

“

Ah! The element of SURPRISE,,

AHHAA

igniting curiosity, inspiring change

WHAT?

At AHHAA, science isn't something you read about – it's something you dive into! From hands-on exhibits and workshops to planetarium adventures and science theatre shows and exciting projects, we turn learning into pure joy.

WHY?

Science is a superpower that has the ability to change the world – it fuels innovation, solves problems, and makes the impossible possible. Our mission is to make science exciting and accessible for everyone and inspire the scientists and innovators of tomorrow.

WHOM?

Our doors are open to anyone eager to explore! Whether you're a curious kid, a fact-hungry teen, or an adult eager to rekindle your love for learning, AHHAA is here to cater to your curiosity. You'll find endless ways to explore, play, learn and grow.

ROBOBATTLE

A yearly competition for autonomous or remote controlled battlebots where the machines set off to fight each other in a purpose-built arena until only one battlebot comes out victorious.

ASTRONAUT FOR A DAY

An out-of-this-world program that inspires Estonians to explore space and science. The project aims to find and train passionate school children with the potential to experience weightlessness during parabolic flights.

RAKETT69 SCIENCE CAMPS

Science Camps that offer an opportunity for young learners to explore STEM fields through hands-on experiments and challenges. Inspired by the award-winning TV show, fostering creativity, teamwork, and practical knowledge.

RAKETT JUUNIOR

An educational TV show designed to spark young students' curiosity about science through engaging and interactive challenges. Participants develop curiosity, creativity, and essential STEM skills while collaborating on age-appropriate experiments.

Join us in inspiring the next generation of scientists, engineers, and innovators. Explore opportunities to cooperate at marketing@ahhaa.ee
