

Cleveron 302

Cleveron 302 is a modular parcel locker with proven reliability in handling high parcel volumes

- > You can choose the layout, number of columns and slots according to your needs. The final price will form based on the number of columns and slots.
- > The doors on the column can be chosen to open to the right or to the left. The parcel locker can also be installed in a corner.
- > Cleveron 302 is convenient to use for handling up to 200 parcels a day. For higher volumes, Cleveron's robotic-based 400 series is recommended to ensure efficiency and convenience.
