ENDTB – G7

ENDTB Policy on recognition of PCN aerospace certificates for NDT personnel operating under EASA Part 145

In accordance with the requirements of EN 4179, the Estonian National Aerospace NDT Board (ENDTB) is entitled to recognise equivalency and In this regard, the Estonian NDT Board has agreed that the PCN/AERO will be recognised by the board as satisfying the qualification requirements of EN 4179.

This recognition includes PCN Aero examinations conducted at overseas PCN aerospace-approved AQB (Authorised Qualifying Bodies).

However, it remains the responsibility of the Nominated Level 3 NDT specialist to determine whether additional job-specific training and examination is required, covering the NDT processes and products used by the employer. This shall be conducted as per the requirements of EN4179 Section 8.4 c).

This responsibility is defined under the Estonian Civil Aviation Authority (EE CAA) General Requirements.

Signed on behalf of the Estonian National Aerospace NDT Board (ENDTB)

Dave Spearman
Chairman of ENDTB
