

GREENADeN -Green Skills Adaptation and Development for Nordic Region

GreenADeN (www.inai.fi/projects/greenaden)

works with green skills development in Nordic and Baltic countries. The project discusses topics of long-term targets in mitigation of climate change in the region while adopting the best European practices in the climate change mitigation in compliance with the Nordic Vision 2030 and the European Green Deal agenda.

Partners

Innovation Acceleration Institute, Kemi, Finland; www.inai.fi

Húsavík Academic Center, Iceland; hac.is

Peipsi Center for Transboundary Cooperation, Estonia; ctc.ee

Institute for Civil Society, Interfolk, Denmark; interfolk.dk

Activities

The GreenADeN

ImpactXchange hackathon -

focuses on adapting European Climate Change Policies to the context of the Nordic and Baltic regions. We aim at:

- ◇ Facilitating Green Skills Development - fostering innovation and creativity; finding solutions to environmental challenges aligned with the European Green Deal through IT tools.
- ◇ Establishing a 'Green' Mindset' by emphasizing sustainability, gender equality, and youth perspectives

Ideation Phase – August 2024

Project Submission Phase – Sept. 15-21.
