

5L Reusable keg

1. Dimensions/Volume/Weight

Diameter	200 mm
Height	302mm
Volume	5.2 L
Weight (empty keg)	1.36 kg

2. Materials

Inner bag	9 layers laminate, Multi layers high barrier
Valve	PA (food grade)
Spear housing	PA (food grade)
Springs (food contact)	Stainless Steel 304
Springs (non food contact)	Stainless Steel 304
Seals	TPE (food grade)
Keg	HDPE
Others	PP

3. Shelf life

Filled keg	Depends on filled beverage, up to 12 months
O ₂ pick up per year	< 0.3 ppm
CO ₂ loss per year	<5% (carbonization: 5.5g/L)

4. Mechanical/physical Properties

Operation temperature	0° C ~ 45° C
Maximum dispense pressure	2 bar
Maximum pressure	10 bar, free of explosion
Maximum force loading on spear	100 kg
Disposal	The Gprokeg is designed to give an extreme low impact on the environment, the empty keg is 100% recyclable, the product is 100% compliant to the EU Directive 94/62/EC

5. keg coupler type

Specific coupler fit with Gprokeg specific dispensing/filling tool

6. Food contact

EU food contact approval	All materials and additives used for the components intent to contact with food comply with European regulation EU10/2011
FDA	All materials and additives used for the components intent to contact with food comply with FDA cfr 175.300
Flavor/taste stability	All materials intent to contact with beverages are free of small molecular migration and free of chemical reaction with content of beverages, keeping flavor/taste stability of beverages.

7. Palletizing

Empty keg (for HC container)

Pallet size	1200x1000x110mm, one-way
No. of layers	8
Kegs per layer	30
Kegs per pallet	240
Orientation	Upside up
Height	2.46m (for HC container)
Weight	337kg
Pallets are wrapped with stretch film	

Empty keg (for GP container)

Pallet size	1200x1000x110mm, one-way
No. of layers	7
Kegs per layer	30
Kegs per pallet	210
Orientation	Upside up
Height	2.2m (for GP container)
Weight	296kg
Pallets are wrapped with stretch film	

Filled keg

No. of layers	8
Kegs per layer	30
Kegs per pallet	240
Orientation	Upside up
Height	2.46m (for HC container)
Max. layers in warehouse	16
