

PERSIA

Decorative paint, bright velvet effect

DESCRIPTION

PERSIA is the decoration in the name of beauty, elegance and refinement. Bright velvet effect with opalescent reflections and a soft touch accompanied by a silk sensation.

The very delicate, decorative and simple final effect make this paint ideal for the decoration of large surfaces, not limited to niches or single walls.

Due to its properties, PERSIA can be applied in multiple effects, as illustrated in the color chart.

PERSIA is presented in 2 bases:

PERSIA CH for light and medium colors.

PERSIA FT for strong colors.

APPLICATION

- The surface to be treated must be dry. Conditions and thickness of the plaster layer affect the drying and hardening time, so make sure it has at least 28 days of curing time, depending on temperature.

- The substrate has to be well prepared and suitable for coating: dry plaster, not any granules from plaster. In case of old walls make sure there is no poor or dusty paint: remove them if necessary as well as flaking paint.

- Apply 1 coat of SCIK PURAL ACRIL insulation if necessary.

- Choose the desired color from PERSIA color chart.

- Proceed applying with a brush or roller, one or two coats of DECOR FONDO SHINY COLORATO which has to be thinned up to 5-10 % with water. Allow to dry perfectly.

>>>> Note: DECOR FONDO SHINY can be ordered already colored, or it can be colored using either the tintometric system or TN SPECIAL syringe.

- Proceed with the application of PERSIA presented in 3 different effects:

PERSIA NUVOLATO:

- Apply with short-haired roller, a coat of the desired PERSIA color, leaving about 2 mm thickness.

- Immediately after, since the applied product is still fresh, smooth the coating with circular movements, using NUVOLA, stainless steel or PVC trowel.

- Allow to dry to appreciate the effect.

PERSIA WOOD:

- Apply with short-haired roller, a coat of the desired PERSIA color, leaving about 2 mm thickness.

- Immediately after, since the applied product is still fresh, create the wood effect, with the EFFETTO LEGNO tool.

- Allow to dry to appreciate its effect.

PERSIA TEXTURE:

- Apply with short-haired roller, a coat of the desired PERSIA color, leaving about 2 mm thickness.

- Immediately after, since the applied product is still fresh, roll the surface with RULLO TEXTURE, in order to recreate the typical
