1 we decided to travel to Spain to see how we would be treated from the female aspect of life.  
2 they crossed the door of the Iberia plane at the last call right in front of our nose.  
3 elders and adults complained at the desk and only a child was able to express and they only listened to the child. how man and woman they are and that is what happened  
4 they took many hours and there was no food other than things out of a can.  
5 my wife was a little sick before and because of that the next day they put her on the side in case she was on drugs. how brave they are. they make her more sick. Before as we travelled from Madrid to Malaga the child after so many hours and distress they said ho the child is crying he crashed.

1a once i moved from Spain to the US Spain said it was giving me a better life because at some point a guardia civil killed some ancestry that was searching for some potatoes between the times.

2b the smashed everything in the suitcase even thought the weight is weight and it was legal.

One was Iberia One was United. Decidí no tomar dinero de United tal y como era un drama y de Iberia ofrecieron nada, solo la compensación por el tiempo empleado.

3 b i was stopped to check my emotional level. What a waist. I left behind the wish of drama. Therefore you all have at least 92% of population the wish of drama.
