GUIDED QUESTIONS FOR GROUP DISCUSSION AND PROMISES - Appendix 4

GUIDED QUESTIONS FOR GROUP DISCUSSION AND PROMISES

NB! Print economically, cut the paper in half/three parts!

ROOT CREATURES

- a) Could there be a way to add some vitamins for the Tree into the water? b) Could some kind of a filtering system be implemented?
- c) Maybe there's nothing to do at all and the problems will solve themselves somehow?
- d) Would it be possible to go help the Bark Creatures to cut down mushrooms?
- e) Any other ideas?

WE PROMISE that in the future...

BARK CREATURES

- a) Should we cut down more mushrooms, and faster, and also ask for other Creatures to help?
- a) Should we try to eat the mushrooms?
- b) Would it be possible to go help the Root Creatures to purify the water? c) Should we abandon our homes and move to live with another group? d) Any other ideas?

WE PROMISE that in the future...

FRUIT CREATURES

- a) Could we start living in the mushrooms?
- b) Could several creatures live together in one fruit?
- c) Could we leave some fruits just for food and not live in them?
- d) Could we eat less sweet nectar and also party less?
- e) Any other ideas?

WE PROMISE that in the future...

SHADE CREATURES

- a) Could we give less nectar to the Sun Creatures?
- b) Could we invite some other residents to live with us, since we seem to have enough nectar to share?
- c) Why do we have to do anything at all, we haven't hurt anyone?
- d) Do we close our doors to everyone else and live in peace ourselves because there is not much wrong for us?
- e) Any other ideas?

WE PROMISE that in the future...

the European Union

SUN CREATURES

- a) Can we move to live in the shade, if there's more nectar?
- b) Could we drink less nectar? Party less?
- c) Should partying be replaced by meditating? Would we be we happier then?
- d) What kind of a life would it be without parties?
- e) Any other ideas?

WE PROMISE that in the future...
