓*) for various faucet models (Metropole, Shift, S50, S50 Compact, Zentrum, S20) across different washbasin types (Liquid, Istanbul, Memoria, Brava, Origin Classic, Suit, Origin, Origin Touch-Free).

✓ Compatible x Not compatible ✓* Compatible, but the special mounting dimensions should be used. Eczacıbaşı Building Materials Co. reserves the right to make technical modifications and alter colors without prior notice.

More durable, more practical and more aesthetic.

Unified water label

Unified Water Label indicates the water consumption level of faucets. Class A rating means maximum water saving with the same high level of comfort.

Energy saving

Blue Eco cartridge which works with 90 degree angle, prevents unnecessary working of your combi boiler by giving only cold water when opened in the middle position. Thus, it saves more energy.

Maximum hygiene

With its high hygiene standards, all the areas that the water touches are produced with materials which are hygienic and harmless to human health in Vitra faucets. They protect to color, taste and the smell of the water in its natural form.

Faucets & Shower systems

Adjustable cartridge

Vitra faucets provide extra energy and water saving thanks to its cartridges with temperature and flow limiters.

Easy cleaning

Vitra faucets, can be cleaned by a little touch thanks to its special aerators with silicon fiber. Clean aerators always provide smooth water flow and extend the product's life.

Moving aerators

Vitra moving aerators offer feasibility to change direction of the flow with a single touch. It flows the water wherever desired and it is compatible with different sizes of washbasins.

More durable, more practical and more aesthetic.

Flow variety

VitrA offers three different flow option to meet with user expectations. Standard, natural and rectangular water flow alternatives create different experiences and provide water flow forms in harmony with design lines.

Size variety

VitrA, with its wide product range for different usage and installation needs, offers a rich size variety to meet the needs of every bathroom design.

Long-lasting colors

Comparte to regular coating, VitrA provides ten times more durable and long lasting facial coating options thanks to its PVD coating technology

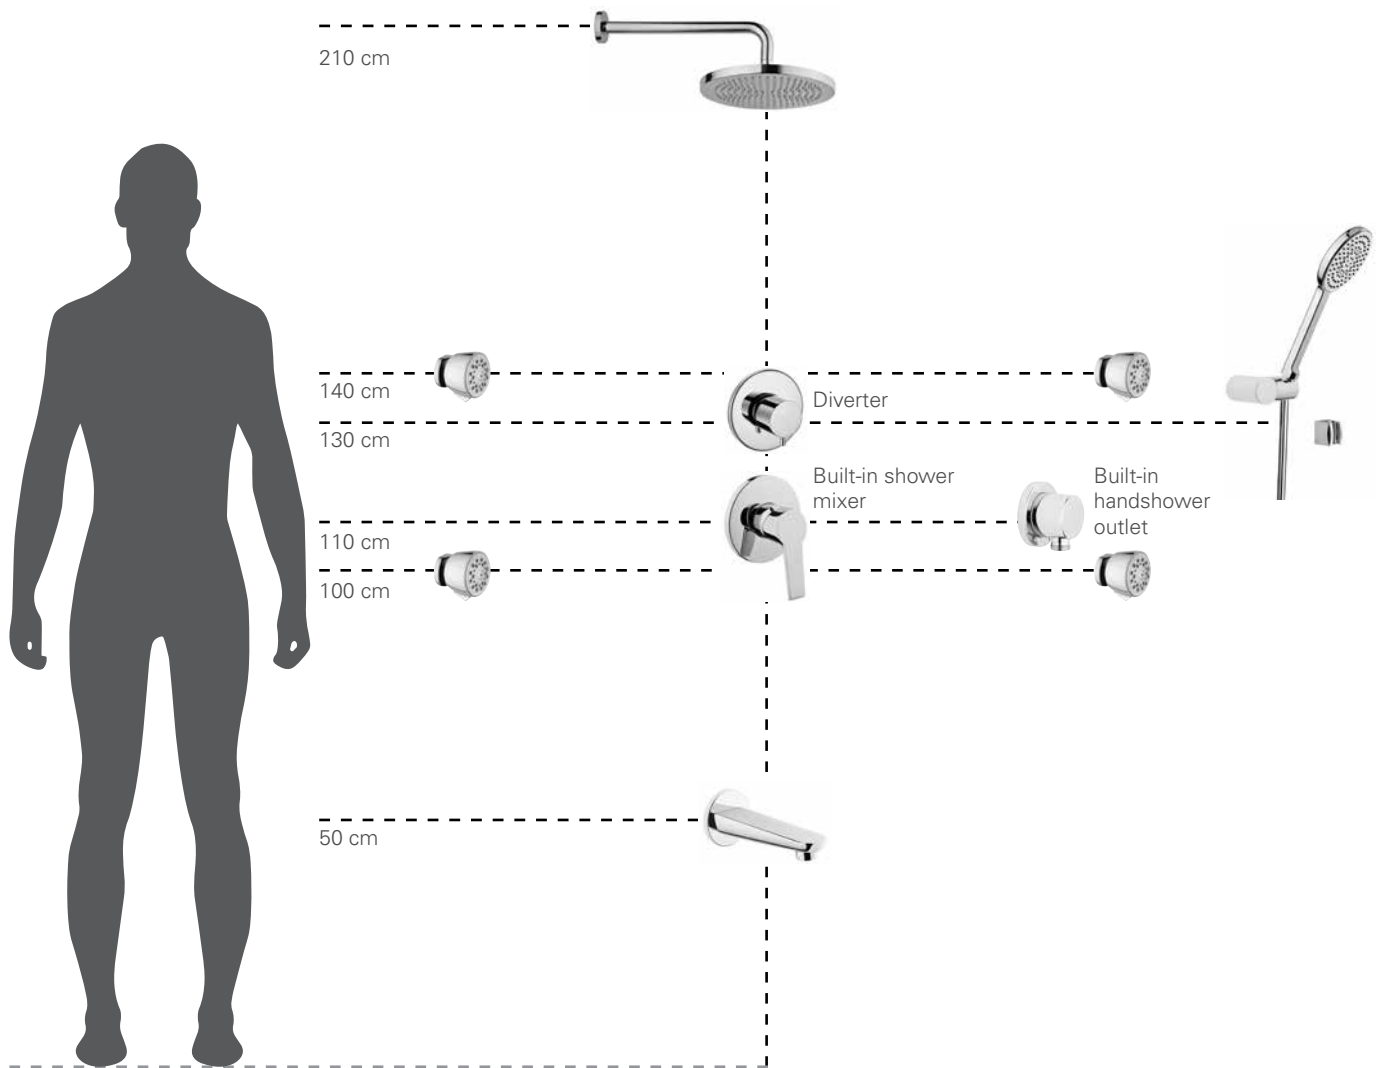

Variety of styles

VitrA bathroom faucets bring together the most innovative designs and products of different designs which will meet the changing tastes, styles and expectations

Faucets & Shower systems

Built-in bath/shower mixer - Suggested montage dimensions

* These dimensions are given for finished shower floor.

Built-in bath/shower mixer - Combinations

Combination 1

- Built-in bath/shower mixer with 2 ways diverter.
 - First way to spout.
 - Second way to showerhead.
- This combination is available for following series: Nest Trendy, Matrix, Sento, Q-Line, X-Line, Flo S, Minimax S, Dynamic S, Fold S, Solid S

Combination 2

- Built-in bath/shower mixer with 2 ways diverter.
 - First way to spout.
 - Second way to showerhead.
- Handshower diverter on spout
- This combination is available for following series: Matrix, Sento, X-Line, Q-Line, Flo S, Minimax S, Axe S, Dynamic S, Fold S, Solid S

Combination 3

- Built-in shower mixer has one way.
- 3 ways diverter should be used for showerhead, handshower and spout combination.
- Built in handshower outlet should be used since bath spout has no handshower outlet on.
- This combination is available for following series: Q-Line, Flo S, Minimax S

Combination 4

- Built-in shower mixer has one way. It can't be used with a handshower by selecting a bath spout with handshower outlet.
- This combination is available for following series: Sento, X-Line, Q-Line, Flo S, Minimax S, Axe S, Solid S, Fold S

Bathroom furniture icon guide

Wood veneer

Furniture surfaces are genuine wood veneer or composite veneer.

Motion sensor

Bathrooms are now more comfortable with lighting systems that detect motion and activate illumination.

Touch sensor

Without any requiring on-off button, touch sensor can react the user by just touch.

Ambiance LED lighting

With ambiance LED lighting stylish atmospheres can be created in the bathrooms.
This product contains a light source of energy efficiency class <E> to Regulation (EU) No 2019/2015

Sanded LED lighting

Sanded LED lighting provides a functional use by illuminating the user's face thanks to the light hidden under the sanded mirror.
This product contains a light source of energy efficiency class <E> to Regulation (EU) No 2019/2015

Armature LED lighting

User face can be clearly illuminated thanks to strong LED light of armature LED lighting.
This product contains a light source of energy efficiency class <E> to Regulation (EU) No 2019/2015

Interior LED lighting

The interior lighting options ensure that the storage space of the furniture is bright during use.
This product contains a light source of energy efficiency class <E> to Regulation (EU) No 2019/2015

Anti fog mirror

With its anti-fog mirror models, VitrA offers solutions that make life easier.

Magnifier mirror

Magnifying mirror offers versatile functionality for different needs.

Double mirror

Double mirror models offer comfortable and elegant solutions for bathrooms.

Bathroom furniture icon guide

Soft-closing

The gently slowed movement of drawers, doors and lids ensure silent operation and enhance safety for children or elderly users.

Push to open

Designed without handles for an uncluttered symmetrical look, furniture doors and drawers are easily opened with a gentle push.

Full extension

Full extension drawers offer ease of use and optimum utilization of storage space.

Special needs

VitrA bathroom products designed to accommodate seniors and people with special needs are wheelchair accessible and provide enhanced convenience in the bathroom.

Power plug

Installed inside cabinets, plugs offer practical and elegant solutions for bathrooms.

Glass shelves

Glass shelf models create elegance and functionality in bathrooms.

Horizontal / Vertical use

Can be used horizontally or vertically depending on needs.

Dimmable

The dimmable feature can increase/decrease the brightness of the light.

FSC™

The Forest Stewardship Council™ (FSC™) is a global, not-for-profit organization dedicated to the promotion of responsible forest management worldwide. FSC defines standards based on agreed principles for responsible forest stewardship that are supported by environmental, social, and economic stakeholders. To learn more, visit www.fsc.org

Liquid

The supporting cast

The classic bathroom palette of black, white and chrome is complemented in Liquid's furniture options.

Under-washbasin closed storage offers a choice of scalloped stripes of Scandinavian glass or the robust stamp of perforated black metal mesh. With internal shelves of glass, the units can be floor or wall mounted. An open-storage alternative introduces contrasting lozenges of blue glass shelving oversailing a simple frame.

The collection's core palette is further extended in a choice of embossed wall tiles – offering understated tactility and infinite options for seamless personal creativity.

Plural

Shared Intimacy

Designed by Terri Pecora in collaboration with Design Studio Vitra, Plural offers the feeling of a vintage living room, inspired by the iconic mid-twentieth century look. Light and airy furniture is creatively embedded into the bathroom environment, introducing a welcoming domestic space where users can share time with others.

Plural's refined design language creates an atmosphere of sensual luxury. With an aesthetic mix and match of forms, finishes and colours, it brings objects and people together in a delightfully harmonious bathroom environment.

Origin

Silent gracefulness

Created by Design Studio Vitra, grace shapes the Origin Collection's minimalism. A systematic approach that complements and underlines the bathroom atmosphere, Origin is a meeting point for mixers, accessories, shower systems and counter solutions. Subtle lines, sleek designs and unmatched colour alternatives create a wealth of choice in sanitary ware, and lead to a truly customisable bathroom environment.

A shelf system like no other

Everything that is needed in the bathroom can be organised on shelves and in units that complement the graceful design. Units with integrated drawers allow quick access to needed items.

Bathroom units can be easily customised to different sized spaces, thanks to a choice of modules and dimensions. In 30- and 60 cm alternatives, the shelves can be combined with other shelves or side units in 60 cm or 90 cm.

Sento

Common sense, uncommon bathroom

The stunning design of Sento Collection is both charming and practical, meeting the individual needs of each bathroom. Sento's various modules present diverse and exclusive solutions for every bathroom to make them cozier and tidier. The collection offers various colours and forms for different tastes and preferences. Both mirror cabinets and standard mirrors offer an LED illumination feature.

Impressive pieces, functional solutions.

The washing machine unit also has a closed cabinet to neatly store anything you want. In this section, there is a laundry basket and shelf for storing cleaning materials. The elegant upper unit provides extra storage with its drawer and shelf details.

The tall unit is suitable for storing different size of cleaning materials. Air vents inside of the cabinet prevent humidity by providing good ventilation.

Sento

Smart solutions for bathrooms

Sento's modern lines and excellent colour harmony are dazzling. Moreover, the series offers a large range of products with suitable solutions for smaller areas.

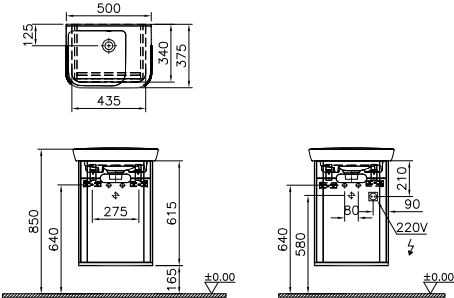

The tall unit, which is especially designed for functionality, has shelves for storage, a laundry basket and power plug, and a special area for storing personal care products.

The washbasin unit has a compact form that is suitable for smaller bathrooms and it provides extra storage.

The series offers various colours and forms for different tastes and preferences. Both mirror cabinets and flat mirrors offer LED illumination feature.

Root Collection

The ideal solution for your dream bathroom in 3 steps

The Root Collection, allows you to design the bathroom of dreams in just three easy steps.

- 1- For desired bathroom design, firstly different styles of washbasins, faucets and washbasin unit can be decided, then preferred combinations of colours can be chosen.
- 2- The right size for washbasin and washbasin unit can be defined according to the area of bathroom, followed by the height of preferred faucet.
- 3- By completing design with mirrors, tall units and units with additional storage, the perfect solution for the bathroom of dreams will become a reality.

Showering areas icon guide

VitrA antislip

Developed to offer safety against the risk of accidents. Bathtubs and shower trays treated with VitrA antislip will not get slippery over the years as a result of frequent contact with soap and water.

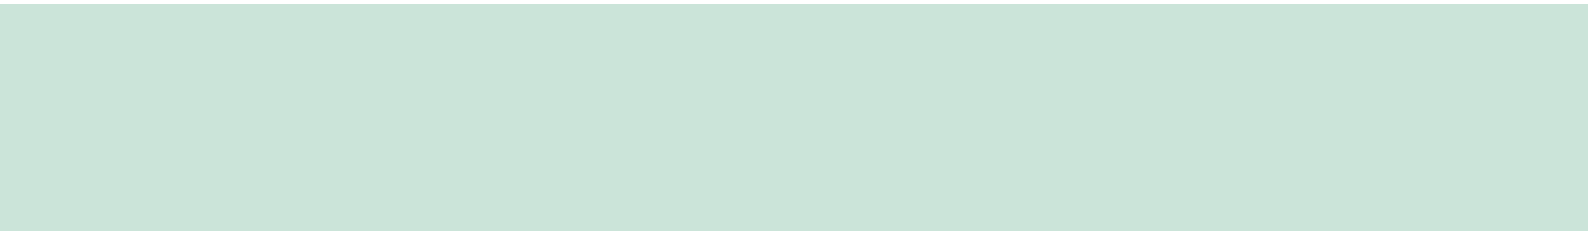

Special needs

VitrA bathroom products designed to accommodate seniors and people with special needs are wheelchair accessible and provide enhanced convenience in the bathroom.

General information

- Eczacıbaşı Building Materials Co. always keeps the rights to make any changes on the product.
- In case bath filler will be used for appropriate bathtub models, the drilling on product body can be done before the shipment if the code/model of the faucet is provided at CRM note at the time of order.
- For faucets usage on bathtubs please check page 1420-1421. Application areas shown are for body bathtubs and may vary for whirlpools. Contact VitrA officers for such applications.
- Since solid wooden items on products are of natural wood, colour and texture may vary.
- Complementary wooden items (panels, shower mats, shower system, etc) should be installed in enclosed areas avoiding exposure to outside weather conditions. Other wise, the product shall become out of scope of guarantee.
- Check product data sheets and technical documents for detailed information on installation.

Compact units

Zest Shower Unit	1303
Roomy Neo Shower Unit	1309
Cosey Mini Shower Unit	1313

Compact units

Functional, multi-purpose, very practical

VitrA systems make other showers seem as crude as washing yourself with a bucket and garden hose. Units offer a range of functionality and optional features (such as massage and steam bath) that transform your shower stall or bathtub into a fountain of renewal. Having a shower will never again seem like a chore.

Compact units			
Unit	Length	Width	Serie name
Compact shower unit	160	90	Zest (pg; 1221, 1222)
	150	90	Roomy (pg; 1227)
	150	80	Roomy (pg; 1228)
	120	90	Zest (pg; 1223, 1224); Roomy (pg; 1229)
	120	80	Roomy (pg; 1230)
	90	90	Zest (pg; 1225, 1226);

- **! Before installing the product make sure that;**
- The ceiling is Minimum 2,3 m high, for Zest, Zest Space it is 2,4 m high.
- The local water pressure is between 3-6 bars.
- The floor should be tiled of even.
- The walls are straight and the installation corner is exactly 90'.
- For built-in installations (flat and zero surface shower trays), a low floor application of 15 cm is required for the installation for the siphone and the depth of the shower tray.
- The assembly of the zero surface shower trays should be done at the same time with tiling. The water proof membrane should be placed below tiles.

- 2 years warranty is offered for all showering areas product. Please check general information on page 1407.
- Please check installation guide for page 1279.

Istanbul

Designed by Ross Lovegrove

Pure and natural organic forms

Inspired from Istanbul's mixed culture and traditions but a series of future ... Istanbul, Ross Lovegrove, almost defines beauty again. Completes the series with bathtub products.

Water Jewels

Designed by Matteo Thun

Sparkling elegance, a fabulous design!

With its oval acrylic structure, water-resistant wooden panel and special pop-up waste & overflow set, the Water Jewels Bathtub offers an exclusive bathroom experience.

4 Life

Ultimate comfort in impeccable style

The 4 life Series, offering various alternative shapes, stands out with its aesthetic design.

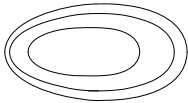

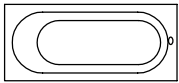

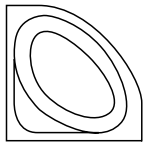

Combo

Twice the function, twice the pleasure

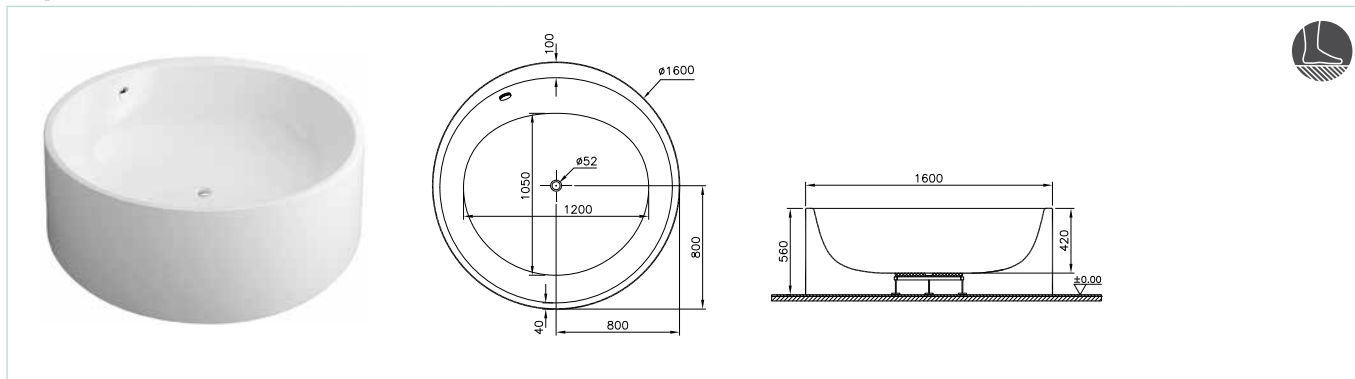

Regenerating bathing experience from all aspects... While a purifying and reviving shower ensures that you start the day full of energy, you can get rid of the fatigue of the day with a lengthy and relaxing soak in the bathtub.

You can enter the bathing section of Combo through its door, where you will be able to enjoy the pleasures of both a shower and a bath, with ease.

V-Flow

Designer drains for bathroom refinement

With its continuous, aesthetic and modern look, V-Flow shower channel complements the elegance of residential areas and hotel rooms. Zero to surface assembly makes the V-Flow shower channel almost invisible, providing ergonomics and easy cleaning. To create distinctive and elegant alternatives in your residential and hotel projects, V-Flow is available in matt, high gloss and gold finishes.

V-Flow

Aquawall

Unusual with its vertical use.

- Can be cut in any size between 30 - 100 cm
- No joint gap
- Metal frame
- Matt, shiny chrome and gold colour options.
- Smooth water drainage through S type siphon

Thin Cut

Superbly slim, elegant look.

- Can be cut in any size up to 30 cm.
- No joint gap
- Metal frame
- Matt, shiny chrome and gold colour option
- Smooth water drainage through S type siphon
- Available in 60 cm, 90 cm, 120 cm, 200 cm, 300 cm and 600 cm (for projects) sizes.

Elegant

Perfect nish, harmonious integrity.

- No joint gap
- Metal frame
- Matt, shiny chrome and golden colour options
- Option to place tiles on cover.
- Circular side and bottom siphon options
- Smooth water drainage with Type S siphon
- Available in 30 cm, 50 cm, 60 cm, 70 cm, 80 cm, 90 cm, 100 cm, 120 cm sizes.

Clear Cut

Both elegant and affordable.

- Can be cut in any size between 40 - 80 cm.
- Metal frame
- Matt and shiny chrome colour options
- Can be installed in front of wall or in the middle of shower
- Smooth water drainage through S type siphon

Style

Multiple alternatives, affordable price.

- Joint gap
- No frame
- Matt coated cover option.
- Option to place tiles on cover.
- Circular side and bottom siphon options
- Smooth water drainage with Type S siphon
- Available in 30 cm, 50 cm, 60 cm, 70 cm, 80 cm sizes.

General information

- Eczacıbaşı Building Materials Co. always keeps the rights to make any changes on the product.
- In case bath filler will be used for appropriate bathtub models, the drilling on product body can be done before the shipment if the code/model of the faucet is provided at CRM note at the time of order.
- For faucets usage on bathtubs please check page 1422 Application areas shown are for body bathtubs and may vary for whirlpools. Contact VitrA officers for such applications.
- Since solid wooden items on products are of natural wood, colour and texture may vary.
- Complementary wooden items (panels, shower mats, shower system, etc) should be installed in enclosed areas avoiding exposure to outside weather conditions. Other wise, the product shall become out of spoce of guarantee.
- **Check product data sheets and technical documents for detailed information on installation.**

Usage of wooden complementary items

General warnings about usage of wooden complementary items

- Colour and texture may vary since solid wooden parts of products are made of natural wood.
- Complementary wooden items (panel, matt, shower system etc.) should be installed in enclosed areas. Products intended for use at home or in enclosed areas should not be used in areas subject to outside weather conditions, under direct sunlight, rain, moisture etc, at gardens or in areas, washed with water, in order to preserve its lifetime. Otherwise, the product shall become out of scope of guarantee.
- Wet bath fibers left on product and the liquids leaking from soap and shampoo bottles may result in colour changes on product.
- Do not use hydrochloric acid, abrasive/ powder detergent, soft soap and hard /scratching cleaning sponge for cleaning wooden items. Avoid contact with bleachers, organic solutions, paint removers acetone and other solvents.

Key notes about usage of wooden panels

- Wooden panels should not be left wet for a long time, it should be dried with cloth after each usage to ensure a better and longer lifespan.
- Bathroom floor should be cleaned by wiping to avoid contact of product with plenty of water.
- Wooden wipers are not recommended since wooden panel is varnished.
- Use of a soft cloth and glass cleaner in cleaning of wooden surface is adequate. Wipe the cloth in the direction of coating, not with circular movements.
- Installation of wooden panels should not be done at the same level with bathroom floor to avoid damaging of wooden panels from water accumulating on the floor during bathing or cleaning.
- Use of enclosure on wooden panel products should be recommended. It should be ensured that water splashed from the edges of bathtub, walls or shower heads during bathing is kept on the surface of enclosure glass and flowed into the product.
- You can refer to VitrA Bathtub Officers for removal of scratches appeared on the surface of wooden panel as a result of accident and stroke.

Considerations about usage of wooden shower matts

- Wooden matt is made of natural iroko wood and iroko wood is among the most water resistant woods.
- As wooden matts are natural materials, it is likely to release its own sap during usage.
- Since wooden matts are suitable for raw use, they are supplied with no varnish or finish and should be cleaned with a soft cloth and warm water after each use. Otherwise, unmelted soap products, dirt and limewater create a thin layer on wooden base making it hard to clean up.
- In addition to the cleaning after each use, you can opt to use wooden surface cleaners recommended for varnish and finish-free surfaces. You can supply such wooden surface cleaners from DIY stores.
- Usage of surface cleaners are recommended at every 6 months and the maintenance should be completed by using teak oil. This applicaiton is crucial in case the wooden parts are subject to sunlight in the bathroom.
