EarthChoice Hinged Lid Containers

Microwave safe

This new line of “to-go” hinged lid containers that captures the latest innovations in food packaging materials.

“SmartLock” closing system provides an ideal tightness that prevents leakage and helps keep the product hot.

“EarthChoice” “SmartLock” hinged lid containers are made from Talc-Filled Polypropylene which contains average 40% less plastic polymers than standard polypropylene containers. This hybrid material is microwaveable (withstands temp. up to 121 °C degrees).

Ideal for takeaway food.

MealMaster Containers for Hot deli case and food delivery

MealMaster containers are perfect for hot and cold dishes, meat preparations and delicacies.

Used in gastronomy and cooking. These containers are suitable for "hot tables" - this allows the buyer to get the product warm. The innovative system of closing provides reliable delivery and guarantees safety of a product. Special notches at the bottom of this container allow to retain moisture and juice separately from the product itself. Due to this, the product remains crunchy.

MealMaster Hot deli case containers

If you are looking for an attractive fried food container that actually grabs your customer's attention with grab and go meals, this type of container will attract your attention. The innovative line of "ClearView" "MealMaster" containers eliminates the soggy mess and offers an attractive presentation that gets noticed.

"SmartVent" steam release system ensures that a product that goes in crispy comes out crispy, while the unique dimples in the base help trap grease away from food. Our clear lid and black bases create an upscale look, and unlike paper containers and plastic bags, the material in the Pactiv *Chicken Barn* won't leak. What's more, the convenient carrying handles provide your customers with an easy way to grab and go.

Convenient carrying handles provide convenient grip and transportation of the container.

Smart Tote Handles	Provide a convenient carrying handle, increasing customer satisfaction and repeat sales.
Dimples/Ribs in Base	Help trap grease away from food. Grease won't run out even when turned upside down. Help keep food from sticking to the base.
Smart Vent System	Allows steam to vent, keeping fried foods crisp.
Stacking	Can be stacked up to three high;
Ribbed Sidewalls	Offer superior strength, crush resistance.
Anti-Fog Dome	Enhances merchandisability in and out of hot case.
Exceptional Temperature Endurance	Maintains product integrity for up to 4 hours in a hot case.
Microwaveable Base	Provides one-time microwave reheating.

PET Cake Packaging – Smooth Dome

This exquisite and qualitative packaging is suitable for cakes and other confectionery.

The visual effect is achieved due to the transparency of the PET material. It improves the presentation of cakes in the display window, enables the consumer to visually evaluate the product.

The variety of sizes provides ample opportunities for creative fantasies of the manufacturers of cakes and pastries.

Due to the high strength of the lids and its thickness, it can withstand loads of up to 16 kg. It allows you to place up to 10 cakes on each other, and they will be well fixed. The use of PET packaging for cakes ensures optimization and reduction of logistics costs.

Heart shape trays

The unusual shape of this container is best suited for special occasions and holidays. Ideal for sushi sets, pies, donuts, “macarons” cookies and other confectionery products. The container is a heart-shaped form made of CPET material with a crystal clear lid made of PET material. The advantage of the CPET material is that it is suitable for heating up to 200 C degrees. It means that in this container you can bake, and then, putting on the lid, send it to the display window or for delivery.

This is more than just a look at modern trends in packaging.
This line is made from unbleached natural paper.
This paper was selected for the "EcoCraft" line due to its real effect on reducing waste raw materials.

- Chlorine-free paper
- Packed in 100% recycled paperboard inner-carton and tray dispenser packaging to reduce raw-material waste
- Soy-blended dry wax on interfolded sheets reduce reliance on petroleum wax
- New dispenser carton and tray design includes printed facts and information about the sustainability benefits of EcoCraft®
- EcoCraft® products, on average, contain 20% pre-consumer waste fiber
- Multiple EcoCraft® products are third-party certified compostable
- Reduces your carbon footprint by purchasing form-fitting, "right size," flexible packaging with high case counts and small case-cube size
- An experienced national network of sales representatives that can help advise your business on ways to improve your sustainable packaging design

We believe that the rational use of resources is a permanent path to development. This approach encourages the manufacturer to constantly improve the environmental friendliness of products. This commitment to new opportunities and innovations has created a recognizable brand of eco-packaging "EcoCraft".

Steak Paper

Paper for meat and meat products is the main choice of supermarkets and meat departments! It helps to keep the work surface dry and clean. Steak - paper helps to retain moisture in the meat, provides long-term strength in the wet state, it does not soften and will not break, because it has a special structure that absorbs excess moisture. On it, the meat in the display case and on the counter looks fresh and neat. Also paper is used for wrapping meat and meat products.

“EcoCraft” Freezer Paper Rolls

Thanks to the poly coating, the freezer paper allows you to store the product in the freezer. It also has excellent vapor barrier. On one side freezer paper is laminated. It provides excellent protection and helps to keep food frozen for up to one year. Since polyethylene is an integral part of the finished sheet, freezer paper is ideal for products with high moisture content. Suitable for packaging fresh fish and poultry.

Freezer paper is perfect for noodles and is widely used in the pasta industry. It is safe for the microwave oven that allows to defrost the meat wrapped in this paper easily and quickly.
